Revoking the Class E airspace area designated as an extension to Class D and Class E surface areas at Muskegon County Airport as it is no longer required:

And amending the Class E airspace extending upward from 700 feet above the surface at Muskegon County Airport by removing the Muskegon VORTAC and associated extensions as they are no longer required; removing the extensions southeast and northwest of the airport as they is no longer required; and updating geographic coordinates of the airport to coincide with the FAA’s aeronautical database.

This action is the result of an airspace review caused by the decommissioning of the Muskegon VOR, which provided navigation information for the instrument procedures this airport, as part of the VOR MON Program.

Class D and E airspace designations are published in paragraph 5000, 6002, 6004, and 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F. “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by:

- Amending the Class D airspace at Sawyer International Airport, Marquette, MI, by updating the geographic coordinates of the airport to coincide with the FAA’s aeronautical database; removing the city associated with the airport to comply with changes to FAA Order 7400.2M, Procedures for Handling Airspace Matters; and replacing the outdated term “Airport/Facility Directory” with “Chart Supplement”;

- Amending the Class E surface airspace at Sawyer International Airport by updating the geographic coordinates of the airport to coincide with the FAA’s aeronautical database; removing the city associated with the airport to comply with changes to FAA Order 7400.2M; and replacing the outdated term “Airport/Facility Directory” with “Chart Supplement”;

- Establishing a Class E airspace area designated as an extension to Class D and Class E surface areas within 2.4 miles each side of the 022° bearing from the Sawyer VOR extending from the 4.6-mile radius of the Sawyer International Airport to 7 miles north of the Sawyer VOR;

- And amending the Class E airspace extending upward from 700 feet above the surface at Sawyer International Airport by updating the geographic coordinates of the airport to coincide with the FAA’s aeronautical database; and removing the airspace extending upward from 1,200 feet above the surface and the exclusionary language as they are no longer required.

This action is the result of an airspace review caused by the decommissioning of the Iron Mountain VOR, which provided navigation information for the instrument procedures this airport, as part of the VOR MON Program.

Class D and Class E airspace designations are published in paragraph 5000, 6002, 6004, and 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Proposed Amendment of Class E Airspace; Warroad, MN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Class E airspace extending upward from 700 feet above the surface at Warroad International Memorial Airport, Warroad, MN. The FAA is proposing this action as the result of an airspace review caused by the decommissioning of the Baudette VHF omnidirectional range (VOR) navigation aid as part of the VOR Minimum Operational Network (MON) Program. The name and geographic coordinates of the airport would also be updated to coincide with the FAA’s aeronautical database.

DATES: Comments must be received on or before December 7, 2020.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366–9826, or (800) 647–5527. You must identify FAA Docket No. FAA–2020–0878/Airspace Docket No. 20–AGL–35, at the beginning of your comments. You may also submit comments through the internet at https://www.regulations.gov. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.
