

stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species, in this case with the Greater Atlantic Regional Field Office (GARFO).

We requested initiation of consultation under section 7 of the ESA with NMFS GARFO for the issuance of this IHA. On July 30, 2020, NMFS GARFO determined our issuance of the IHA to Equinor was not likely to adversely affect the North Atlantic right, fin, sei, and sperm whale or the critical habitat of any ESA-listed species or result in take under the ESA.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our planned action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (incidental harassment authorizations with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review.

Authorization

NMFS has issued an IHA to Equinor for the potential harassment of small numbers of 17 marine mammal stocks incidental to the conducting marine site characterization surveys off the coast of Massachusetts, Rhode Island, Connecticut, New York or New Jersey in the area of the Commercial Leases of

Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS-A 0520 and OCS-A 0512) and along potential submarine cable routes to a landfall locations.

SUPPLEMENTARY INFORMATION:

Title: Disclosure and Retention of Certain Information Relating to Cleared Swaps Customer Collateral (OMB Control No. 3038-0091). This is a request for extension and revision of a currently approved information collection.

Abstract: Section 724(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111-023, 124 stat. 1376, amended the Commodity Exchange Act ("CEA"), 7 U.S.C. 1 *et seq.*, to add, as section 4d(f) thereof, provisions concerning the protection of collateral provided by a Cleared Swaps Customer to margin, guaranty, or secure a swap cleared by or through a

¹ 17 CFR 145.9.

derivatives clearing organization (“DCO”). Broadly speaking, in cleared swaps transactions customers provide collateral to futures commission merchants (“FCMs”) through whom they clear their transactions. FCMs, in turn, may provide customer collateral to DCOs, through which FCMs clear transactions for their customers. 17 CFR part 22 is intended to implement CEA section 4d(f). Several of the sections of Part 22 require collections of information.

Section 22.2(g) requires each FCM with Cleared Swaps Customer Accounts to compute daily the amount of Cleared Swaps Customer Collateral on deposit in Cleared Swaps Customer Accounts, the amount of such collateral required to be on deposit in such accounts and the amount of the FCM’s residual financial interest in such accounts. The purpose of this collection of information is to help ensure that FCMs’ Cleared Swaps Customer Accounts are in compliance at all times with statutory and regulatory requirements for such accounts.

Section 22.5(a) requires an FCM or DCO to obtain, from each depository with which it deposits cleared swaps customer funds, a letter acknowledging that such funds belong to the Cleared Swaps Customers of the FCM, and not the FCM itself or any other person. The purpose of this collection of information is to confirm that the depository understands its responsibilities with respect to protection of cleared swaps customer funds.

Section 22.11 requires each FCM that intermediates cleared swaps for customers on or subject to the rules of a DCO, whether directly as a clearing member or indirectly through a Collecting FCM, to provide the DCO with information sufficient to identify each customer of the FCM whose swaps are cleared by the FCM. Section 22.11 also requires the FCM, at least once daily, to provide the DCO with information sufficient to identify each customer’s portfolio of rights and obligations arising out of cleared swaps intermediated by the FCM. The purpose of this collection of information is to facilitate risk management by DCOs in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.12 requires that each DCO and FCM, on a daily basis, calculate, based on information received pursuant to section 22.11 and on information generated and used in the ordinary course of business by the DCO or FCM, and record certain information about the

amount of collateral required for each Cleared Swaps Customer and the sum of these amounts. As with section 22.11, the purpose of this collection of information is to facilitate risk management by DCOs and in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.16 requires that each FCM who has Cleared Swaps Customers disclose to each of such customers the governing provisions, as established by DCO rules or customer agreements between collecting and depositing FCMs, relating to use of customer collateral, transfer, neutralization of the risks, or liquidation of cleared swaps in the event of a default by a Depositing FCM relating to a Cleared Swaps Customer Account. The purpose of this collection of information is to ensure that Cleared Swaps Customers are informed of the procedures to which accounts containing their swaps collateral may be subject in the event of a default by their FCM.

Section 22.17 requires that each FCM produce a written notice of the reasons and the details concerning withdrawals from a Cleared Swaps Customers Account not for the benefit of Cleared Swap Customers if such withdrawal will exceed 25% of the FCMs residual interest in such account.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On July 17, 2020, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 85 FR 43547 (“60-Day Notice”) The Commission did not receive any comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burden for this collection for 78 respondents (63 FCMs and 15 DCOs). The respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents:

78.

Estimated Average Burden Hours per Respondent: 331.

Estimated Total Annual Burden Hours: 25,890.

Frequency of Collection: Section 22.2(g)—Daily.

Section 22.5(a)—Once.

Section 22.11—Daily.

Section 22.12—Daily.

Section 22.16—Once.

Section 22.17—On occasion.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: September 22, 2020.

Robert Sidman,

Deputy Secretary of the Commission.
