The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

§ 71.1 [Amended]

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F. “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

ASW TX E5 Mineola, TX [Amended]
Mineola Wisener Field, TX
(Lat. 32°40′36″, long. 95°30′39″ W)
Wood County Airport-Collins Field, TX
(Lat. 32°44′32″, long. 95°29′47″ W)

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Mineola Wisener Field, and within a 6.4-mile radius of Wood County Airport-Collins Field, and within 3.8 miles east and 5.7 miles west of the 182° bearing from the Wood County Airport-Collins Field extending from the 6.4-mile radius of Wood County Airport-Collins Field to 21.3 miles south of Wood County Airport-Collins Field.

ASW TX E5 Kenedy, TX [Amended]
Kenedy Regional Airport, TX
(Lat. 28°49′30″, long. 97°51′56″ W)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of Kenedy Regional Airport.

Issued in Fort Worth, Texas, on October 13, 2020.

Martin A. Skinner,
Acting Manager, Operations Support Group, ATO Central Service Center.

RIN 2120–AA66

Proposed Amendment Class E Airspace; Elkhart, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Class E airspace extending upward from 700 feet above the surface at Elkhart-Morton County Airport, Elkhart, KS. The FAA is proposing this action as the result of an airspace review caused by the decommissioning of the Elkhart non-directional beacon (NDB).

DATES: Comments must be received on or before December 7, 2020.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366–9826, or (800) 647–5527. You must identify FAA Docket No. FAA–2020–0887/Airspace Docket No. 20–ACE–22 at the beginning of your comments. You may also submit comments through the internet at https://www.regulations.gov. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.

FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11E at NARA, email: fedreg.legal@nara.gov or go to https://www.archives.gov/federal-register/cfr/ibr-locations.html.

FOR FURTHER INFORMATION CONTACT: Jeffrey Claypool, Federal Aviation Administration, Operations Support Group, Central Service Center, 10101
Hillwood Parkway, Fort Worth, TX 76177; telephone (817) 222–5711.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class E airspace extending upward from 700 feet above the surface at Elkhart-Morton County Airport, Elkhart, KS, to support instrument flight rule operations at this airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA–2020–0887/Airspace Docket No. 20–ACE–22.” The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at https://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the ADDRESSES section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by amending the Class E airspace extending upward from 700 feet above the surface at Elkhart-Morton County Airport, Elkhart, KS, by removing the Elkhart NDB an associated extensions from the airspace legal description.

This action is due to an airspace review caused by the decommissioning of the Elkhart NDB, which provided navigational information to the instrument procedures at this airport. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS: AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

ACE KS E5 Elkhart, KS [Amended]

Elkhart-Morton County Airport, KS (Lat. 37°00′03″ N, long. 101°52′48″ W) That airspace extending upward from 700 feet above the surface within a 5-mile radius of Elkhart-Morton County Airport.
I. Background

DoD, GSA, and NASA are proposing to amend the FAR to implement section 826 of the NDAA for FY 2020 (Pub. L. 116–92) which increases the threshold for requiring fair opportunity on orders under multiple-award contracts from $2,500 to the “micro-purchase threshold”. The fair opportunity to compete at FAR 16.505(b)(1) applies to orders over the threshold unless an exception at FAR 16.505(b)(2) applies. The FAR threshold at 16.505 is currently $3,500, as a result of inflation adjustments in accordance with FAR 1.109. This change applies the word-based threshold to ensure continued alignment with any future changes to the thresholds.

FAR Case 2018–004 was published July 2, 2020 (85 FR 40064) with an effective date of August 31, 2020. It raised the micro-purchase threshold, as defined at FAR 2.101, to $10,000.

II. Discussion and Analysis

FAR section 16.505 currently requires contracting officers to provide each awardee a fair opportunity to be considered for each order exceeding $3,500 under multiple-award delivery-order or task-order contracts unless an exception applies. This rule proposes to change the threshold for requiring fair opportunity from $3,500 to the “micro-purchase threshold” at FAR 16.505(b)(1)(i), 16.505(b)(2)(i), and 16.505(b)(2)(ii)(A). While the rule does not prohibit a contracting officer from providing fair opportunity to each awardee at or below the micro-purchase threshold, the rule requires contracting officers to provide fair opportunity for orders exceeding the micro-purchase threshold unless an exception applies.

III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

This proposed rule does not create any new provisions or clauses, nor does it change the applicability of any existing provisions or clauses included in solicitations and contracts valued at or below the SAT, or for commercial items, including COTS items.

IV. Expected Cost Savings

DoD, GSA and NASA have performed a regulatory cost analysis for this proposed rule. This rule is expected to reduce the public burden because the threshold increase will reduce costs to submit an offer for the unsuccessful awarder who participate in fair opportunity competitions for orders under FAR part 16. DoD, GSA, and NASA recognize some awardees may be impacted by a reduction in the number of opportunities an awardee may have to receive an award of a delivery or task order through fair opportunity. Using Federal Procurement Data System (FPDS) data from FY 2017 through FY 2019 for FAR part 16 task and delivery orders awarded using fair opportunity between $3,500 and $10,000, the average number of fair opportunity task or delivery orders under FAR part 16 procedures is approximately 9,800 orders annually. We estimate that the Government receives an average of three offers for each of the 9,800 task or delivery orders, resulting in an estimated 19,600 (9,800 × 2) unsuccessful offers. We assume there are costs to submit the offers for the estimated 19,600 unsuccessful offers, which will be eliminated by this rule. We estimate the public cost savings to be $266,070 annually using a fully burdened GS–12 step 5 salary from 2019 (19,600 offers × 0.25 hour × $54.30).

DoD, GSA and NASA recognize that the increase in the micro-purchase threshold (MPT) in FAR Case 2018–004 (84 FR 52420 on October 2, 2019) has resulted in an increased use of the Governmentwide commercial purchase card and a general reduction in the number of FAR part 16 delivery and task orders awarded between $3,500 and $10,000. According to FPDS, there were 12,911 fair opportunity FAR part 16 awards between $3,500 and $10,000 in FY 2017. In contrast, there were 6,421 awards in FY 2019; a drop by almost 50%. This decrease can be attributed to the preference given to the Governmentwide commercial purchase card for procurements under the MPT. While it’s unclear whether there will be
