Effective July 6, 2018, the U.S. Trade Representative imposed additional 25 percent duties on goods of China classified in 818 eight-digit subheadings of the Harmonized Tariff Schedule of the United States (HTSUS), with an approximate annual trade value of \$34 billion. *See* 83 FR 28710 (the \$34 billion action). The U.S. Trade Representative's determination included a decision to establish a process by which U.S. stakeholders could request exclusion of particular products classified within an eight-digit HTSUS subheading covered by the \$34 billion action from the additional duties. The U.S. Trade Representative issued a notice setting out the process for product exclusions and opened a public docket. *See* 83 FR 32181 (July 11 notice).

In October and December 2019 and February 2020, the U.S. Trade Representative granted exclusion requests. *See* 84 FR 52567 (October 2 notice), 84 FR 69016 (December 17 notice), and 85 FR 7816 (February 11 notice). The exclusions granted under these notices expire on October 2, 2020. On August 3, 2020, the U.S. Trade Representative invited the public to comment on whether to extend for up

to 12 months particular exclusions granted under these notices. *See* 85 FR 46777 (August 3 notice).

Under the August 3 notice, commenters were asked to address whether the particular product and/or a comparable product is available from sources in the United States and/or in third countries; any changes in the global supply chain since July 2018 with respect to the particular product, or any other relevant industry developments; and efforts, if any, importers or U.S. purchasers have undertaken since July 2018 to source the product from the United States or third countries.

In addition, commenters who were importers and/or purchasers of the products covered by an exclusion were asked to provide information regarding their efforts since July 2018 to source the product from the United States or third countries; the value and quantity of the Chinese-origin product covered by the specific exclusion request purchased in 2018 and 2019, and whether these purchases are from a related company; whether Chinese suppliers have lowered their prices for products covered by the exclusion following the imposition of duties; the value and quantity of the product covered by the exclusion purchased from domestic and third country sources in 2018 and 2019; the commenter's gross revenue for 2018 and 2019; whether the Chinese-origin product of concern is sold as a final product or as an input; whether the imposition of duties on the products covered by the exclusion will result in severe economic harm to the commenter or other U.S. interests; and any additional information in support or in opposition of the extending the exclusion.

The August 3 notice required the submission of comments no later than August 30, 2020.

B. Determination to Extend Certain Exclusions

Based on an evaluation of the factors set out in the July 11 and August 3 notices, which are summarized above, pursuant to sections 301(b), 301(c), and

307(a) of the Trade Act of 1974, as amended, and in accordance with the advice of the interagency Section 301 Committee, the U.S. Trade Representative has determined to extend certain product exclusions covered by the October 2, December 17, and February 11 notices, as set out in the Annexes to this notice.

The August 3 notice said the U.S. Trade Representative would consider extensions of up to 12 months. In light of the cumulative effect of current and possible future exclusions or extensions of exclusions on the effectiveness of the action taken in this investigation, the U.S. Trade Representative has determined to extend the exclusions in the Annexes to this notice for less than 12 months—through December 31, 2020. To date, the U.S. Trade Representative has granted more than 6,800 exclusion requests, has extended some of these exclusions, and may consider further extensions of exclusions. The U.S. Trade Representative will take account of the cumulative effect of exclusions in considering the possible further extension of the exclusions covered by this notice, as well as possible extensions of exclusions of other products covered by the action in this investigation. The U.S. Trade Representative's determination also takes into account advice from advisory committees and any public comments concerning extension of the pertinent exclusion.

In accordance with the July 11 notice, the exclusions are available for any product that meets the description in the Annexes, regardless of whether the importer filed an exclusion request. Further, the scope of each exclusion is governed by the scope of the ten-digit HTSUS headings and product descriptions in the Annexes to this notice, and not by the product descriptions set out in any particular request for exclusion.

Joseph Barloon,

General Counsel, Office of the United States Trade Representative.
