pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

IV. Registration Reviews

A. What action is the agency taking?

A pesticide’s registration review begins when the agency establishes a workplan. All comments should be submitted using the methods in ADDRESSES and must be received by the EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Table in Unit IV. Comments received after the close of the comment period will be marked “late.” The EPA is not required to consider these late comments.

The agency will carefully consider all comments received by the closing date and may provide a “Response to Comments Memorandum” in the docket. The final registration review work plan will explain the effect that any comments had on the final work plan and provide the agency’s response to significant comments.

Background on the registration review program is provided at: http://www.epa.gov/pesticide-reevaluation.

Authority: 7 U.S.C. 136 et seq.

Mary Reaves,
Acting Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.

[FR Doc. 2020–23071 Filed 10–16–20; 8:45 am] B. Docket content

The registration review docket contains information that the agency may consider in the course of the registration review. The agency may include information from its files including, but not limited to, the following information:

- An overview of the registration review case status.
- A list of current product registrations and registrants.
- Federal Register notices regarding any pending registration actions.
- Federal Register notices regarding current or pending tolerances.
- Risk assessments.
- Bibliographies concerning current registrations.
- Summaries of incident data.
- Any other pertinent data or information.

Each docket contains a document summarizing what the agency currently knows about the pesticide case and a preliminary work plan for anticipated data and assessment needs. Additional documents provide more detailed information. During this public comment period, the agency is asking that interested persons identify any additional information they believe the agency should consider during the registration reviews of these pesticides. The agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

The registration review final rule at 40 CFR 155.50(b) provides for a minimum 60-day public comment period on all preliminary registration review work plans. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary changes to a pesticide’s workplan. All comments should be submitted using the methods in ADDRESSES and must be received by the EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Table in Unit IV. Comments received after the close of the comment period will be marked “late.” The EPA is not required to consider these late comments.

The agency will carefully consider all comments received by the closing date and may provide a “Response to Comments Memorandum” in the docket. The final registration review work plan will explain the effect that any comments had on the final work plan and provide the agency’s response to significant comments.

Background on the registration review program is provided at: http://www.epa.gov/pesticide-reevaluation.

Authority: 7 U.S.C. 136 et seq.

and on domestic matters related to implementation of the Great Lakes Water Quality Agreement between the U.S. and Canada. The major objectives of the GLAB are to provide advice and recommendations on: Great Lakes protection and restoration activities; long-term goals, objectives, and priorities for Great Lakes protection and restoration; and other issues identified by the Great Lakes Interagency Task Force/Regional Working Group.

II. How do I participate in the remote public meeting?

A. Remote Meeting

This meeting will be conducted as a remote/virtual meeting on October 29, 2020 from 9:00 a.m. to 12:00 p.m. Central Daylight Time. You must register by 3:00 p.m. Central Daylight Time on October 28, 2020 to receive information on how to participate. You may also submit written or oral comments for the committee by contacting the DFO directly per the processes outlined below.

B. Registration

To register and receive information on how to attend this remote/virtual meeting, please send an email to the DFO at Barnes.edlynzia@epa.gov with the SUBJECT line of “Request to Register for October 2020 GLAB Meeting” and include the following information: Name, Title, Organization, Email, and Phone Number. Attendees must register by 3:00 p.m. Central Daylight Time on October 28, 2020 to receive instructions for participation.

C. Procedures for Providing Public Comments

Oral Statements: In general, oral comments at this remote virtual meeting will be limited to the “Public Comments” portion of the meeting agenda. During the “Public Comments” portion of the meeting agenda, members of the public may provide oral comments no longer than three minutes duration per individual or group and submit further information in written comments. Persons interested in providing oral statements should contact the DFO directly at Barnes.edlynzia@epa.gov by 3:00 p.m. Central Daylight Time on October 22, 2020 with the SUBJECT line of “Request to Register for October 2020 GLAB Meeting—Provide Oral Statement” to be placed on the list of registered speakers and receive special instructions for participation. The following information should be included in the email: Name, Title, Organization, Email, and Phone Number. Oral commenters will be provided an opportunity to speak in the order in which their request was received by the DFO and to the extent permitted by the number of comments and the scheduled length of the meeting. Persons not able to provide oral comments during the meeting, will be given an opportunity to provide written comments after the meeting.

Written Statements: Persons interested in providing written statements pertaining to this committee meeting may email them to the DFO prior to 3:00 p.m. Central Daylight Time on October 22, 2020 with the SUBJECT line of “Request to Register for October 2020 GLAB Meeting—Provide A Written Statement”. The following information should be included in the email: Name, Title, Organization, Email, and Phone Number.

D. Availability of Meeting Materials

The meeting agenda and other materials for the virtual conference will be posted on the GLAB website at www.glri.us/glab.

E. Accessibility

Persons with disabilities who wish to request reasonable accommodations to participate in this event may contact the DFO at Barnes.edlynzia@epa.gov or 312–886–6249 by 3:00 p.m. Central Standard Time on October 22, 2020. All final meeting materials will be posted to the GLAB website in an accessible format following the meeting, as well as a written summary of this meeting.

Kurt Thiede, Regional Administrator, Great Lakes National Program Manager.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager identified in the Table in Unit IV.

B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through
