BILLING CODE P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R01-OAR-2019-0220; FRL-10015-04-Region 1]

Air Plan Approval; Massachusetts; Reasonably Available Control Technology for the 2008 and 2015 Ozone Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Massachusetts. The SIP revision consists of a demonstration that Massachusetts meets the requirements of reasonably available control technology (RACT) for the two precursors for ground-level ozone, oxides of nitrogen (NO_x) and volatile

organic compounds (VOCs), set forth by the Clean Air Act (CAA or Act) with respect to the 2008 and 2015 ozone National Ambient Air Quality Standards (NAAQSs or standards). Additionally, we are approving specific regulations that implement the RACT requirements by limiting air emissions of NO_x and VOC pollutants from sources within the Commonwealth. This action is being taken in accordance with the Clean Air Act.

DATES: This rule is effective on November 16, 2020.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-R01-OAR-2019-0220. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available at <https://www.regulations.gov> or at the U.S. Environmental Protection Agency, EPA Region 1 Regional Office, Air and Radiation Division, 5 Post Office Square—Suite 100, Boston, MA. EPA requests that if at all possible, you contact the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding legal holidays and facility closures due to COVID-19.

FOR FURTHER INFORMATION CONTACT: David L. Mackintosh, Air Quality Branch, U.S. Environmental Protection Agency, EPA Region 1, 5 Post Office Square—Suite 100, (Mail code 05-2),

Boston, MA 02109-3912, tel. 617-918-1584, email Mackintosh.David@epa.gov.

- V. Statutory and Executive Order Reviews

I. Background and Purpose

On August 3, 2020 (85 FR 46581), EPA issued a notice of proposed rulemaking (NPRM) for the Commonwealth of Massachusetts. In the NPRM, EPA proposed approval of a SIP revision submitted by Massachusetts on October 18, 2018 and revised by Massachusetts on May 28, 2020. The SIP revision contains a certification that Massachusetts has met all RACT requirements for the 2008 and 2015 8-hour ozone NAAQSs, negative declarations for ten Control Technique Guidelines (CTGs), and the following changes to Title 310 Code of Massachusetts Regulations (CMR): Revised section 7.00, Definitions; revised 7.00 Appendix B: Emission Banking, Trading, and Averaging, subsection (4)(b) Applicability revised section 7.08(2), Municipal Waste Combustors; revised section 7.18, VOC RACT subsections (3) Metal Furniture Surface Coating, (5) Large Appliance Surface Coating, (11) Surface Coating of Miscellaneous Metal Parts and Products, (12) Packaging Rotogravure and Packaging Flexographic Printing, (14) Paper, Film and Foil Surface Coating, (21) Surface Coating of Plastic Parts, (24) Flat Wood Paneling Surface Coating, (25) Offset Lithographic Printing Letterpress Printing; withdrawal of section 7.18(7), Automobile Surface

Coating; adding 7.18, VOC RACT subsections (31) Industrial Cleaning Solvents and (32) Fiberglass Boat Manufacturing; revised section 7.19, NO_x RACT subsections (2) General Provisions, (4) Large Boilers, (5) Medium-size Boilers, (6) Small Boilers, (7) Stationary Combustion Turbines, (8) Stationary Reciprocating Internal Combustion Engines, and (9) Municipal Waste Combustor Units, and adding 310 CMR 7.26, Industry Performance Standards subsections (20) through (25) and (27) through (29) Environmental Results Program for Lithographic, Gravure, Letterpress, and Flexographic Printing.

The NPRM provides the rationale for EPA's proposed approval, which will not be restated here.

II. Public Comment

EPA received one comment in response to the NPRM. The comment is outside the scope of a RACT SIP action, does not explain (or provide a legal or technical basis for) how the proposed action should differ in any way, and makes no specific mention of the proposed action; the comment is not germane.

III. Final Action

EPA is approving the Massachusetts SIP revision as meeting the Commonwealth's RACT obligations for the 2008 and 2015 8-hour ozone NAAQSs as set forth in sections 182(b), 182(f) and 184(b)(2) of the CAA, and is adding to the SIP the Commonwealth's submission entitled "Reasonably Available Control Technology State Implementation Plan Revision 2008 and 2015 Ozone National Ambient Air Quality Standards" and "RACT SIP Revision" dated October 18, 2018 and May 28, 2020 respectively. EPA is approving negative declarations for nine CTG categories: (1) Refinery Vacuum Producing Systems, Wastewater Separators, and Process Unit Turnarounds; (2) Leaks from Petroleum Refinery Equipment; (3) Manufacture of Synthesized Pharmaceutical Products; (4) Manufacture of Pneumatic Rubber Tires; (5) Large Petroleum Dry Cleaners; (6) Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins; (7) Equipment Leaks from Natural Gas/Gasoline Processing Plants; (8) Air Oxidation Processes; and (9) Surface Coating of Automobiles and Light-Duty Trucks. A tenth negative declaration, which applies to the Oil and Natural Gas Industry CTG, was approved by EPA on August 21, 2020 (85 FR 51666). EPA is also approving Title 310 CMR changes to the Massachusetts SIP, as follows: Revised

