

STATUS: Closed.

MATTERS TO BE CONSIDERED: The agenda of the teleconference is: Committee Chair's Opening Remarks; Discussion of future MREFC account planning.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is: Michelle McCrackin, mccrack@nsf.gov, (703) 292-7000. Meeting information and updates may be found at <http://www.nsf.gov/nsb/meetings/notices.jsp#sunshine>. Please refer to the National Science Board website www.nsf.gov/nsb for general information.

Chris Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Notice of Intent To Seek Approval To Extend a Current Information Collection

AGENCY: National Center for Science and Engineering Statistics, National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation (NSF) is announcing plans to request renewal of the Survey of Earned Doctorates (OMB No. 3145-0019). In accordance with the requirements of the Paperwork Reduction Act of 1995, NCSES is providing opportunity for public comment on this action. After obtaining and considering public comments, NCSES will prepare the submission requesting that OMB approve clearance of this collection for three years.

DATES: Written comments on this notice must be received by December 14, 2020 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24

hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Earned Doctorates.

OMB Control Number: 3145-0019.

Expiration Date of Current Approval: April 30, 2022.

Type of Request: Intent to seek approval to extend an information collection for three years.

Abstract: Established within the NSF by the America COMPETES Reauthorization Act of 2010 § 505, codified in the NSF Act of 1950, as amended, the NCSES serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public.

The Survey of Earned Doctorates (SED) is part of NCSES' survey system that collects data on individuals in an effort to provide information on science and engineering education and careers in the United States. The SED has been conducted annually since 1958 and is jointly sponsored by four Federal agencies (NSF/NCSES, National Institutes of Health, U.S. Department of Education/National Center for Education Statistics, and National Endowment for the Humanities) to avoid duplication of effort in collecting such data. It is an accurate, timely source of information on one of our Nation's most important resources—highly educated individuals. This request to extend the information collection for three years is to cover the 2022 and 2023 SED survey cycles.

Data are obtained primarily via Web survey from each person earning a research doctorate at the time they receive the degree. Data are collected on their field of specialty, educational background, sources of support in graduate school, debt level, postgraduation plans, and demographic characteristics. NCSES publishes statistics from the survey in several reports. The survey will be collected in conformance with the Privacy Act of 1974. Responses from individuals are voluntary. NCSES will ensure that all individually identifiable information collected will be kept strictly confidential and will be used only for research or statistical purposes.

Use of the Information: The Federal government, universities, researchers, policy makers, and others use the information extensively. Results from the SED are used to assess characteristics of the doctorate

population and trends in doctoral education and degrees. Data from the survey are published annually on the NCSES website in a publication series reporting on all fields of study, titled *Doctorate Recipients from U.S. Universities*. Information from the SED is also included in other series available online: *Science and Engineering Indicators*; and *Women, Minorities, and Persons with Disabilities in Science and Engineering*. In addition, access to tabular data from selected variables is available through the Integrated Data Tool, an online table-generating tool on the NCSES website.

Expected Respondents: The SED is a census of all individuals receiving a research doctorate from an accredited U.S. academic institution in the academic year beginning 1 July and ending 30 June of the subsequent year. As such, the population for the 2022 SED consists of all individuals receiving a research doctorate in the 12-month period beginning 1 July 2021 and ending 30 June 2022. Likewise, the population for the 2023 SED consists of all individuals receiving a research doctorate in the 12-month period beginning 1 July 2022 and ending 30 June 2023. A research doctorate is a doctoral degree that (1) requires completion of an original intellectual contribution in the form of a dissertation or an equivalent culminating project (e.g., musical composition) and (2) is not primarily intended as a degree for the practice of a profession. The most common research doctorate degree is the Ph.D. Recipients of professional doctoral degrees, such as MD, DDS, JD, DPharm, and PsyD, are not included in the SED. The 2022 and 2023 SED are expected to include about 600 separately reporting schools with eligible research doctoral programs from among about 454 doctorate-granting institutions. Based on the historical trend, NCSES expects that approximately 57,000 individuals will receive a research doctorate from U.S. institutions in 2022, and approximately 58,000 in 2023.

In addition to the questionnaire for individuals receiving their research doctorates, the SED requires the collection of administrative data such as graduation lists from participating academic institutions. The Institutional Coordinator at the institution helps distribute the Web survey link, track survey completions, and submit information to the SED survey contractor.

