

552.238–74 Introduction of New Supplies/Services (INSS). GSA intended to change these clause numbers with the publication of GSAR Case 2013–G502; Federal Supply Schedule Contracting (Administrative Changes). However, GSAR Case 2013–G502 added several GSAR clauses and rearranged many others. As a result, there are some instances in the GSAR where clauses have correct titles, but their numbers have not been updated as intended. This technical amendment will update those clause numbers as originally intended.

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfers From ME to RI and NJ to NC

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification; quota transfers.

SUMMARY: NMFS announces that the states of Maine and New Jersey are transferring a portion of their 2020 commercial bluefish quota to the states of Rhode Island and North Carolina, respectively. These quota adjustments are necessary to comply with the Atlantic Bluefish Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial bluefish quotas for Maine, Rhode Island, New Jersey, and North Carolina.

DATES: Effective October 2, 2020, through December 31, 2020.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, (978) 281–9225.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2020 allocations were published on June 29, 2020 (85 FR 38794).

The final rule implementing Amendment 1 to the Bluefish Fishery Management Plan (FMP) published in the *Federal Register* on July 26, 2000 (65 FR 45844), and provided a mechanism for transferring bluefish quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e)(1)(i) through (iii). The Regional Administrator must approve any such transfer based on the criteria in § 648.162(e). In evaluating requests to transfer a quota or combine

quotas, the Regional Administrator shall consider whether: The transfer or combinations would preclude the overall annual quota from being fully harvested; the transfer addresses an unforeseen variation or contingency in the fishery; and the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Act.

Maine is transferring 15,000 lb (6,804 kg) of bluefish commercial quota to Rhode Island and New Jersey is transferring 50,000 lb (22,680 kg) to North Carolina through mutual agreement of the states. These transfers were requested to ensure that Rhode Island and North Carolina would not exceed their 2020 state quotas. The revised bluefish quotas for 2020 are: Maine, 3,496 lb (1,586 kg); Rhode Island, 298,366 lb (135,337 kg); New Jersey, 264,934 lb (120,172 kg); and, North Carolina, 937,058 lb (425,042 kg).