section 7.00, Definitions; revised 7.00 Appendix B: Emission Banking, Trading, and Averaging, subsection (4)(b) Applicability; revised section 7.08(2), Municipal Waste Combustors; revised section 7.18, VOC RACT subsections (2) Compliance with Emission Limitations, (3) Metal Furniture Surface Coating, (5) Large Appliance Surface Coating, (11) Surface Coating of Miscellaneous Metal Parts and Products, (12) Packaging Rotogravure and Packaging Flexographic Printing, (14) Paper, Film and Foil Surface Coating, (20) Emission Control Plans for Implementation of RACT, (21) Surface Coating of Plastic Parts, (24) Flat Wood Paneling Surface Coating, (25) Offset Lithographic Printing Letterpress Printing, and (30) Adhesives and Sealants; withdrawal of 7.18, section (7) Automobile Surface Coating; addition of 7.18 VOC RACT, subsections (1)(g) and (h), (31) Industrial Cleaning Solvents, and (32) Fiberglass Boat Manufacturing; revised section 7.19, NO_x RACT subsections (1) Applicability, (2) General Provisions, (3) Emission Control Plans for Implementation of RACT, (4) Large Boilers, (5) Medium-size Boilers, (6) Small Boilers, (7) Stationary Reciprocating Internal Combustion Engines, and (9) Municipal Waste Combustor Units; and addition of 310 CMR 7.26, Industry Performance Standards, subsections which incorporate an Environmental Results Program for Lithographic, Gravure, Letterpress, and Flexographic Printing; subsections (20) through (25), (27), (28) except (28)(a), and (29).

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Massachusetts regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these documents generally available through <https://www.regulations.gov> and at the EPA Region 1 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the state implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA's approval, and will

be incorporated by reference in the next update to the SIP compilation.¹

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 regulatory action because this action is not significant under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible

¹ 62 FR 27968 (May 22, 1997).

methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United

States Court of Appeals for the appropriate circuit by December 14, 2020. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: September 17, 2020.

Dennis Deziel,

Regional Administrator, EPA Region 1.

For the reasons stated in the preamble, the EPA amends part 52 of chapter I, title 40 of the Code of Federal Regulations as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart W—Massachusetts

■ 2. In § 52.1120:

■ a. Amend the table in paragraph (c) by revising the entries for “310 CMR 7.00 Definitions”, “310 CMR 7.00 Appendix B Emission Banking, Trading, and Averaging”, “310 CMR 7.08 Incinerators. Municipal Waste Combustors 310 CMR 7.08(2)”, “310 CMR 7.18 Volatile and Halogenated Organic Compounds”, “310 CMR 7.19 Reasonably Available Control Technology (RACT) for Sources of Oxides of Nitrogen (NO_x)”, and “310 CMR 7.26 “Industry Performance Standards”.

■ b. Amend the table in paragraph (e) by adding a provision for “Reasonably Available Control Technology State Implementation Plan Revision 2008 and 2015 Ozone National Ambient Air Quality Standards and RACT SIP Revision” at the end of the table.

The additions and revisions read as follows:

§ 52.1120 Identification of plan.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

45 CFR Part 2500

RIN 3045–AA75

Agency Operating Name, Adoption of New Logos, & Retirement of Logos

AGENCY: Corporation for National and Community Service.

ACTION: Final rule.

SUMMARY: This rule makes non-substantive amendments to the Corporation for National and Community Service’s (CNCS) regulations to change the operating name of the agency to “AmeriCorps,” to adopt two new logos, and to retire all existing logos, except Days of Service, from daily use. This final rule adds a new part—2500—to Title 45 of the Code of Federal Regulations to reflect the operational name change, new logos, and retirement of logos. This rule is not intended to change the legal effect of the use of the name AmeriCorps as defined in agency’s regulations.

DATES: This rule is effective on October 15, 2020.

FOR FURTHER INFORMATION CONTACT: Amy Borgstrom at the Corporation for National and Community Service, 250 E Street SW, Washington, DC 20525, *aborgstrom@cns.gov*, phone 202–422–2781.

SUPPLEMENTARY INFORMATION:

I. Background

Throughout 2017 and 2018, the Corporation for National and Community Service coordinated efforts to increase its effectiveness, efficiency, and accountability. This effort culminated in the 2018 announcement of CNCS’s Transformation and Sustainability Plan (Plan) that set forth six goals that included simplifying CNCS’s brand. After CNCS issued the Plan, the agency focused its efforts on implementing the Plan’s six goals. This rule is the outcome of the implementation of Goal 5 to “simplify the CNCS brand.”

To gain insight and knowledge about the CNCS brand, the agency engaged in a multi-stage, in-depth research analysis that included an open comment period, in-depth interviews, and a survey of nearly 4,000 members, volunteers, grantees, sponsors, and service program alumni. The results of this research showed that 80 percent of the general public is not familiar with CNCS. Only 12 percent of the general public can correctly identify the main purpose of CNCS. Of CNCS’s actual grantees and sponsors, 50 percent said it can be difficult to explain the AmeriCorps and Senior Corps programs.

After conducting a lengthy research and development process and considering feedback from stakeholders, staff, and the public, the agency is adopting a new name: AmeriCorps. The agency is adopting the following two official logos and retiring for use all

existing logos, including those for the following programs: Foster Grandparents, Senior Companions, RSVP, AmeriCorps State and National, AmeriCorps VISTA, AmeriCorps NCCC, and the Volunteer Generation Fund.

The adoption of an operating name for CNCS does not change the legal name of the agency, which will remain the Corporation for National and Community Service. Thus, Congress will continue to appropriate funds to CNCS (and the agency’s Congressional Budget Request would still be issued as CNCS). The formal title of the head of the agency (*i.e.*, for purposes of Presidential appointment and Senate confirmation) will remain the Chief Executive Officer of the Corporation for National and Community Service. However, the agency will use the adopted operating name in virtually every other context, including referring to the head of the agency as the Chief Executive Officer of AmeriCorps.

Changing the operational name does not change the mission or structure of the agency’s programs, their names, or their funding streams. Rather, it will focus and unify promotion efforts under one operating name and the two new logos to elevate awareness of the opportunities for all Americans.

II. Regulatory Procedures

Inapplicability of Prior Public Notice and Delayed Effective Date Requirements

This regulation involves matters relating to agency management and involves a technical change regarding
