B. Need and Uses

Presolicitation notices are used by the Government to inform, and, where specified, solicit a response from potential offerors or bidders. This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- For sealed bidding (FAR 14.205), presolicitation notices briefly describe requirements and provide other essential information to enable potential bidders to determine whether they have an interest in the invitation and if appropriate, respond by communicating their interest in receiving the invitation for bid;

- For contracting by negotiation (FAR 15.201(c)), presolicitation notices provide a means of early exchanges of information about future acquisitions between Government and industry, to which potential offerors may respond with feedback concerning acquisition strategy, terms and conditions, and any other concerns or questions.

- For construction contracts (FAR 36.213-2), presolicitation notices are required for construction requirements in excess of the simplified acquisition threshold to communicate essential information on the requirements, to which potential bidders may respond communicating their interest in receiving the invitation for bid.

The Contracting Officer will use the information as follows:

- For sealed bidding, to include interested bidders in the distribution of the invitations for bids; and

- For contracting by negotiation, to consider the industry feedback in shaping the acquisition strategy.

C. Annual Burden

Respondents: 59,420.

Total Annual Responses: 178,260.
