Type of Request: New collection.

Abstract: The TAT/RWTS Grant Pilot Program was authorized by the Further Consolidated Appropriations Act, 2020, for the study and design of innovative treatment solutions of regional wastewater systems for historically impoverished communities that have had difficulty installing traditional wastewater treatment systems due to soil conditions. Grantees will be expected to provide the Agency with a detailed report to include the area to be served, the issues with the present method of wastewater discharge, the alternatives and innovative solutions to the wastewater issue, the long-term cost and effect of the solution, the affordability including possible funding sources, potential treatment, staff training needs, and lifecycle cost analysis.
