National Oceanic and Atmospheric Administration

50 CFR Part 679
[Docket No. 200227–0066; RTID 0648–XA517]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific ocean perch in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area. This action is necessary to more fully use the 2020 total allowable catch of Pacific ocean perch specified for the Bering Sea subarea of the Bering Sea and Aleutian Islands management area.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), October 15, 2020, through 2400 hours, A.l.t., December 31, 2020.

ADDRESSES: Submit your comments, identified by NOAA–NMFS–2019–0074, by either of the following methods:

• Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov to comment.

• Mail: Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Records Office. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands management area (BSAI) and Exclusive Economic Zone area (EEZ) fishery. NMFS ensures that groundfish harvest is at levels that are sustainable and that harvest is within the overall 2020 BSAI groundfish total allowable catch. The 2020 BSAI groundfish total allowable catch is 41,400 million lbs, divided among the various species groups. This 2020 total allowable catch includes directed fishing for groundfish species by the Bering Sea and Aleutian Islands Management Area. Annual specifications of BSAI groundfish harvest by species group are included in the annual BSAI Groundfish Fishery Management Plan. Effective October 15, 2020, the Bering Sea subarea of the Bering Sea and Aleutian Islands Management Area will be closed to all directed fishing for Pacific ocean perch except for the directed fishing regulated by this temporary rule. NMFS is opening directed fishing for Pacific ocean perch in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area. This action is necessary to more fully use the 2020 total allowable catch of Pacific ocean perch specified for the Bering Sea subarea of the Bering Sea and Aleutian Islands management area.
NMFS closed directed fishing for Pacific ocean perch (POP) in the Bering Sea subarea of the BSAI under § 679.20(d)(1)(iii) (85 FR 13553, March 9, 2020).

NMFS has determined that approximately 2,000 metric tons of POP remain in the directed fishing allowance. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2020 total allowable catch of POP in the Bering Sea subarea of the BSAI, NMFS is terminating the previous closure and is opening directed fishing for POP in Bering Sea subarea of the BSAI, effective 1200 hrs, A.l.t., October 15, 2020, through 2400 hrs, A.l.t., December 31, 2020. This will enhance the socioeconomic well-being of harvesters dependent on POP in this area.

The Administrator, Alaska Region considered the following factors in reaching this decision: (1) The current catch of POP in the BSAI and, (2) the harvest capacity and stated intent on future harvesting patterns of vessels participating in this fishery.

**Classification**

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866. Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of directed fishing for POP in the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 9, 2020.

Without this inseason adjustment, NMFS could not allow the fishery POP in the BSAI to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until November 3, 2020.

**Authority:** 16 U.S.C. 1801 et seq.

**Dated:** October 13, 2020.

**Jennifer M. Wallace,**
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
