Overview of This Information Collection

Title: e-Allegations Submission.
OMB Number: 1651–0131.
Form Number: None.
Current Action: CBP proposes to extend the expiration date of this information collection. The time burden hours have been adjusted to account for the addition of the EAPA Allegations that have been added to this collection.

Type of Review: Extension (with change).

Affected Public: Businesses, Individuals.

Abstract: U.S. Customs and Border Protection (CBP) established the e-Allegations program in June 2008 to create a central location for the public to report allegations of trade law violations. The information provided by the public enables CBP, in collaboration with our partners, to protect our economy from the effects of unfair trade practices and guard against the entry of products that could pose a threat to health and safety. The information collected through the portal includes the name individual filing the allegation (this individual may remain anonymous), their contact information, and information pertinent to the allegation of a trade law violation.

Congress passed the Enforce and Protect Act ("EAPA"), in February 2016, as a part of the Trade Facilitation and Trade Enforcement Act ("TFTEA") of 2015 (Pub. L. 114–125, Feb. 24, 2016). The EAPA legislation specifically was intended to improve trade law enforcement and duty collection for antidumping and countervailing duty orders, thus helping to create a level-playing field for U.S. businesses. To that end, CBP designed an investigative process that provides for a multi-party, transparent, on-the-record
administrative proceeding, where parties can both participate in and learn the outcome of the investigation.

The information collected through the EAPA allegation submissions portal includes the following: Filer category, name of individual filing the allegation and their contact information, the name and address of the company they represent, and their interested party designation; information related to the alleged evasion scheme, including products, type of scheme and AD/CVD Order information; the name and address of the company engaging in the alleged evasion scheme; and various certifications regarding the truthfulness of the allegation and how notifications about how the information will be used during the investigation.

The EAPA Allegation form has been modified from the original version to provide clarifying information which validates that the allegation qualifies as an EAPA allegation. Additions to the form include the allegation and violating importer email and phone number, optional representing attorney contact information, and selecting the type of violation and the corresponding details. The updated form also requires users to upload at least one document to the allegation submission and select a document category in addition the existing classification for confidentiality status. Users will have the option to select additional categories including document date and if a document has been served after upload. Harmonized Tariff Schedule product categories and questions that would make an allegation non-qualifying for an EAPA allegation have been removed and replaced by system validations or additional instructions.

Collection of information for an EAPA investigation is authorized by the Tariff Act of 1930, as amended (19, U.S.C. 1517), Section 421 of the TFTEA (Pub. L. 114–125, Feb. 24, 2016), and 19 CFR 1517), Section 421 of the TFTEA (Pub.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.
