

comment letters on the Proposed Rule Change.⁴

On May 21, 2020, pursuant to Section 19(b)(2) of the Act,⁵ the Commission designated a longer period within which to approve, disapprove, or institute proceedings to determine whether to approve or disapprove the Proposed Rule Change.⁶ On June 24, 2020, the Commission instituted proceedings pursuant to Section 19(b)(2)(B) of the Act,⁷ to determine whether to approve or disapprove the Proposed Rule Change.⁸ The Commission received additional comment letters on the Proposed Rule Change.⁹

Section 19(b)(2) of the Act¹⁰ provides that proceedings to determine whether to approve or disapprove a proposed rule change must be concluded within 180 days of the date of publication of notice of filing of the proposed rule change. The time for conclusion of the proceedings may be extended for up to 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination.¹¹ The 180th day after publication of the Notice in the **Federal Register** is September 27, 2020.

The Commission is extending the period for Commission action on the Proposed Rule Change. The Commission finds that it is appropriate to designate a longer period within which to take action on the Proposed Rule Change so that the Commission has sufficient time to consider the issues raised by the

Rule Change and the Advance Notice shall not take effect until all regulatory actions required with respect to the proposal are completed.

BILLING CODE 8011-01-P

DEPARTMENT OF STATE

[Public Notice 11217]

The State Department's Cuba Prohibited Accommodations List

AGENCY: Department of State.

ACTION: Initial publication of list of properties; notice.

SUMMARY: The Department of State is publishing the Cuba Prohibited Accommodations List identifying properties subject to additional prohibitions with respect to certain lodging-related transactions under the Cuban Assets Control Regulations (CACR).

DATES: Effective on September 28, 2020.

FOR FURTHER INFORMATION CONTACT:

Emily Belson, Office of Economic Sanctions Policy and Implementation, tel.: 202-647-6526; Robert Haas, Office of the Coordinator for Cuban Affairs, tel.: 202-453-8456, Department of State, Washington, DC 20520.

SUPPLEMENTARY INFORMATION:

Background

On June 16, 2017, the President signed National Security Presidential Memorandum 5, "Strengthening the Policy of the United States Toward Cuba" (NSPM-5). As part of its implementation of NSPM-5, on September 28, 2020 the Department of the Treasury's Office of Foreign Assets Control (OFAC) published a final rule in the **Federal Register** [FR 2020-21084] amending the CACR, 31 CFR part 515. The regulatory amendment to the CACR, among other things, adds new § 515.210, which generally prohibits persons subject to U.S. jurisdiction from lodging, paying for lodging, or making any reservation for or on behalf of a third party to lodge, at any property in Cuba

¹² *Id.*

¹³ 17 CFR 200.30-3(a)(57).

that the Secretary of State has identified as a property that is owned or controlled by the Cuban government, a prohibited official of the Government of Cuba as defined in § 515.337, a prohibited member of the Cuban Communist Party as defined in § 515.338, a close relative, as defined in § 515.339, of a prohibited official of the Government of Cuba, or a close relative of a prohibited member of the Cuban Communist Party when the terms of the general or specific license expressly exclude such a transaction. Such properties are identified on the State Department's Cuba Prohibited Accommodations List (CPA List), published below and accessible on the State Department's website. (<https://www.state.gov/cuba-sanctions/cuba-prohibited-accommodations>). The State Department will update the CPA List periodically via the **Federal Register** and on its website.

The publication of the CPA List implements the policy in paragraph 2(a) of NSPM-5 to end economic practices that disproportionately benefit the Cuban government or its military, intelligence, or security agencies or personnel at the expense of the Cuban people. Properties that are owned or controlled by the Cuban government compete with independent private sector lodging such as legitimately private *casas particulares*. Government-owned or -controlled accommodations are a principal source of revenue for the Cuban government, which uses that revenue to perpetuate its repressive hold on power. Cuban government insiders such as prohibited officials, prohibited members of the Cuban Communist Party, and the close relatives thereof personally benefit from the ownership or control of ostensibly independent *casas particulares*. These individuals' insider status gives them access to private homes that they rent out for personal benefit, at the expense of the Cuban people and of *casas particulares* run by ordinary Cubans.

Electronic Availability

This document and additional information concerning the Cuba Prohibited Accommodations List are available from the State Department's Cuba sanctions website (<https://www.state.gov/cuba-sanctions/cuba-prohibited-accommodations>).

Cuba Prohibited Accommodations List as of September 28, 2020

Below is the U.S. Department of State's Cuba Prohibited Accommodations List, a list of properties in Cuba owned or controlled by the Cuban government, a prohibited official of the Government of Cuba, as

defined in 31 CFR 515.337, a prohibited member of the Cuban Communist Party, as defined in 31 CFR 515.338, a close relative, as defined in 31 CFR 515.339, of a prohibited official of the Government of Cuba, or a close relative of a prohibited member of the Cuban Communist Party. For information regarding the restrictions on transactions with these properties, please see 31 CFR 515.210. All properties were listed effective September 28, 2020, unless otherwise indicated.

