SUPPLEMENTARY INFORMATION:

I. Abstract

USPTO engages in a robust marketing strategy that historically results in a high volume of applications from recent college graduates with engineering and science degrees for entry-level patent examiner positions. In FY2020, USPTO received 7,361 applications and ultimately hired 597 new patent examiners.

USPTO uses the Monster Hiring Management (MHM) system to rapidly review applications for employment of entry-level patent examiners. The use of such automated online systems during recruitment allows USPTO to remain competitive, meet hiring goals, and fulfill the Agency’s Congressional commitment to reduce the pendency rate for the examination of patent applications. Given the time sensitive hiring needs of the Patent Examining Corps, the MHM system provides increased speed and accuracy during the employment process.

This information collection covers respondent data gathered through the MHM system. The MHM online application collects supplemental information to a candidate’s USAJOBS application. This information assists USPTO Human Resource Specialists and Hiring Managers in determining whether an applicant possesses the basic qualification requirements for a patent examiner position. From the

information collected, the MHM system creates an electronic real-time candidate inventory on applicants’ expertise and technical knowledge, which allows USPTO to immediately review applications from multiple applicants.

The use of the MHM online application fully complies with 5 U.S.C. 2301, which requires adequate public notice to assure open competition by guaranteeing that necessary employment information will be accessible and available to the public on inquiry. It is also fully compliant with Section 508 (29 U.S.C. 794(d)), which requires agencies to provide disabled employees and members of the public access to information that is comparable to the access available to others.

II. Method of Collection

Items in this information collection must be submitted via online electronic submissions.

III. Data

OMB Control Number: 0651-0042.

Forms: None.

Type of Review: Revision of a currently approved information collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 8,386 respondents per year.

Estimated Number of Responses: 8,386 responses per year.

Estimated Time per Response: The USPTO estimates that it will take the public approximately 30 minutes (0.5 hours) to complete the Patent Examiner Application Questions. This includes the time to gather the necessary information, respond to the MHM system prompts, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 4,193 hours.

Estimated Total Annual Respondent Hourly Cost Burden: \$115,056.

TABLE 1—TOTAL HOURLY BURDEN FOR RESPONDENTS

Estimated Total Annual Non-Hour Respondent Cost Burden: \$0. There are

no filing fees or start-up, maintenance, recordkeeping, or postage costs

associated with this information collection.

IV. Request for Comments

The USPTO is soliciting public comments to:

¹ USPTO is using the OPM Special Rate Table 0576—Patent Examiner 07—Step 1 as an estimate for

the hourly rate: <https://apps.opm.gov/SpecialRates/2020/Table057601012020.aspx>.

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility;

(b) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, USPTO cannot guarantee that it will be able to do so.