Estimate of Burden: A total response rate of 92% of the 55,703 persons who earned a research doctorate from a U.S. institution was obtained in academic

year 2019. This level of response rate has been consistent for several years. Using the past response rate, the number of SED respondents in 2022 is estimated to be 52,440 (57,000 doctorate recipients \times 0.92 response rate). Similarly, the number of respondents in 2023 is estimated to be 53,360 (58,000 \times 0.92).

Based on the average Web survey completion time for the 2020 SED (19 minutes), NCSES estimates that, on average, 20 minutes per respondent will be required to complete the 2022 or 2023 SED Web survey. The annual respondent burden for completing the SED is therefore estimated at 17,480 hours in 2022 (52,440 respondents \times 20 minutes) and 17,787 hours in 2023 (based on 53,360 respondents).

Based on focus groups conducted with Institutional Coordinators, it is estimated that the SED demands no more than 1% of the Institutional Coordinator's time over the course of a year, which computes to 20 hours per year per Institutional Coordinator (40 hours per week \times 50 weeks per year \times .01). With about 600 schools expected to participate in the SED in 2022 and 2023, the estimated annual burden to Institutional Coordinators of administering the SED is 12,000 hours.

Therefore, the total information burden for the SED is estimated to be 29,480 (17,480 + 12,000) hours in the 2022 survey cycle and 29,787 (17,787 + 12,000) hours in the 2023 survey cycle. NCSES estimates that the average annual burden for the 2022 and 2023 survey cycles over the course of the three-year OMB clearance period will be no more than 19,756 hours [(29,480 hours + 29,787 hours)/3 years].

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: October 7, 2020.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[[NRC-2020-0001]

Sunshine Act Meetings

TIME AND DATE: Weeks of October 12, 19, 26, November 2, 9, 16, 2020.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public.

Week of October 12, 2020

There are no meetings scheduled for the week of October 12, 2020.

Week of October 19, 2020—Tentative

Wednesday, October 21, 2020

9:30 a.m. Briefing on Human Capital and Equal Employment Opportunity (Public Meeting)
(Contact: Randi Neff: 301-287-0583)

Additional Information: The meeting scheduled on October 21, 2020 at 9:30 a.m., Briefing on Human Capital and Equal Employment Opportunity, was previously scheduled to start at 10 a.m. Due to COVID-19, there will be no physical public attendance. The public is invited to attend the Commission's meeting live by webcast at the web address—<https://www.nrc.gov/>.

1:00 p.m. All Employees Meeting with the Commissioners (Public Meeting)
(Contact: Maria Arribas-Colon: 301-415-6026)

Additional Information: Due to COVID-19, there will be no physical public attendance. The public is invited to attend the Commission's meeting live by webcast at the web address—<https://www.nrc.gov/>.

Week of October 26, 2020—Tentative

There are no meetings scheduled for the week of October 26, 2020.

Week of November 2, 2020—Tentative

Thursday, November 5, 2020

9:00 a.m. Strategic Programmatic Overview of the Decommissioning and Low-Level Waste and Nuclear Materials Users Business Lines (Public Meeting)
(Contact: Celimar Valentin-Rodriguez: 301-415-7124)

Additional Information: Due to COVID-19, there will be no physical public attendance.

The public is invited to attend the Commission's meeting live by webcast at the web address—<https://www.nrc.gov/>.

Week of November 9, 2020—Tentative

There are no meetings scheduled for the week of November 9, 2020.

Week of November 16, 2020—Tentative

Wednesday, November 18, 2020

10:00 a.m. Meeting with the Advisory Committee on the Medical Uses of Isotopes (Public Meeting)
(Contact: Kellee Jamerson: 301-415-7408)

Additional Information: Due to COVID-19, there will be no physical public attendance. The public is invited to attend the Commission's meeting live by webcast at the web address—<https://www.nrc.gov/>.

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Denise McGovern at 301-415-0681 or via email at Denise.McGovern@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC Commission Meeting Schedule can be found on the internet at: <https://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., Braille, large print), please notify Anne Silk, NRC Disability Program Specialist, at 301-287-0745, by videophone at 240-428-3217, or by email at Anne.Silk@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555 (301-415-1969), or by email at Tyesha.Bush@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: October 8, 2020.

For the Nuclear Regulatory Commission.

Denise L. McGovern,
Policy Coordinator, Office of the Secretary.
