

ENVIRONMENTAL PROTECTION AGENCY**[FRL-10014-27-OMS]****Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Texas****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: This notice announces the Environmental Protection Agency (EPA) approval of the State of Texas's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA approves the authorized program revisions/modifications as of September 28, 2020.

FOR FURTHER INFORMATION CONTACT: Shirley M. Miller, Cross-Media Electronic Reporting Rule (CROMERR) Program Manager, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-2908, miller.shirley@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the

programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On August 18, 2020, the Texas Commission on Environmental Quality (TCEQ) submitted an application titled EPA NPDES Electronic Reporting Tool (NeT) for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed TCEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Texas's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR parts 123 and 501 is being published in the **Federal Register**:

Part 123: EPA-Administered Permit Programs: the National Pollutant Discharge Elimination System (NPDES) Reporting under CFR 122 & 125

Part 501: State Sludge Management Program Regulations Reporting under 40 CFR 503

TCEQ was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: September 4, 2020.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a no migration petition reissuance.

SUMMARY: Notice is hereby given that a reissuance of an exemption to the land disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has

This final decision allows the underground injection by INEOS, of the specific restricted hazardous wastes identified in this exemption reissuance, into Class I hazardous waste injection Wells WDW-163, WDW-164, and WDW-165 until December 31, 2028, unless EPA moves to terminate this exemption. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. A public notice was issued June 24, 2020, and the public comment period closed on August 10, 2020. No comments were received. OMB Control Number: 3060–1247.

Title: Part 32 Uniform System of Accounts.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 949 respondents; 1,944 responses.

Estimated Time per Response: 20–40 hours.

Frequency of Response: On occasion, and annual reporting requirements; recordkeeping requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 10, 201, 219–220, 224, 254(k), 272(e)(3), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 160, 201, 219–220, 224, 254(k), 272(e)(3), and 403.

Total Annual Burden: 69,820 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Respondents are not being asked to submit confidential information to the Commission. If the Commission requests respondents to submit information which respondents believe

is confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: On February 24, 2017, the Commission released the *Part 32 Order*, WC Docket No. 14–130, CC Docket No. 80–286, FCC 17–15, which minimized the compliance burdens imposed by the Uniform System of Accounts (USOA) on price cap and rate-of-return telephone companies, while ensuring that the Commission retains access to the information it needs to fulfill its regulatory duties. The Commission consolidated Class A and Class B accounts by eliminating the current classification of carriers, which divides incumbent LECS into two classes for accounting purposes based on annual revenues. Carriers subject to Part 32’s USOA are now only required to keep Class B accounts.

Pursuant to the *Part 32 Order*, price cap carriers may elect to use generally accepted accounting principles (GAAP) for all regulatory accounting purposes if they: (1) Establish an “Implementation Rate Difference” (IRD) which is the difference between pole attachment rates calculated under Part 32 and under GAAP as of the last full year preceding the carrier’s initial opting out of Part 32 accounting requirements; and (2) adjust their annually-computed GAAP-based pole attachment rates by the IRD for a period of 12 years after the election. Alternatively, price cap carriers may elect to use GAAP accounting for all purposes other than those associated with pole attachment rates and continue to use the Part 32 accounts and procedures applicable to pole attachment rates for up to 12 years. A price cap carrier may be required to submit pole attachment accounting data to the Commission for three years following the effective date of the rule permitting a price cap carrier to elect GAAP accounting. If a pole attacher informs the Commission of a suspected problem with pole attachment rates, the Commission will require the price cap carrier to file its pole attachment data for the state in question. This requirement may be extended for an additional three years, if necessary.

The Commission reduced the accounting requirements for telephone companies with a continuing obligation to comply with Part 32 in a number of areas. Telephone companies may: (1) Carry an asset at its purchase price when it was acquired, even if its value has increased or declined when it goes into regulated service; (2) reprice an asset at market value after a merger or acquisition consistent with GAAP; (3) use GAAP principles to determine

Allowance-for-Funds-Used-During Construction; and (4) employ the GAAP standard of materiality. Rate-of-return carriers receiving cost-based support must determine materiality consistent with the general materiality guidelines promulgated by the Auditing Standards Board. Price cap carriers with a continuing Part 32 accounting obligation must maintain continuing property records necessary to track substantial assets and investments in an accurate, auditable manner. The carriers must make such property information available to the Commission upon request. Carriers subject to Part 32 must continue to comply with the USOA's depreciation procedures and its rules for cost of removal-and-salvage accounting.

Pursuant to the October 24, 2018 *Rate-of-Return Business Data Services Report and Order*, WC Docket No. 17–144, FCC 18–146, rate-of-return carriers currently receiving model-based or other fixed high-cost support may voluntarily elect to transition their business services offerings from rate-of-return to incentive regulation. Thus, electing carriers that choose to use GAAP instead of the Uniform System of Accounts are relieved of virtually all of the filing and recordkeeping requirements of the Uniform System of Accounts, with the sole exception of the same data provisioning requirements for the calculation of pole attachment rates as price cap carriers.

Federal Communications Commission.

No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this revised information collection to the Office of Management and Budget (OMB) after this 60-day comment period to obtain the three-year clearance.

The December 2019 radiofrequency (RF) exposure Second Report and Order, ET Docket Nos. 03–137 and 13–184, FCC 19–126, included amendments to rule sections 1.1307, 2.1091, and 2.1093 requiring approval by OMB under the Paperwork Reduction Act. Revision to information collection effected by amendments to rule sections 2.1091 and 2.1093 is reported herein. Revision to information collection effected by amendments to rule section 1.1307 is reported separately under OMB 3060–0004.

In amendments to rule sections 2.1091 and 2.1093, the Commission revised its implementing rules to reflect modern technology and today's uses. We replaced a requirement which relied on consideration of the rule part under which the equipment would operate, the portion of the electromagnetic spectrum where the equipment is designed to operate, and technical characteristics of the equipment to determine if the equipment would be subject to routine environmental evaluation for RF exposure prior to equipment authorization. The rule modifications adopted a formula for evaluation of compliance with RF exposure limits and determination whether an environmental assessment would need to be prepared if the limits are exceeded. The amended rules provide more efficient, practical, and consistent RF exposure evaluation procedures and mitigation measures to help ensure compliance with the existing RF exposure limits.

RF equipment manufacturers must comply with the requirements of rule sections 2.1091 and 2.1093 when submitting an application for certification under rule section 2.1033. The changes to rule sections 2.1091 and 2.1093 will not affect the number of respondents or number of responses associated with this information
