This is a proposed extension of the ICR, which is currently approved through November 30, 2020. Public comments were previously requested via the **Federal Register** on March 12, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 30, 2020.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR addresses the information collection activities associated with the export notification requirements under section 12(b) of the Toxic Substances Control Act (TSCA), which requires any person who exports or intends to export a chemical substance or mixture that is regulated under TSCA sections 4, 5, 6 and/or 7 to notify EPA of such export or intent to export. This requirement is described in more detail in 40 CFR part 707, subpart D. Upon receipt of notification, EPA advises the government of the importing country of the U.S. regulatory action that required the notification with respect to that substance. EPA uses the information obtained from the submitter via this collection to advise the government of the importing country. This information collection addresses the burden associated with industry reporting of export notifications. Respondents may claim all or part of a notice confidential, and EPA will disclose that information only to the extent permitted by, and in accordance with, the procedures in TSCA and 40 CFR part 2. As discussed in more detail in this ICR's supporting statement, this ICR renewal also incorporates burden estimates associated with an electronic reporting option for the information collection under TSCA section 12(b), for which EPA is requesting approval from OMB in this ICR renewal request.

Form Numbers: None.

Respondents/affected entities:

Exporters of chemical substances or mixtures from the United States to foreign countries.

Respondent's obligation to respond: mandatory (TSCA section 12(b) and 40 CFR part 707, subpart D.)

Estimated number of respondents: 198 (total).

Frequency of response: On occasion.

Total estimated burden: 2,934 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated costs: \$230,198 (per year), which includes \$13,793,30 in annualized capital or operation & maintenance costs.

Changes in the estimates: There is an overall decrease of 1,098 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects a net change with a large decrease in burden due to the anticipated use of e-reporting and a small increase in burden due to other minor changes in the assumptions and related estimates. This change is an adjustment to the estimates.

Courtney Kerwin,

Director, Regulatory Support Division.
