Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On October 15, 2020, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of Wisconsin in the lawsuit entitled *United States v. Hydrite Chemical Co.*, Case No. 3:20–cv–00950.

The United States filed a Complaint in this lawsuit seeking civil penalties and injunctive relief from Defendant Hydrite Chemical Co. (“Hydrite”) for alleged violations of the Clean Air Act, 42 U.S.C. 7401–7671q, at Hydrite’s chemical blending and manufacturing facility in Cottage Grove, Wisconsin (the “Facility”). The United States’ Complaint alleges that Hydrite has violated statutory and regulatory requirements limiting hazardous air pollutant emissions from the Facility, as well as corresponding requirements in Hydrite’s Clean Air Act permits for the Facility.

When the Complaint was filed, the United States also lodged a proposed Consent Decree that would settle the claims asserted in the Complaint. Among other things, the proposed Consent Decree would require that Hydrite implement appropriate injunctive relief to control air pollutant emissions from the Facility, including improving its practices for the detection and control of fugitive emissions from tanks and equipment that contain chemicals classified as hazardous air pollutants. The Consent Decree also would require Hydrite to pay a \$480,503 civil penalty to the United States.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Hydrite Chemical Co.*, D.J. Ref. No. 90–5–2–1–12229. SUPPLEMENTARY INFORMATION: On April 28, 1975, the Department published ERISA Procedure 75-1 in the **Federal Register**, which provided the public with information regarding the procedure to follow when requesting an exemption. On August 10, 1990, the Department issued a regulation which replaced ERISA Procedure 75-1 for applications for prohibited transaction exemptions filed on or after September 10, 1990 (29 CFR 2570.30 *et seq.*).

On July 31, 1996, the Department published in the **Federal Register**, Prohibited Transaction Class Exemption 96-62 that provides for accelerated approval of an exemption permitting a plan to engage in a transaction which might otherwise be prohibited following a demonstration to the Department that the transaction: (1) Is substantially similar in all material respects to at least two other transactions for which the Department recently granted administrative relief from the same restriction; and (2) presents little, if any, opportunity for abuse or risk of loss to a plan's participants and beneficiaries. Under the class exemption, a party may proceed with a transaction in as little as 78 days from the acknowledgment of receipt by the Department of a written submission filed in accordance with the terms of the class exemption.

In 2002, the DOL amended the exemption to clarify that it covers "plans" as described in Code Section 4975(e)(1), such as IRAs and Keogh Plans, and that the scope of the exemption is not limited to Title I ERISA covered plans. Additionally, in 2003 the DOL amended the exemption to permit parties to base their submissions on substantially similar transactions described either in two individual exemptions granted within the past 60 months, or in one individual exemption granted within the last 120 months and one transaction that received final authorization under the exemption within the past 60 months. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 29, 2020 (85 FR 23856).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of

law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal.
