It also helps the public understand our information collection requirements and provide the requested data in the desired format.

3. Ways to enhance the quality, utility, and clarity of the information to be collected; and
4. How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. - Formula Grants

Some assistance programs are mandatory and award funds to eligible recipients according to a formula prescribed in law or regulation. Other programs are discretionary and award funds based on competitive selection and merit review processes. Mandatory award recipients must give us specific, detailed project information during the application process so that we may ensure that projects are eligible for the mandatory funding, are substantial in character and design, and comply with all applicable Federal laws. Applicants to discretionary programs must give us information as dictated by the program requirements and as requested in the notice of funding opportunity (NOFO), including that information that addresses ranking criteria. All recipients must submit financial and performance reports that contain information necessary for us to track costs and accomplishments. The recipients’ reports must adhere to schedules and rules in 2 CFR part 200, “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.” Part 200 prescribes the information that Federal agencies must collect, and financial assistance applicants and recipients must provide to receive benefits under Federal financial assistance programs, and supports this information collection.

The Service provides technical and financial assistance to other Federal agencies, States, local governments, Native American tribes, nongovernmental organizations, citizen groups, and private landowners for the conservation and management of fish and wildlife resources. The process begins with the submission of an application. The respective program reviews and prioritizes projects based on their respective project selection criteria. Pending availability of funding, applicants can submit their application documents to the Service through the Federal Grants.gov website or through the Department’s grants management system (currently the U.S. Department of Health and Human Services’ GrantSolutions), when solicited by the Service through a Funding Opportunity. As part of this collection of information, the Service collects the following types of information requiring approval under the PRA:

A. Application Package: We use the information provided in applications to:

1. Determine eligibility under the authorizing legislation and applicable program regulations;
2. Determine allowability of major cost items under the Cost Principles at 2 CFR 200; (3) select those projects that will provide the highest return on the Federal investment; and (4) assist in compliance with laws, as applicable, such as the National Environmental Policy Act, the National Historic Preservation Act, and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The full application package (submitted by the applicant) generally includes the following:

- Required Federal Financial assistance application forms (SF-424 suite of forms, as applicable to specified project).
- Project Narrative—generally includes items such as:
  - Statement of need,
  - Project goals and objectives,

Proposed Revisions

**Consolidation of OMB Control No. 1018–0007 into 1018–0100**

The Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669 et seq.) and the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq., except 777e–1) provide authority for Federal assistance to the States for management and restoration of fish and wildlife. These Acts and the regulations in the Code of Federal Regulations (CFR) at 50 CFR 80, subpart D, require that States, territories, and the District of Columbia annually certify their hunting and fishing license sales. The Service’s Wildlife and Sport Fish Restoration (WSFR) program currently collects those certifications under OMB Control No. 1018–0007, “Annual Certification of Hunting and Sport Fishing Licenses Issued, 50 CFR 80, Subpart D.” The WSFR program continues to enhance use of their “Wildlife Tracking and Reporting Actions for the Conservation of Species (TRACS)” system to collect information electronically from financial assistance applicants and recipients. As of Federal fiscal year 2021, WSFR will begin using TRACS to collect State license data and certifications electronically. As this control number includes the Wildlife TRACS system collection, in this revision we are consolidating the OMB Control No. 1018–0007 information collection requirements into this collection. If OMB approves this request, we will discontinue OMB Control Number 1018–0007. Consolidation of OMB approvals for Service financial-assistance-related collections into a single collection reduces burden on the public by ensuring consistency in the application and award administration processes across all Service financial assistance programs.

**Foreign Aid Transparency and Accountability Act Compliance**

We have begun implementation of the enhanced results-oriented accountability requirements in the Foreign Aid Transparency and Accountability Act (Pub. L. 114–191). OMB guidance memorandum M–18–04, “Monitoring and Evaluation Guidelines for Federal Departments and Agencies that Administer United States Foreign Assistance,” and OMB revisions to 2 CFR part 200 published August 13, 2020 (85 FR 49506). To meet the enhanced requirements, some programs may collect more performance information than previously collected.
