

exemption may be renewed (49 CFR 381.300(b)).

III. Request for Exemption

The Ohio DPS requested an exemption from the requirement in 49 CFR 383.77(b)(2)(i)(A) and (C) that an applicant for a skills test waiver certify that he/she (1) is regularly employed or was so employed within the last year in a military position requiring operation of a CMV, and (2) operated a vehicle representative of the CMV that the driver operates or expects to operate for at least 2 years immediately preceding discharge from the military. In lieu of those requirements, Ohio DPS proposed that the applicant be required to have held a military position that required operation of a CMV for at least 2 years sometime during his/her military career, thus eliminating the current 1-year window to apply for a skills test waiver.

According to Ohio DPS, its goal is to promote the opportunities for experienced CMV operators who have served in the military by reducing the regulatory burden of obtaining a CDL. By doing so, Ohio DPS hopes that an increase in the population of CDL holders will benefit the Ohio transportation industry, and create better civilian employment opportunities for Ohio veterans and service members.

In addition, as this issue could be applicable in each of the States, FMCSA requested public comment on whether the exemption, if granted, should cover all State Driver's Licensing Agencies (SDLAs).

A copy of the Ohio DPS's application for exemption is available for review in the docket for this notice.

IV. Method To Ensure an Equivalent or Greater Level of Safety

To ensure an equivalent or greater level of safety, Ohio DPS proposed a skills test waiver process in which the applicant would submit the following documentation to the Bureau of Motor Vehicles: (1) A violation-free driving record for the last 2 years; (2) proof of being regularly employed in a military position requiring operation of a CMV; and (3) proof of experience operating a representative vehicle which was exempt from the requirements of 49 CFR 383.113(c) for at least 2 years. In addition, applicants would be required to submit an Ohio waiver form similar to FMCSA's Military Skills Test Waiver

form, currently found on FMCSA's website.

V. Public Comments

On April 18, 2019, FMCSA published notice of the application and requested public comment (84 FR 16330). The Agency received 37 comments, 35 of which favored both the exemption and its extension to all SDLAs. Among the advocates for the exemption were the Pennsylvania Department of Transportation (PennDOT); the American Beverage Association; the Ohio Trucking Association; the Ohio Propane Gas Association; and the National Propane Gas Association (NPGA); and two individual commenters. Additionally, 27 Members of Congress jointly expressed support for the application. A primary reason cited for the exemption was the trucking industry's serious need for qualified, skilled drivers. Commenters believed that the exemption would be a positive step toward addressing that need and would simultaneously credit the relevant skills and experience gained through military service toward obtaining a CDL.

NPGA stated, ". . . It is clear that the depth and breadth of military vehicle training is beyond the civilian skills assessment for a CDL. Similarly, it is evident that military supervisors possess considerable expertise to assess the adequacy of an individual's skills during military service. Thus, the training, assessment, and supervision that a veteran received during military service presents at least the same level of safety, if not greater, as the level of safety achieved by administering the skills assessment of the CDL exam to military veterans."

Two individuals opposed the Ohio DPS request. One commenter noted that "No length of time is stipulated, hence a driver who drove a military vehicle 10 years ago would qualify even though he has no recent experience. Vehicles change frequently with upgrades to safety and technology."

VI. FMCSA Response and Decision

FMCSA has evaluated the Ohio DPS' application and the public comments and has concluded that the applicant did not provide an alternative that would ensure an equivalent level of safety under the exemption. Although a majority of the docket commenters favored the exemption, none provided

supporting data. The Agency does not have data to determine whether the skills required to operate a CMV decline over time when not used regularly, which the exemption application would allow. For these reasons the Agency has decided to deny the exemption request.

Deputy Administrator.
