Supplementary information: Title; associated form; and OMB number: ARI Game Evaluation; OMB control number 0702–xxxx.

Needs and uses: This information collection will follow best practices in assessment development by collecting feedback about the ease of use, clarity, and usability from individuals who complete the Systems Thinking Abilities game and by collecting demographic information about those individuals to ensure they are similar to the intended end users. The game players are freelance workers from Amazon’s Mechanical Turk (MTurk) site who will be paid to play the Systems Thinking Abilities game and respond to the questions included in this information collection. Participants will be master Amazon MTurk workers (workers that demonstrate excellence in a range of MTurk tasks) with a minimum age of 18 years old and a maximum age of 55 years old with normal color vision. Participants will be located in the United States and high school graduates. Respondents will not be sent invitations to participate, instead they can sign up to participate through the MTurk website. Each participant will complete the Systems Thinking Abilities game, the evaluation questions and the demographic information using his or her computer from a location of his or her choice. The ARI Game Evaluation Form will be linked through the MTurk site and responses will be entered and returned online. Once participants complete their assigned section(s) they will be paid for their time through MTurk. Data will be analyzed following completion of data collection activities. Evaluation questions: Participants will respond to a series of multiple choice and open-ended questions to capture their experience with the Systems Thinking Abilities game. These questions are included on the ARI Game Evaluation Form. The collected data will be retrieved and processed by Personnel Decisions Research Institutes (PDRI), a contractor working for ARI. Summary statistics will be generated and the open-ended feedback will be content coded. The information collected on participant feedback will be used to identify modifications needed to the software to improve the clarity or ease of use. Findings will be documented in a technical report describing the initial testing. Affected public: Individuals or households. Annual burden hours: 23.3. Number of respondents: 100. Responses per respondent: 1. Annual responses: 100. Average burden per response: 14 minutes.

Frequency: One-time collection.

The U.S. Army Research Institute for the Behavioral and Social Sciences (ARI) is developing an innovative game-based assessment to evaluate an individual’s systems thinking abilities. Systems thinking is important for job success in areas such as cyber security, engineering, and mission planning. As an assessment, the Systems Thinking Abilities game needs to be evaluated to ensure it measures what is intended and relates to performance in jobs that require systems thinking. This Information Collection will follow best practices in assessment development by collecting feedback about the ease of use, clarity, and usability from individuals who complete the Systems Thinking Abilities game and by collecting demographic information about those individuals to ensure they are similar to the intended end users.

[Docket ID: DOD–2020–OS–0085]

Proposed collection; comment request

Agency: Defense Threat Reduction Agency (DTRA), DoD.

Action: Notice.

Summary: In compliance with the Paperwork Reduction Act of 1995, the Defense Threat Reduction Agency announces a proposed public information collection and seeks public comment on the provisions thereof.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

Dates: Consideration will be given to all comments received by December 18, 2020.

Addresses: You may submit comments, identified by docket number and title, by any of the following methods:

Mail: The Department of Defense (DoD) cannot receive written comments other than those submitted electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

For further information contact: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Threat Reduction Agency, 8725 John J. Kingman Road, Stop 6210, Fort Belvoir, VA 22060–6201 Attn: LCDR James D. Franks, USN; or call (800) 462–3683.

Supplementary information: Title; associated form; and OMB number: Nuclear Test Personnel Review Forms; DTRA Form 150, DTRA Form 150A, DTRA Form 150B, DTRA Form 150C, DTRA Form 150D, DTRA Form 150E; OMB control number 0704–0447.

Needs and uses: The information collection requirement is necessary to provide recognition, verify participation, and/or collect irradiation scenario information from nuclear test participants to perform radiation dose assessments. This information is used to award the Atomic Veterans Service Certificate (AVSC) to eligible veterans.

Sciences, 6000 6th Street, Fort Belvoir, VA 22060, ATTN: Dr. Alisha Ness, or call 703–545–2398.
and to process claims submitted by veterans seeking radiogenic disease compensation from the Department of Veterans Affairs (VA) and/or the Department of Justice (DOJ). This information may also be used in approved veteran epidemiology studies that study the health impact of nuclear tests on U.S. veterans. Respondents include Veterans and civilian test participants, and their representatives, who apply for the AVSC or file radiogenic disease compensation claims with the VA or DOJ and require information from the Department of Defense. AFFECTED PUBLIC: Individuals or households.

Annual Burden Hours: 94.5.
Number of Respondents: 163.
Responses per Respondent: 1.
Annual Responses: 163.
Average Burden per Response: 1 Hour.
Frequency: On occasion.
Veterans and their representatives routinely contact DTRA (by phone and mail) to request information regarding participation in U.S. atmospheric nuclear testing or apply for the AVSC. A release form is required to certify the identity of the request and authorize the release of Privacy Act information (to the veteran or a 3rd party). DTRA is also required to collect irradiation scenario information from nuclear test participants to accurately determine their radiation dose assessment.

Proposed Collection; Comment Request

AGENCY: Defense Counterintelligence and Security Agency, DoD.

ACTION: Information collection notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Defense Counterintelligence and Security Agency announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by December 18, 2020.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Mail: The Department of Defense (DoD) cannot receive written comments at this time due to the COVID–19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Defense Counterintelligence and Security Agency, 27130 Telegraph Road, Quantico, VA 22134; ATTN: Ms. Eleanor Remper or call (571) 305–6392.

SUPPLEMENTARY INFORMATION:

Title: Associated Form; and OMB Number: National Industrial Security System (NISS) OMB Control Number 0704–0571.

Needs and Uses: The information collection requirement is necessary for DCSA to oversee the National Industrial Security Program (NISP) pursuant to Executive Order 12829. The National Industrial Security System (NISS) is the repository of records related to the maintenance of information pertaining to contractor facility security clearances (FCL) and contractor capabilities to protect classified information in its possession.

AFFECTED PUBLIC: Business or Other For-Profit, Federal Government, and Not-For-Profit Institutions.

Annual Burden Hours: 11,671.
Number of Respondents: 11,671.
Responses per Respondent: 1.
Annual Responses: 11,671.
Average Burden per Response: 60 minutes.
Frequency: On occasion.
