In the Federal Register [83 FR 56872, November 14, 2018], column 1, paragraph 1, sentence 2 is corrected by adding the following sentence to the end of the paragraph:

Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary object and object of cultural patrimony to the Prairie Island Indian Community in the State of Minnesota.

Respondent’s Obligation: Required to retain or obtain a benefit.
Frequency of Collection: On occasion.
Total Estimated Annual Non-hour Burden Cost: No non-hour paperwork cost burden.
Estimated Reporting and Recordkeeping Hour Burden: We estimate that the annual reporting burden for this collection is 299 hours, which would be an increase of 56 annual burden hours from the OMB-approved burdens. This increase is due to changes in estimated hour burdens and number of responses related to 30 CFR 583, subpart C, since the publication of the regulations in 2017. The hour burden estimates would be revised to more accurately estimate the number of state and local governments requesting negotiated noncompetitive agreements from BOEM. In addition, BOEM has reviewed the hour burdens for requested information under this subpart, and the increase would better reflect the hours it takes for respondents to collect and submit the information.
A Federal Register notice with a 60-day public comment period soliciting comments on this proposed information collection request was published on July 14, 2020 (85 FR 42428). BOEM received one comment from a private citizen during the 60-day comment period. This citizen suggested publishing information on the web about how sand resources are used and by whom. BOEM posts information on the Marine Mineral Program at boem.gov/marine-minerals. This site provides information on the National Offshore Sand Inventory, requests and active leases, state marine mineral projects, research and studies, and other related information.
BOEM is again soliciting comments on the proposed ICR that is described above. BOEM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure this information will be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?
Comments that you submit in response to this notice are a matter of public record. BOEM will include or summarize each comment in its request to the Office of Management and Budget (OMB) for approval of this ICR. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifying information—may be made publicly available at any time. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify any information contained in the submittal of your comments that, if released, would clearly constitute an unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of your information, such as embarrassment, injury, or other harm. While you can ask BOEM in your comment to withhold your personally identifiable information from public review, BOEM cannot guarantee that it will be able to do so.
BOEM protects proprietary information in accordance with the Freedom of Information Act (FOIA, 5 U.S.C. 552), and the Department of the Interior’s FOIA implementing regulations (43 CFR part 2).
An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).