* Property is marketed as a "casa" but is owned or controlled by the Cuban government and is not an independent "casa particular."

^ Property is a "casa particular" but it nonetheless meets the criteria for inclusion on the Cuba Prohibited Accommodations List.

TENNESSEE VALLEY AUTHORITY

Gallatin Fossil Plant Surface Impoundment Closure and Restoration Project Environmental Impact Statement

AGENCY: Tennessee Valley Authority.

ACTION: Record of decision.

SUMMARY: This notice is provided in accordance with the Council on Environmental Quality's regulations and

Tennessee Valley Authority's (TVA's) procedures for implementing the National Environmental Policy Act (NEPA). TVA has decided to adopt the Preferred Alternative identified in the Gallatin Fossil Plant (GAF) Surface Impoundment Closure and Restoration Project Environmental Impact Statement. The Final Environmental Impact Statement (EIS) was made available to the public on August 7, 2020. A Notice of Availability of the Final EIS was published in the **Federal Register** on August 14, 2020. The Preferred Alternative is "Closure of the Ash Pond Complex (APC) via Closure-by-Removal and Expansion of the Existing Onsite Landfill." This alternative would achieve the purpose and need of the project to support the implementation of TVA's goal to eliminate all wet Coal Combustion Residuals (CCR) storage at its coal plants by closing CCR surface impoundments across the TVA system and to comply with the U.S. Environmental Protection Agency's CCR Rule and other applicable federal and state statutes and regulations. The proposed actions would also provide long-term onsite landfill space for operations and/or storage of CCR.

FOR FURTHER INFORMATION CONTACT:

Elizabeth Smith, Tennessee Valley Authority, 400 West Summit Hill Drive, WT11B-K, Knoxville, Tennessee 37902, or by email esmith14@tva.gov. The Final EIS, this Record of Decision (ROD) and other project documents are available on TVA's website <https://www.tva.gov/nepa>.

SUPPLEMENTARY INFORMATION: TVA is a corporate agency of the United States that provides electricity for business customers and local power distributors serving more than 10 million people in an 80,000 square mile area comprised of most of Tennessee and parts of Virginia, North Carolina, Georgia, Alabama, Mississippi, and Kentucky. TVA receives no taxpayer funding, deriving virtually all of its revenues from sales of electricity. In addition to operation of its power system, TVA provides flood control, navigation and land management for the Tennessee River system and assists local power companies and state and local governments with economic development and job creation.

GAF was built between 1953 and 1959 and operates four coal-fired, steam-generating units. Four combustion turbine (CT) units were added to GAF in the 1970s, and another four were added in 2000. The plant generates about seven billion kilowatt-hours of electric power in a typical year,

which is enough electrical energy to meet the needs of approximately 480,000 homes. The plant consumes an average of 3.5 million tons of coal per year, which results in the annual production of approximately 255,000 tons of CCR.

TVA has prepared an EIS pursuant to NEPA to assess the environmental impacts associated with several projects to facilitate long-term management of CCR at GAF which include the following.

- Surface impoundment closures of the Ash Pond Complex (APC) which includes Ash Pond A, Ash Pond E, Middle Pond A, Bottom Ash Pond, and stilling ponds.
- Permanent disposition of CCR from the surface impoundments, including CCR previously removed from the Bottom Ash Pond that may be temporarily stockpiled in the existing onsite landfill, as well as *de minimis* amounts of CCR proposed to be removed from the stilling ponds.
- Construction of a lateral expansion of the existing onsite landfill.
- Location requirements analysis for a beneficial re-use processing facility.
- Disposal of CCR materials not usable by a beneficial re-use processing facility in either the onsite landfill or an offsite landfill.

TVA estimates that approximately 11,945,000 yd³ of CCR is located within the APC at GAF. TVA has evaluated the location requirements and environmental impacts associated with the potential construction and operation of an offsite proposed beneficial re-use processing facility that would be used to process CCR from GAF. TVA also considered potential impacts associated with the transport of CCR from GAF to an offsite beneficial re-use processing facility and an offsite landfill. Although a site has currently not been identified, TVA also conducted a supplemental NEPA analysis of two potential sites on the GAF Reservation for use by a beneficial re-use processing facility.

With a long-standing commitment to safe and reliable operations and to environmental stewardship, TVA began, in 2009, to convert from wet to dry management of CCR. On April 17, 2015, the U.S. Environmental Protection Agency (EPA) published the Final Disposal of Coal Combustion Residuals from Electric Utilities rule (CCR Rule) in the **Federal Register** (80 Federal Register 21302). The CCR Rule establishes national criteria and schedules for the management and closure of CCR facilities.

In June of 2016, TVA issued a Final Programmatic Environmental Impact Statement (PEIS) that analyzed methods
