

subject to public comment, in the **Federal Register**.

HUD created the Section 3 worker and Targeted Section 3 worker concepts so that HUD could track and set benchmarks to target selected categories of workers and to recognize the statutory requirements pertaining to contracting opportunities for business concerns employing low- and very-low income persons.

In the final Section 3 rule, HUD defines a Section 3 worker for both public housing financial assistance and Section 3 projects as a worker that meets one of the following requirements:

- The worker’s income is below the income limit established by HUD.
- The worker is employed by a Section 3 business concern.
- The worker is a YouthBuild participant.

HUD defines a Targeted Section 3 worker differently for public housing financial assistance and Section 3 projects. For § 75.11, public housing financial assistance, a Targeted Section 3 worker includes any worker who is employed by a Section 3 business concern or is a:

- Resident of public housing or Section 8-assisted housing;
- Resident of another project managed by the PHA that is expending assistance; or
- YouthBuild participant.

For § 75.21, Section 3 projects, a Targeted Section 3 worker includes any worker who is employed by a Section 3 business concern or is a Section 3 worker who is:

- Living within the service area or neighborhood of the project; or
- A YouthBuild participant.

HUD defines a Section 3 business concern as a business concern that meets one of the following requirements:

- It is at least 51 percent owned by low- or very low-income persons;
- Over 75 percent of the labor hours performed for the business are performed by low- or very low-income persons; or
- It is a business at least 51 percent owned by current public housing residents or residents who currently live in Section 8-assisted housing.

For more information about the final rule, HUD refers readers to the final rule published elsewhere in this issue of the **Federal Register**.

III. Section 3 Benchmarks

This document finalizes the benchmarks with regards to labor hours for both public housing financial assistance and Section 3 projects without changes from what was

included in the proposed benchmark notification. In the final rule, HUD is not adopting the new hires formula as proposed as an alternative in the proposed rule, so the new hires formula is accordingly not reflected in this document. HUD is finalizing the same benchmarks for all public housing financial assistance and Section 3 projects. The methodology in determining the Section 3 benchmarks, as discussed above in the Background section, did not change from what was described in the proposed benchmark notification because the definitions of Section 3 Workers, Targeted Section 3 Workers, and Section 3 Business concerns provided in the proposed rule and adopted in the Section 3 final rule were not substantially different. Once HUD has more data, it may determine whether different benchmarks are appropriate. Please see the above summary in the Background section of this document and the proposed benchmark notification for more information.

The following benchmarks apply to recipients subject to Section 3 upon the effective date in the Section 3 final rule:

Public Housing Financial Assistance

For meeting the safe harbor in § 75.13, PHAs and other recipients that certify to following the prioritization of effort in § 75.9 and meet or exceed the following Section 3 benchmarks will be considered to have complied with requirements in proposed 24 CFR part 75, subpart B, in the absence of evidence to the contrary:

- (1) Twenty-five (25) percent or more of the total number of labor hours worked by all workers employed with public housing financial assistance in the PHA’s or other recipient’s fiscal year are Section 3 workers;

$$\frac{\text{Section 3 Labor Hours}}{\text{Total Labor Hours}} = 25\%$$

- and
- (2) Five (5) percent or more of the total number of labor hours worked by all workers employed with public housing financial assistance in the PHA’s or other recipient’s fiscal year are Targeted Section 3 workers, as defined at § 75.11.

$$\frac{\text{Targeted Section 3 Labor Hours}}{\text{Total Labor Hours}} = 5\%$$

Section 3 Project

For meeting the safe harbor in § 75.23, recipients that certify to following the prioritization in § 75.19 and meet or exceed the following Section 3

benchmarks will be considered to have complied with requirements in proposed 24 CFR part 75, subpart C, in the absence of evidence to the contrary:

- (1) Twenty-five (25) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Section 3 workers;

$$\frac{\text{Targeted Section 3 Labor Hours}}{\text{Total Labor Hours}} = 25\%$$

- and
- (2) Five (5) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Targeted Section 3 workers, as defined at § 75.21.

$$\frac{\text{Targeted Section 3 Labor Hours}}{\text{Total Labor Hours}} = 5\%$$

IV. Environmental Impact

This document involves the establishment of new Section 3 benchmarks for creating economic opportunities for low- and very low-income persons and eligible businesses, and does not direct, provide for assistance or loan and mortgage insurance for, or otherwise govern or regulate, real property acquisition, disposition, leasing, rehabilitation, alteration, demolition, or new construction; or establish, revise, or provide for standards for construction or construction materials, manufactured housing, or occupancy. Accordingly, under 24 CFR 50.19(c)(1), this document is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).
