

- 2. The Alliance for Innovation on Maternal Health Program;
- 3. The Alliance for Innovation on Maternal Health—Community Care Initiative;
- 4. The Rural Maternity and Obstetrics Management Strategies Program; and,
- 5. The Supporting Maternal Health Innovation Program.

MCHB is conducting a portfolio-wide evaluation of HRSA-supported Maternal Health (MH) Programs with a primary focus on reducing maternal mortality. Through this evaluation, MCHB seeks to identify individual and/or collective strategies, interrelated activities, and common themes within and across the MH Programs that may be contributing to or driving improvements in key maternal health outcomes. MCHB seeks to ascertain which components should be elevated and replicated to the national level, as well as inform future investments to reduce rates of maternal mortality and severe maternal morbidity.

A 60-day notice was published in the **Federal Register** on June 8, 2020, vol. 85, No. 110; pp. 34739–40. There were no public comments.

Need and Proposed Use of the Information: MCHB seeks to understand the impact of HRSA’s investments in MH programs. These five programs represent a total of 12 state-based programs and three programs with the potential for national reach. In understanding the strategies that are most effective in reducing maternal morbidity and mortality, program elements could be replicated and/or scaled up nationally.

Likely Respondents: Likely respondents are recipients of the cooperative agreements mentioned above (The State Maternal Health Innovation Program; The Alliance for Innovation on Maternal Health Program; The Alliance for Innovation on Maternal Health—Community Care Initiative; The Rural Maternity and Obstetrics Management Strategies Program; and,

The Supporting Maternal Health Innovation Program) which represents 11 state health agencies, two national organizations, and two academic organizations.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Instrument 1: Interview guide for grantee staff	75	1	75	1.00	75.0
Instrument 2: Interview guide for HRSA POs	7	1	7	1.50	10.5
Instrument 3: Partnership Survey	290	1	290	0.25	72.5
Instrument 4: Web-based data collection tool	15	1	15	0.50	7.5
Total	387	387	165.5

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
