

(A) Meets WWC standards with or without reservations;

(B) Includes at least one statistically significant and positive (*i.e.*, favorable) effect on a relevant outcome;

(C) Includes no overriding statistically significant and negative effects on relevant outcomes reported in the study or in a corresponding WWC intervention report prepared under version 2.1, 3.0, 4.0, or 4.1 of the WWC Handbooks; and

(D) Is based on a sample from more than one site (*e.g.*, State, county, city, school district, or postsecondary campus) and includes at least 350 students or other individuals across sites. Multiple studies of the same project component that each meet requirements in paragraphs (iii)(A), (B), and (C) of this definition may together satisfy the requirement in this paragraph (iii)(D).

Strong evidence means that there is evidence of the effectiveness of a key project component in improving a relevant outcome for a sample that overlaps with the populations and settings proposed to receive that component, based on a relevant finding from one of the following:

(i) A practice guide prepared by the WWC using version 2.1, 3.0, 4.0, or 4.1 of the WWC Handbooks reporting a “strong evidence base” for the corresponding practice guide recommendation;

(ii) An intervention report prepared by the WWC using version 2.1, 3.0, 4.0, or 4.1 of the WWC Handbooks reporting a “positive effect” on a relevant outcome based on a “medium to large” extent of evidence, with no reporting of a “negative effect” or “potentially negative effect” on a relevant outcome; or

(iii) A single experimental study reviewed and reported by the WWC using version 2.1, 3.0, 4.0, or 4.1 of the WWC Handbooks, or otherwise assessed by the Department using version 4.1 of the WWC Handbooks, as appropriate, and that—

What Works Clearinghouse (WWC) Handbooks (WWC Handbooks) means the standards and procedures set forth in the WWC Standards Handbook, Versions 4.0 or 4.1, and WWC Procedures Handbook, Versions 4.0 or 4.1, or in the WWC Procedures and Standards Handbook, Version 3.0 or Version 2.1 (all incorporated by reference, see § 77.2). Study findings eligible for review under WWC standards can meet WWC standards without reservations, meet WWC standards with reservations, or not meet WWC standards. WWC practice guides and intervention reports include findings from systematic reviews of evidence as described in the WWC Handbooks documentation.

[GSAR Case 2020–G536; Docket No. GSA–GSAR–2020–0016; Sequence No. 1]

General Services Administration Acquisition Regulation; Clause Number Corrections

AGENCY: Office of Acquisition Policy, General Services Administration (GSA).
ACTION: Final rule.

SUMMARY: The General Services Administration (GSA) is issuing a technical amendment to the General Services Administration Acquisition Regulation (GSAR). This technical amendment updates the GSAR and the Code of Federal Regulations (CFR) to reflect changes to clause renumbering that were erroneously omitted from GSAR Case 2013–G502, Federal Supply Schedule Contracting (Administrative Changes), which was published in the **Federal Register**.

DATES: *Effective:* November 4, 2020.
FOR FURTHER INFORMATION CONTACT: Mr. Alexander Beyrent, GSA Acquisition Policy Division, at gsarpolicy@gsa.gov, for clarification of content. For information pertaining to status or publication schedules, contact the Regulatory Secretariat at 202–501–4755. Please cite GSAR Case 2020–G536.

SUPPLEMENTARY INFORMATION:

I. Background

This is a technical amendment to the General Services Administration Acquisition Regulation (GSAR). As part of GSA’s regulatory reform efforts, GSA has been performing a comprehensive review of the requirements in the GSAR and has identified several instances where clause numbers need to be amended.

II. Authority for This Rulemaking

Title 40 of the United States Code (U.S.C.) Section 121 authorizes GSA to issue regulations, including the GSAR, to control the relationship between GSA and contractors.

III. Discussion and Analysis

Clause numbers are amended within the following GSAR sections: 515.408 Solicitation provisions and contract clauses; 538.272 MAS price reductions;

552.238–74 Introduction of New Supplies/Services (INSS). GSA intended to change these clause numbers with the publication of GSAR Case 2013–G502; Federal Supply Schedule Contracting (Administrative Changes). However, GSAR Case 2013–G502 added several GSAR clauses and rearranged many others. As a result, there are some instances in the GSAR where clauses have correct titles, but their numbers have not been updated as intended. This technical amendment will update those clause numbers as originally intended.

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfers From ME to RI and NJ to NC

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification; quota transfers.

SUMMARY: NMFS announces that the states of Maine and New Jersey are transferring a portion of their 2020 commercial bluefish quota to the states of Rhode Island and North Carolina, respectively. These quota adjustments are necessary to comply with the Atlantic Bluefish Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial bluefish quotas for Maine, Rhode Island, New Jersey, and North Carolina.

DATES: Effective October 2, 2020, through December 31, 2020.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, (978) 281–9225.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2020 allocations were published on June 29, 2020 (85 FR 38794).

The final rule implementing Amendment 1 to the Bluefish Fishery Management Plan (FMP) published in the *Federal Register* on July 26, 2000 (65 FR 45844), and provided a mechanism for transferring bluefish quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e)(1)(i) through (iii). The Regional Administrator must approve any such transfer based on the criteria in § 648.162(e). In evaluating requests to transfer a quota or combine

quotas, the Regional Administrator shall consider whether: The transfer or combinations would preclude the overall annual quota from being fully harvested; the transfer addresses an unforeseen variation or contingency in the fishery; and the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Act.

Maine is transferring 15,000 lb (6,804 kg) of bluefish commercial quota to Rhode Island and New Jersey is transferring 50,000 lb (22,680 kg) to North Carolina through mutual agreement of the states. These transfers were requested to ensure that Rhode Island and North Carolina would not exceed their 2020 state quotas. The revised bluefish quotas for 2020 are: Maine, 3,496 lb (1,586 kg); Rhode Island, 298,366 lb (135,337 kg); New Jersey, 264,934 lb (120,172 kg); and, North Carolina, 937,058 lb (425,042 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 30, 2020.
