

decided to consider revisions to NSCG questionnaire items to gauge the effects of the coronavirus pandemic on workforce issues, a follow-up email was sent to Dr. Reamer on 8 July 2020, informing him that revised items were being developed for testing and any proposed revisions would be included in the ICR submitted to OMB.

Comment: On 28 June 2020, Dr. Jon Freeman of New York University sent an email to NSF on behalf of the American Association for the Advancement of Science (AAAS) and the American Educational Research Association (AERA). He requested that measures of sexual orientation and gender identity (SOGI) be included in the 2021 NSCG and other future surveys of the National Center for Science and Engineering Statistics (NCSES).

Response: NSF responded to Dr. Freeman on 21 September 2020, informing him that NCSES intends to pursue research into the feasibility of collecting consistent and reliable SOGI data from individuals. However, due to time and resource constraints, no SOGI measures would be ready for inclusion in the 2021 NSCG.
