Abstract: The National Map Corps (TNMCorps) is the name of the U.S. Geological Survey (USGS) National Geospatial Program (NGP) project that encourages citizen participation in volunteer map data collection activities. TNMCorps uses crowdsourcing—new technologies and internet services to georeference structure points and share this information with others on map-based internet platforms—to produce volunteered geographic information (VGI). People participating in the crowd sourcing are considered part of the TNMCorps. In general, the National Structures Dataset (NSD) has been populated with the best available national data. This data has been exposed for initial improvement by TNMCorps volunteers via the online Map Editor (the instrument). In addition, the data goes through a tiered-editing process, which includes Peer Review and Advanced Editors. At each stage the data is passed through an automatic “magic filter” to look for data issues before being submitted into the NSD. In addition data goes through sampling for quality assurance procedures.

Data within the NSD is available to the USGS; as well as to the public, at no cost via The National Map and US Topo.

Data quality studies in 2012, 2014, and 2018 showed that the volunteers' actions were accurate and exceeded USGS quality standards. Volunteer-

collected data showed an improvement in both location and attribute accuracy for existing data points. Completeness, or the extent to which all appropriate features were identified and recorded, was also improved.

SUPPLEMENTARY INFORMATION: The BIA published the Notice of Availability for the Draft EIS in the **Federal Register** and the *Bakersfield Californian* on June 12, 2020 (85 FR 35948). The BIA held a virtual public hearing on July 8, 2020.

Background: The Proposed Project consists of the following components: (1) The Department of the Interior's (Department) transfer of approximately 306 acres from fee to trust status pursuant to Section 5 of the Indian Reorganization Act (25 U.S.C. 5108); (2) issuance of a determination by the Secretary of the Interior pursuant to Section 20 of the Indian Gaming Regulatory Act determining whether a gaming facility on the project site would be in the best interest of the Tribe and its members and not detrimental to the surrounding community (25 U.S.C. 2719(b)(1)(A)); (3) the approval of a management contract by the Chairman of the National Indian Gaming Commission pursuant to 25 U.S.C. 2711; and (4) the development of the trust parcel with a casino, hotel, convention center, multipurpose event space, several restaurant facilities, parking facilities, a recreational vehicle (RV) park, fire and sheriff stations, and associated facilities.

The following alternatives are considered in the FEIS: (1) Proposed Project; (2) Reduced Intensity Hotel and Casino; (3) Organic Farm; (4) Alternate Site for the Proposed Project; and (5) No Action Alternative. The BIA has selected Alternative A1, the Proposed Project, as the Preferred Alternative as discussed in the FEIS.

Environmental issues addressed in the FEIS include geology and soils, water resources, air quality, biological resources, cultural and paleontological resources, socioeconomic conditions (including environmental justice), transportation and circulation, land use, public services, noise, hazardous materials, aesthetics, cumulative effects, and indirect and growth inducing effects.

The information and analysis contained in the FEIS, as well as its evaluation and assessment of the Preferred Alternative, will assist the Department in its review of the issues presented in the Tribe's application. Selection of the Preferred Alternative does not indicate the Department's final decision because the Department must complete its review process. The Department's review process consists of (1) issuing the notice of availability of the FEIS; (2) issuing a Record of Decision no sooner than 30 days following publication of a Notice of Availability of the FEIS by the EPA in the **Federal Register**; (3) issuing a Secretarial Determination pursuant to Section 20 of the Indian Gaming Regulatory Act that determines whether the Tribe's gaming facility would be in the best interest of the Tribe and its members and is not detrimental to the surrounding community, 25 U.S.C. 2719(b)(1)(A); (4) requesting the Governor of California's concurrence with the Secretarial Determination; and (5) issuing a final decision on the transfer of the proposed site from fee to trust status pursuant to Section 5 of the Indian Reorganization Act, 25 U.S.C. 5108. The National Indian Gaming Commission will separately consider the Tribe's application for a management contract pursuant to 25 CFR part 533.

In accordance with Section 176 of the Clean Air Act (42 U.S.C. 7506), and the EPA general conformity regulations 40 CFR part 93, subpart B, a Final Conformity Determination (FCD) has been prepared for the proposed project. The Clean Air Act requires Federal agencies to ensure that their actions conform to applicable implementation plans for achieving and maintaining the National Ambient Air Quality Standards for criteria air pollutants. The BIA has prepared an FCD for the proposed

action/project described above. The FCD is included in Appendix Z of the FEIS.
