The USPTO estimates that around 20% (31) of the respondents that file international design applications through the USPTO as an office of indirect filing designate the United States for design protection. The costs for preparing the drawings associated with these applications are estimated to be \$400 per application. Overall the costs associated with submitting these drawing are estimated to be \$12,400.

Although the USPTO prefers that the items in this information collection be submitted electronically, the items may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that the average postage cost for a mailed submission, using a Priority Mail 2-day flat rate legal envelope, will be \$8.05. The USPTO estimates that 1 paper submission will be mailed annually.

The USPTO estimates that the total annual (non-hour) respondent cost burden for this information collection in the forms of filing fees, drawing costs, and postage costs is estimated to be approximately \$3,389,280 per year (\$3,376,872 in filing fees, \$12,400 in drawing costs, and \$8 in postage costs).

Respondents's Obligation: Required to obtain or retain benefits.

IV. Request for Comments

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including

whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, USPTO

cannot guarantee that it will be able to do so.

SUPPLEMENTARY INFORMATION:

I. Abstract

The USPTO is required by Title 35 of the United States Code, including 35 U.S.C. 131, to examine applications for patents. The USPTO administers the patent statutes through various rules in Chapter 37 of the Code of Federal Regulations, including 37 CFR 1.16 through 1.84. Each patent applicant must provide sufficient information to allow the USPTO to properly examine the application to determine whether it meets the criteria set forth in the patent statutes and regulations for issuance as a patent. For example, the patent statutes and regulations require that an application for patent include the following information:

- (1) A specification containing a description of the invention and at least one claim defining the property right sought by the applicant;

- (2) A drawing(s) or photograph(s), where necessary, for an understanding of the invention;

- (3) An oath or declaration signed by the applicant; and

- (4) A filing fee.

The following types of patent applications are covered under the present information collection:

- (1) New original utility, plant, design, and provisional applications;

- (2) Continuation/divisional applications of international applications;

- (3) Continued prosecution applications (design); and

- (4) Continuation, divisional, and continuation-in-part applications of utility, plant, and design applications.

In addition, this information collection covers petitions to accept an unintentionally delayed priority or benefit claim, petitions under 37 CFR 1.47 (pre-Leahy-Smith America Invents Act (AIA)) to accept a filing by other than all of the inventors or a person not the inventor, petitions under 37 CFR 1.6(g) to accord an application under 37 CFR 1.495(b) a receipt date, and papers filed under 37 CFR 1.41(c), 1.41(a)(2) (pre-AIA), 1.48(d), 1.53(c)(2), and 1.53(c)(2) (pre-Patent Law Treaty (PLT) (AIA)) (the particular items covered under this information collection are identified in more detail at Table 1 below).

Most applications for a patent, including new utility, design, and provisional applications, can be submitted through the USPTO patent electronic filing systems (EFS-Web or Patent Center). EFS-Web and Patent Center are the USPTO’s systems for electronic filing of patent correspondence and are accessible via the internet on the USPTO website. The Legal Framework for Patent Electronic System is available at <https://www.uspto.gov/patents-application-process/filing-online/legal-framework-efs-web>.

The forms in this information collection include: (1) Versions of the inventor’s oath and declaration forms that were created to comply with the changes resulting from the AIA, e.g., forms AIA/01, AIA/02, etc., (2) pre-AIA versions of the oath and declaration forms, e.g., forms SB/01, SB/02, etc., and (3) foreign language translations of the oath and declaration forms, e.g., forms AIA/01CN, SB/02CN, etc. Items in this information collection that do not have forms associated with them include the petitions and the papers filed under 37 CFR 1.41(c), 1.41(a)(2) (pre-AIA), 1.48(d), 1.53(c)(2), and 1.53(c)(2) (pre-PLT (AIA)).

II. Method of Collection

As set forth in the Legal Framework for Patent Electronic System, available at <https://www.uspto.gov/patents-application-process/filing-online/legal-framework-efs-web>, most of the items in this information collection can be submitted through EFS-Web. The USPTO also will accept submissions by mail, facsimile (except that in accordance with 37 CFR 1.6(d), the items covered under this information collection that may be submitted by facsimile are limited to the petitions and

the papers filed under 37 CFR 1.41(c), 1.41(a)(2) (pre-AIA), 1.48(d), 1.53(c)(2), and 1.53(c)(2) (pre-PLT (AIA))), or hand delivery to the USPTO.

² 2019 Report of the Economic Survey, published by the Committee on Economics of Legal Practice of the American Intellectual Property Law Association (AIPLA); <https://www.aipla.org/detail/journal-issue/2019-report-of-the-economic-survey>. The USPTO uses the mean rate for attorneys in private firms which is \$400 per hour.

Estimated Total Annual Non-Hour Respondent Cost Burden:

\$1,205,915,848. There are no maintenance, operation, capital start-up, or recordkeeping costs associated with this information collection. However, this information collection does have annual (non-hour) costs in the form of postage, drawing costs, and filing fees.

Although the USPTO prefers that the items in this information collection be submitted electronically, the items may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that the average cost for sending a patent application by Priority Mail Express® 1 day legal envelope will be \$26.50 and that up to 14,440 applications may be mailed to

the USPTO, resulting in \$382,660 in postage costs.

The USPTO estimates that the petitions and other papers covered under this information collection, if submitted by mail, will be sent by first-class mail (2 Day Priority Express for a flat rate legal envelope) at an average postage rate of \$8.05. The USPTO estimates that up to 301 petitions and other papers may be mailed per year, thus resulting in \$2,423 in first-class mailing costs.

Patent applicants can submit drawings with the applications covered under this information collection. As a basis for estimating the drawing costs, the USPTO expects that all applicants

will have their drawings prepared by patent illustration firms.

Estimates for the drawings can vary greatly, depending on the number of figures that need to be produced, the total number of pages for the drawings, and the complexity of the drawings. Because there are many variables involved, the USPTO is using the average of the cost ranges found for the application drawings to derive the estimated cost per sheet that is then used to calculate the total drawing costs.

The USPTO estimates that total drawing cost is \$601,432,030. The break-down of costs for utility, design, plant, and provisional drawings is broken down in table 3 below.

TABLE 3—DRAWING COST TO RESPONDENTS

In this information collection, there is also an annual (non-hour) cost burden

in the way of filing fees. The total estimated filing cost for this information

collection is \$604,098,735 and is detailed in table 4 below.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the USPTO.

Such individuals and business may also submit various communications to the USPTO regarding their pending

applications or registered trademarks, including providing additional information needed to process a pending application, filing amendments to the applications, or filing the papers necessary to keep a trademark in force. In the majority of circumstances, individuals and business retain attorneys to handle these matters. As such, these parties may also submit communications to the USPTO regarding the appointment of attorneys to represent applicants or registrants in the application and post-registration processes or, in the case of applicants or registrants who are not domiciled in the United States, the appointment of domestic representatives on whom may be served notices of process in proceedings affecting the mark, the revocation of an attorney's or domestic representative's appointment, and requests for permission to withdraw from representation.

The regulations implementing the Act are set forth in 37 CFR part 2. Regulations regarding representation of others before the USPTO are also set forth in 37 CFR part 11. In addition to governing the registration of trademarks, the Act and regulations govern the appointment and revocation of attorneys and domestic representatives and provide the specifics for filing requests for permission to withdraw as the attorney of record. The information in this information collection is available to the public.
