[Docket Nos. CP15-115-000; CP15-115-001]

National Fuel Gas Supply Corporation and Empire Pipeline, Inc.; Notice of Request for Extension of Time

Take notice that on October 16, 2020, National Fuel Gas Supply Corporation (National Fuel) and Empire Pipeline, Inc. (Empire) (collectively, Applicants) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until December 1, 2024, to complete construction of the Northern Access 2016 Project (Project) and make the Project available for service, as authorized in the February 3, 2017 Order Granting Abandonment and Issuing Certificates (Certificate Order).¹

The Project consists of approximately 99 miles of new pipeline, primarily 24-inches in diameter, to be constructed in McKean County, Pennsylvania, and Allegany, Cattaraugus, Erie, and Niagara Counties, New York; a new compressor station along Empire's system in Niagara County, New York; and additional compression at National Fuel's existing Porterville Compressor Station in Erie County, New York, as well as new pipeline interconnects and various auxiliary and appurtenant facilities. The Certificate Order required Applicants to complete construction of the Project facilities and make them available for service by February 3, 2019.² In January 2019, the Commission granted Applicants' request for a three-year extension, until February 3, 2022, to complete construction and place the Project facilities into service.³ Due to ongoing legal and regulatory delays, Applicants now request an additional two-year extension of time, until December 1, 2024, to complete construction of the Project and place it into service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on the extension motion may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the

proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).⁴

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,⁵ the Commission acting as a whole will aim to issue an order acting on the request within 45 days.⁶ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁷ The Commission will not consider arguments that re-litigate the issuance of the Certificate Order, including whether the Commission properly found the project to be in the public convenience or necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.⁸ At the time a pipeline requests an extension of time, orders on certificates of public convenience and/or necessity are final and the Commission will not re-litigate their issuance. The OEP Director, or his or her designee, will act on all those extension requests that are uncontested.

[Docket No. CP21-6-000]

Spire Storage West LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on October 9, 2020, Spire Storage West LLC (Spire), 3773 Richmond Avenue, Suite 300, Houston, Texas 77046, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization of its Clear Creek Expansion Project (Project). Spire requests authorization to: (i) Amend its certificate issued in Docket No. CP98-256-000, for Spire Storage's Clear Creek Storage Field in Uinta County, Wyoming, (ii) reaffirmation of market-based rate authority, and (iii) related authorizations and waivers, as requested herein, as may be necessary in order to grant the authorizations requested. The amended project would increase certificated base gas and working gas capacity each from 4.0 billion cubic feet (Bcf) to 20.0 Bcf, and increase injections and withdrawals from 35 million cubic feet per day (MMcf/d) and 50 MMcf/d to 350 MMcf/d and 500 MMcf/d, respectively, by increasing horsepower (hp) at the Clear Creek Plant from 3,740 hp to 24,340 hp and the installation of 11 injection—withdrawal wells. Additionally, the amended facilities would include approximately 10.6 miles

of pipeline between the Canyon Creek compressor station, the Clear Creek Plant, and a new interconnection with the Kern River Gas Transmission mainline, as well as the establishment of a one-quarter mile buffer zone around the storage reservoir, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Spire Storage West LLC's application states that a water quality certificate under section 401 of the Clean Water Act is required for the project from the Wyoming Department of Environmental Quality, Water Quality Division. The request for certification must be submitted to the certifying agency and to the Commission concurrently. Proof of the certifying agency's receipt date must be filed no later than five (5) days after the request is submitted to the certifying agency.
