### Agency Information Collection Activities; Proposed eCollection eComments Requested Submission for Review: Electronic Submission Form for Requests for Corrective Action, Whistleblower Protection for Federal Bureau of Investigation Employees

**AGENCY:** Office of Attorney Recruitment and Management, Department of Justice.  
**ACTION:** 30-Day notice.

**SUMMARY:** The Department of Justice (DOJ), Justice Management Division, Office of Attorney Recruitment and Management (OARM), will be submitting this information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The information collection is a Request for Corrective Action Form, available on OARM's public website, for current and former employees of, or applicants for employment with, the Federal Bureau of Investigation (FBI) who wish to file a claim of whistleblower reprisal.

**DATES:** Comments are encouraged and will be accepted for 30 days until October 26, 2020.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting

“Currently under 30-day Review—Open for Public Comments” or by using the search function.

**SUPPLEMENTARY INFORMATION:** Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

### Overview of This Information Collection

- (1) Type of information collection: Extension.
- (2) Title of Form/Collection: Request for Corrective Action Form
- (3) The agency form number, if any/the applicable component of the department sponsoring the collection: No form number/Office of Attorney Recruitment and Management, Justice Management Division, U.S. Department of Justice.
- (4) Affected Public who will be asked or required to respond, as well as a brief abstract: Individuals. The application form is submitted voluntarily by individuals who are current or former employees of, or applicants for employment with, the FBI who allege reprisal for their whistleblowing activities.
- (5) An estimate of the total number of respondents and the amount of time estimated to respond/reply: An average of 15 respondents per year, and an average of three hours to complete the form.
- (6) An estimate of the total public burden (in hours) associated with the collection: About 45 hours.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (20-076)]

### Centennial Challenges Watts on the Moon Challenge Phase 1

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of Centennial Challenges Watts on the Moon Challenge Phase 1.

**SUMMARY:** The Watts on the Moon Challenge is open and teams that wish to compete may now register. Centennial Challenges is a program of prize competitions to stimulate innovation in technologies of interest and value to NASA and the nation. The Watts on the Moon Challenge is a prize competition with up to a \$5,000,000 USD total prize purse to incentivize advances in lunar power distribution, energy storage, and/or power management. At this time, NASA is opening Phase 1 of the competition, which has a \$500,000 USD prize purse. In this phase of competition, teams will develop concept proposals for technologies to address one or more "mission activities" in a hypothetical mission scenario based on anticipated mission operations and environmental features of human and robotic exploration of the lunar surface. NASA is funding the prize purse and administration of the challenge competition.

**DATES:** Phase 1 registration opens September 25, 2020 and will remain open until March 25, 2021. No further requests for registration will be accepted after this date.

Other important dates:  
September 25, 2020—Phase 1 registration opens  
March 25, 2021—Deadline for registration  
May 20, 2021—Phase 1 winners announced

**ADDRESSES:** The Watts on the Moon Challenge Phase 1 will be conducted virtually. The Challenge competitors will develop and submit their concept proposals from their own location.

**FOR FURTHER INFORMATION CONTACT:** To register for or get additional information regarding the Watts on the Moon Challenge, please visit: [www.nasa.gov/wattson](http://www.nasa.gov/wattson).

For general information on the NASA Centennial Challenges Program please visit: <http://www.nasa.gov/challenges>. General questions and comments regarding the program should be addressed to Monsi Roman, Centennial Challenges Program, NASA Marshall Space Flight Center, Huntsville, AL 35812 at 256-544-4071. Email address: [hq-stmd-centennialchallenges@mail.nasa.gov](mailto:hq-stmd-centennialchallenges@mail.nasa.gov).

#### SUPPLEMENTARY INFORMATION:

##### Summary

In the first phase of competition, teams will develop concept proposals for technologies to address one or more "mission activities" in a hypothetical mission scenario based on anticipated mission operations and environmental features of human and robotic exploration of the lunar surface. The Mission Scenario and the three associated Mission Activities are based on anticipated mission operations and environmental features of human and robotic exploration of the lunar surface. The characteristics of the Mission Scenario are purposefully intended to incentivize a wide variety of innovative technology solutions to the overall challenge of high capacity, adaptable, and reliable lunar power distribution and management systems that will be critical to the well-being and productivity of human crew and fledgling lunar surface industries.

The three Mission Activities present different combinations of power or energy capacity, distance between energy sources and the site of activity operations, mobility features, system mass limitations, and operational duty cycles that must be accommodated by teams. The activities each specify distinct operational consumption of electrical and/or thermal energy but are open to solutions that involve conversion between one and the other. The activities are intended to be essentially independent of the nature of the energy source employed, but competitive solutions will involve identifying and incorporating assumptions about an energy source into their concept.

##### I. Prize Amounts

The Watts on the Moon Challenge total prize purse is up to \$5,000,000 USD (five million dollars) to be awarded across two (2) phases of competition.

Prize purse for Phase 1 will total up to \$500,000. Up to three (3) winning teams, as determined by the Judging Panel, will be awarded \$100,000 each. Up to four (4) runner-up teams will receive up to \$50,000 each.
