SUPPLEMENTARY INFORMATION:

I. Background

FSMA (Pub. L. 111–353), enacted in 2011, modernized U.S. food safety law to better ensure the safety and security of the nation’s food supply. Section 204(d) of FSMA requires that FDA establish recordkeeping requirements for facilities that manufacture, process, pack, or hold foods that the Agency designates as high risk, to facilitate the rapid and effective traceability of such foods. These recordkeeping requirements will be in addition to the food traceability requirements under section 414 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 350c) (added to the FD&C Act in title III, subtitle A, section 306, of the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (Pub. L. 107–188)) and the implementing regulations in subpart J of part 1 of title 21 of the Code of Federal Regulations (21 CFR 1.326 to 1.368) (the subpart J regulations). Congress directed FDA to adopt the subpart J regulations recordkeeping requirements to allow the Agency to identify the immediate previous sources and immediate subsequent recipients of foods (commonly referred to as “one-up, one-back” recordkeeping) to address credible threats of serious adverse health consequences or death to humans or animals. In section 204(d)(1) of FSMA, Congress directed FDA to adopt additional recordkeeping requirements to prevent or mitigate foodborne illness outbreaks and address credible threats of serious adverse health consequences or death to humans or animals resulting from foods being adulterated under section 402 of the FD&C Act (21 U.S.C. 342) or misbranded with respect to allergen labeling under section 403(w) of the FD&C Act (21 U.S.C. 343(w)).

In the **Federal Register** of September 23, 2020 (85 FR 59984), FDA published the proposed rule entitled “Requirements for Additional Traceability Records for Certain Foods”. The proposed additional recordkeeping requirements, when finalized, will fulfill Congress’s directive in section 204(d)(1) of FSMA and will help FDA follow the movement of listed food products and ingredients both backward and forward throughout the supply chain.

Section 204(d)(4) of FSMA states that, during the comment period for the

proposed rule, FDA “shall conduct not less than 3 public meetings in diverse geographical areas of the United States to provide persons in different regions an opportunity to comment.” Due to the impact of the COVID–19 pandemic, these meetings will be held virtually to help protect the public and limit the spread of the virus.

FDA is therefore announcing a series of virtual public meetings entitled “Requirements for Additional Traceability Records for Certain Foods; Proposed Rule” so that stakeholders can better evaluate and comment on the proposed rule. These meetings will be held during the formal comment period on the proposed rule. All three public meetings will cover the same agenda items and are intended to facilitate and support the public’s evaluation and commenting process.

While oral presentations from specific individuals and organizations will be necessarily limited due to time constraints during the public meetings, stakeholders may submit electronic or written comments discussing any issues of concern to the administrative record (the docket) for the proposed rule (Docket No. FDA–2014–N–0053). (See **ADDRESSES**).

II. Purpose and Format of the Public Meetings

The purpose of the public meetings is to provide information and facilitate comment so that stakeholders can better evaluate and provide input on the proposed rule. We invite interested parties to provide information and offer comments related to the proposed rule. During the public meetings we will present information on the various sections of the proposed rule: General Provisions; Traceability Program Records; Records of Growing, Receiving, Transforming, Creating, and Shipping Food; Special Requirements for Certain Persons and Foods; Procedures for Modified Requirements and Exemptions; Waivers; Records Maintenance and Availability; and Updating the Food Traceability List. Stakeholder panels will provide discussion on the various issues. There will be an opportunity for questions, as well as an opportunity for open public comment.

III. How To Participate in the Public Meetings

There will be a total of three virtual public meetings with different time frames, which will provide persons in different regions an opportunity to comment on the proposed rule.

Table 1 provides information on participation in the public meetings.
