The agenda items to be considered include:
—Adoption of the agenda
—Decisions of other bodies
—Consideration and adoption of amendments to mandatory instruments
—Harmful aquatic organisms in ballast water
—Air pollution prevention
—Energy efficiency of ships
—Reduction of GHG emissions from ships
—Follow-up work emanating from the Action Plan to address marine plastic litter from ships
—Identification and protection of Special Areas, ECAs and PSSAs
—Pollution prevention and response
—Reports of other sub-committees
—Technical cooperation activities for the protection of the marine environment
—Capacity-building for the implementation of new measures
—Work programme of the Committee and subsidiary bodies
—Application of the Committees’ Method of Work
—Any other business
—Consideration of the report of the Committee

Please note: The Committee may, on short notice, adjust the MEPC 75 agenda to accommodate the constraints associated with the virtual meeting format. Although no changes to the agenda are anticipated, if any are necessary they will be provided to those who RSVP.

Those who plan to participate may contact the meeting coordinator, LT Jessica Anderson, by email at Jessica.P.Anderson@uscg.mil, by phone at (202) 372–1376, or in writing at 2703 Martin Luther King Jr. Ave. SE, Stop 7509, Washington, DC 20593–7509.

Additional information regarding this and other IMO public meetings may be found at: https://www.dco.uscg.mil/IMO.

Jeremy M. Greenwood,
Coast Guard Liaison Officer, Office of Ocean and Polar Affairs, Department of State.

SUPPLEMENTARY INFORMATION:
Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–XXXX.
Title: Operational Waivers for Small Unmanned Aircraft Systems.
Form Numbers: N/A (online portal).
Type of Review: New.
Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on April 10, 2020 (85 FR 20333). The FAA has seen increased operations of small unmanned aircraft systems (sUAS) flying under 14 CFR part 107. Under 14 CFR 107.205, operators of small UAS may seek waivers from certain operational rules. The FAA is updating and modernizing the process for applying for such waivers using the DroneZone website. These improvements will facilitate the process of collecting and submitting the information required as part of a waiver application. The reporting burdens for operational waiver applications are currently covered by Information Collection Request (ICR) 2120–0768. As part of this effort, the FAA is creating a new ICR just for operational waiver applications. In order to process operational waiver requests, the FAA requires the operator’s name, the operator’s contact information, and information related to the date, place, and time of the requested small UAS operation. Additional information is required related to the proposed waiver and any necessary mitigations. The FAA will use the requested information to determine if the proposed UAS operation can be conducted safely. This information is necessary for the FAA to meet its statutory mandate of maintaining a safe and efficient national airspace. See 49 U.S.C. 40103, 44701 and 44708.
Respondents: sUAS Operators: 8,034 per year.
Frequency: On occasion. For requests for operational waivers, a respondent
will need to provide the information once at the time of the request for the waiver. If granted, operational waivers may be valid for up to four (4) years.

Estimated Average Burden per Response: 30 minutes. The FAA estimates 1.3 responses per respondent.

Estimated Total Annual Burden: 0.65 hours per respondent, for a total of 5,222 hours.

Issued in Washington, DC, on September 30, 2020.

Dwayne C. Morris,
Project Manager, Flight Standards Service, General Aviation and Commercial Division.

National Highway Traffic Safety Administration

[Docket No. NHTSA–2019–0095; NHTSA–2019–0134; Notice 1]

Specialty Tires of America, Inc., Receipt of Petitions for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petitions.

SUMMARY: Specialty Tires of America, Inc. (STA) has determined that certain STA light truck tires do not fully comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 119, New Pneumatic Tires for Motor Vehicles with a GVWR of More than 4,536 kilograms (10,000 pounds) and Motorcycles (49 CFR 571.119) or FMVSS No. 139, New Pneumatic Radial Tires for Light Vehicles. STA filed noncompliance reports dated August 27, 2019, November 15, 2019, and November 18, 2019. STA also petitioned NHTSA on September 16, 2019, and December 13, 2019, and later amended the former on March 3, 2020, for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential as it relates to motor vehicle safety, pursuant to 49 U.S.C. 30118(d) and 30120(h) and 49 CFR part 556, Exemption for Inconsequential Defect or Noncompliance.

This notice of receipt, of STA’s petitions, is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercises of judgment concerning the merits of the petitions.

II. Tires Involved

Approximately 5,489 of the following STA light truck tires, manufactured between January 1, 2009, and October 27, 2019, and certified to FMVSS No. 119, are potentially involved:

• 8–17.5 LT STA Super Transport
• 8–14.5LT G/14 STA Super Transport
• 8–14.5LT F 12 STA Super Transport
• 7.50–18 STA Super Traxion
• 7.50–17 STA Super Transport
• 10.00–20 STA Super Transport

Approximately 2,887 of the following STA light truck tires, manufactured between February 2, 2014, and September 1, 2019, and certified to FMVSS No. 139, are potentially involved:

• 37x12.5R20LT Interco SSR
• 37x12.5R17LT Interco SSR
• 35x12.5–16LT Interco Thornbird
• 33x13.5R17LT Interco Irok

III. Noncompliance

STA explains that in both cases, the noncompliance is that the sidewalls of the subject tires incorrectly state the ply material and number of plies and, therefore, do not meet the applicable requirement specified in either paragraph S6.5 of FMVSS No. 119 or paragraphs S5.5(e) and (f) of FMVSS No.
