National Institutes of Health

National Institute of Diabetes and Digestive and Kidney Diseases; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Diabetes and Digestive and Kidney Diseases Special Emphasis Panel; NIDDK Cooperative Centers of Excellence in Hematology (U54).

Date: November 17-19, 2020.

Time: 10:00 a.m. to 3:00 p.m.

Agenda: To review and evaluate cooperative agreement applications.

Place: National Institutes of Health, Two Democracy Plaza, 6707 Democracy Boulevard, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Ann A Jerkins, Ph.D., Scientific Review Officer, Review Branch, DEA, NIDDK, National Institutes of Health, Room 7119, 6707 Democracy Boulevard, Bethesda, MD 20892-5452, (301) 594-2242, jerkinsa@nidk.nih.gov.

BILLING CODE 4140-01-P

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Notice of Issuance of the Department of the Army Program Comment for Inter-War Era Historic Housing, Associated Buildings and Structures, and Landscape Features (1919-1940)

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice of issuance of the Department of the Army Program Comment for Inter-War Era Historic Housing, Associated Buildings and Structures, and Landscape Features (1919-1940).

SUMMARY: The Advisory Council on Historic Preservation has issued a program comment for the U.S. Department of the Army that sets forth the way in which the Army complies with Section 106 of the National Historic Preservation Act for its inventory of Inter-War Era historic housing management actions, including: Maintenance, repair, rehabilitation, renovation, abatement, mothballing, demolition, replacement construction, new construction, lease and conveyance.

DATES: The Program Comment went into effect on September 4, 2020.

ADDRESSES: Address any questions concerning the Program Comment to Rachael Mangum, Office of Federal

Agency Programs, Advisory Council on Historic Preservation, 401 F Street NW, Suite 308, Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Rachael Mangum, (202) 517-0214, rmangum@achp.gov.

SUPPLEMENTARY INFORMATION: Section 106 of the National Historic Preservation Act, 54 U.S.C. 306108 (Section 106), requires federal agencies to consider the effects of projects they carry out, license, or assist (undertakings) on historic properties and to provide the Advisory Council on Historic Preservation (ACHP) a reasonable opportunity to comment with regard to such undertakings. The ACHP has issued the regulations that set forth the process through which federal agencies comply with these duties. Those regulations are codified under 36 CFR part 800 (Section 106 regulations).

Under Section 800.14(e) of those regulations, agencies can request the ACHP to provide a “program comment” on a particular category of undertakings in lieu of conducting individual reviews of each individual undertaking under such category, as set forth in 36 CFR 800.4 through 800.7. An agency can meet its Section 106 responsibilities with regard to the effects of those undertakings by taking into account an applicable program comment and following the steps set forth in that comment. The U.S. Department of the Army (Army) sought a program comment for its management actions related to its inventory of approximately 3,200 Inter-War Era historic housing units. Actions could include maintenance, repair, rehabilitation, renovation, abatement, mothballing, demolition, replacement construction, new construction, lease and conveyance. These actions present a potential for adverse effects to historic properties.

The ACHP issued the Program Comment for Army Inter-War Era Housing, Associated Buildings and Structures, and Landscape Features (1919-1940) (Program Comment) on September 4, 2020. The Section 106 regulations require that such program comments be published in the **Federal Register**.

I. Need for the Program Comment

The need for the Program Comment is based on the Army’s obligation to provide quality housing to its Soldiers and their families. The Army has approximately 470,000 Active Duty Soldiers with 650,000 family members, 400,000 of which are children. Housing and associated living conditions are critical factors for military family

resiliency in the face of the extraordinary challenges and stressors Soldiers and their families must cope with in their daily lives.

There are health and safety risks to military families living in historic housing that result from hazards such as lead-based paint and asbestos commonly found in historic building materials. The Army must also maintain and improve the living conditions that contribute to the quality of life owed to military families who occupy historic housing. The high costs associated with the use of historic building materials and in-kind building materials and specialized craftsman associated with using those materials have proven to be financially limiting factors to the Army’s ability to fully implement planned improvements to historic housing.

Also, due to military mission needs, a military family may be required to move every two or three years. The Army attempts to minimize the impact of these moves on families and school-aged children to the extent possible by its efforts to plan many of the thousands of annual moves during the summer months, when schools are not in session. Many, but not all, required maintenance, repairs, and improvements to all Army housing, both historic and non-historic, occur during this short transition in occupancy during the summer months. While extensive prior historic preservation planning and actions to support these moves occur, the Section 106 project-by-project review process under existing installation-level Programmatic Agreements (PAs) contributes to delays in completing historic housing maintenance, repairs, and improvements needed for the transition in occupancy. Those delays directly impact the ability of reassigned military families to move-in and occupy historic housing.

To provide quality housing for military families, the Army must address the health and safety risks from historic building materials, associated costs, compliance process time, and must also implement actions that address and improve the material living conditions of historic housing to ensure Soldiers and their families have the quality of life they deserve.

II. Army Inter-War Era Housing and the Program Comment

The Army has the largest housing mission in the federal government, managing over 100,000 total housing units for Soldiers and their families. Of this total, the Army has approximately 31,000 historic housing units. Over
