SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Pre-Embarkation Certificate of Disinsection; DD 3044; OMB Control Number 0704-0568.

Needs and Uses: The information collection requirement is necessary to provide proof of aircraft disinsection to foreign countries that require it, before cargo and aircrew will be allowed to dis-embark in those countries.

Affected Public: Individuals or households.

Annual Burden Hours: 166.7.

Number of Respondents: 1,000.

Responses per Respondent: 1.

Annual Responses: 1,000.

Average Burden per Response: 10 minutes.

Frequency: On occasion.

Respondents are DoD-contracted pest managers. These pest management professionals would be required to fill out the certificate of disinsection, log it in the appropriate database, and provide a copy to the aircrew. Aircraft disinsection (spraying with insecticide to kill all insects aboard) is currently required in 14 countries for arriving military aircraft. Most of those countries also require documentation proving that the aircraft was disinsected, per their instructions in the Foreign Clearance Guide (FCG). The burden for this collection is calculated based on the number of times U.S. aircraft currently enter countries with the requirement to produce a certificate of disinsection. The certificates used, are unique to each of the countries with the requirement. They are not collections managed by the U.S. Government. The Armed Forces Pest Management Board (AFPMB) published technical guide (TG) for pest managers and aircrew to follow. This guidance standardizes our requirements for disinsection in the FCG for all countries our aircraft enter. One such requirement is the use of a standardized form by all DoD that satisfies the documentation requirements of disinsection for these 14 countries.

Title of Collection: Personal Authentication Service (PAS) for FSA ID.

OMB Control Number: 1845–0131.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 6,671,000.

Total Estimated Number of Annual Burden Hours: 1,667,750.

Abstract: Federal Student Aid (FSA) requests extension of the Person Authentication Service (PAS) which creates an FSA ID, a standard user name and password solution. In order to create an FSA ID to gain access to certain FSA systems (FAFSA on the Web, NSLDS, StudentLoans.gov, etc.) a user must register on-line for an FSA ID account. The FSA ID allows the customer to have a single identity, even if there is a name change or change to other personally identifiable information. The information collected to create the FSA ID enables electronic authentication and authorization of users for FSA web-based applications and information and protects users from unauthorized access to user accounts on all protected FSA sites.

DEPARTMENT OF ENERGY

[OE Docket No. EA–486]

Application to Export Electric Energy; Clear Power LLC

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: Clear Power LLC (Applicant or Clear Power) has applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before November 30, 2020.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586–8008.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On September 2, 2020, Clear Power filed an application with DOE (Application or App.) to transmit electric energy from the United States to Mexico for a term of five years. Clear Power states that it “is a California limited liability corporation with its principal place of business [in] Folsom, CA.” App. at 1. Clear Power represents that it “is a wholly-owned subsidiary of the Alaywan Trust which owns or is affiliated with entities that own or control a combined 11.0 MW (nameplate) of operating renewable generation facilities, all located in the [California Independent System Operator] market.” *Id.* Clear Power adds, however, that it “does not own or control any electric power generation, transmission or distribution facilities.” *Id.* at 2.

Clear Power further states that it “will purchase the power it plans to export voluntarily through the electric energy markets in the United States . . . and/or from electric utilities, wholesale generators, power marketers, and other parties, and thus such power will be surplus to the needs of the selling parties or organization[s].” App. at 3. Clear Power contends that its exports “will not impair or tend to impede the sufficiency of electric power supplies in the United States or the regional coordination of electric utility planning or operation.” *Id.*

Clear Power states that it will conduct its operations “in compliance with any authorization conditions imposed by the Department consistent with its prior orders authorizing power marketers’; blank authority to export power.” App. at 4. Clear Power also represents that its exports “will not exceed the export limits for the transmission facilities [it uses], or otherwise cause a violation of the terms and conditions established in the export authorization.” *Id.* at 5.

The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
