II. Discussion

The Coast Guard's requirements for commercial diving are found in Title 46 of the Code of Federal Regulations (CFR), part 197, subpart B. Based on data obtained by the Coast Guard in 2014, the majority of commercial diving operators subject to these requirements were members of commercial diving organizations that have established commercial diving standards.¹ As members of these organizations, these operators have committed to complying with the standards established by their organizations.

These organizations have made improvements over the years, such as in the training and qualification requirements of commercial divers, medical examinations, and procedures associated with the different modes of diving, that have made commercial diving operations safer. The Association of Diving Contractors International (ADCI) and the International Marine Contractors Association (IMCA) contacted the Coast Guard and requested that we review their standards and issue a Commercial Diving Operations—Equivalent Levels of Safety Policy Letter. The Coast Guard has completed the review and is issuing CG–OES Policy Letter 02–20, *Commercial Diving Operations—Equivalent Levels of Safety*.

In summary, CG–OES Policy Letter 02–20 provides that the Coast Guard considers commercial diving operations being performed in accordance with ADCI International Consensus Standards for Commercial Diving and Underwater Operations, edition 6.3 (2016)² and IMCA International Code of Practice for Offshore Diving (IMCA D

Compliance with 46 CFR 197.480 through 197.488 is still required.

Other organizations wishing to be considered by the Coast Guard as providing an equivalent level of safety to the commercial diving regulations in 46 CFR part 197 may submit information to the point of contact identified in the **FOR FURTHER INFORMATION CONTACT** section above, demonstrating how they meet the equivalency requirements.

III. Access to CG-OES Policy Letter 02-20

IV. Legal Authority

Pursuant to Title 33 of the United States Code (U.S.C.) 1509, 46 U.S.C. 3306, and 43 U.S.C. 1333, the Coast Guard has issued safety regulations for commercial diving operations. These requirements are found in 46 CFR part 197, subpart B. The Coast Guard is issuing *CG-OES Policy Letter 02-20, Commercial Diving Operations—Equivalent Levels of Safety* in accordance with 46 CFR 197.206, which provides that the Coast Guard may accept substitutes for equipment, materials, apparatus, arrangements, procedures, or tests required by 46 CFR part 197 if the substitute provides an equivalent level of safety. This notice of availability is issued in accordance with 5 U.S.C. 552.
