return/destuction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

James Maeder, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Finished Carbon Steel Flanges From Spain: Preliminary Results of Antidumping Duty Administrative Review; 2018–2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that producers or exporters of finished carbon steel flanges (flanges) from Spain subject to this review made sales of subject merchandise at less than normal value during the period of review (POR) June 1, 2018 through May 31, 2019. We invite interested parties to comment on these preliminary results.

FOR FURTHER INFORMATION CONTACT:
Marc Castillo or Mark Flessner, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0519 or (202) 482–6312, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 14, 2017, we published in the Federal Register an antidumping duty (AD) order on flanges from Spain.1 On June 3, 2019, we published a notice of opportunity to request an administrative review of the Order.2 Based on timely requests for administrative review, we initiated an administrative review of eight companies: (1) ULMA Forja, S.Coop; (2) Grupo Cunado; (3) Tubacero, S.L.; (4) Ateaciones De Metales Sinterizados S.A.; (5) Transgly S.A.; (6) Central Y Almacenes; (7) Friedrich Geldbach GmbH; and (8) Farina Group Spain.3 On November 19, 2019, we selected ULMA as the sole mandatory respondent in this review.4 For a complete description of the events that followed the initiation of this administrative review, see the Preliminary Decision Memorandum.5 The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s AD and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frn/. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content. A list of topics included in the Preliminary Decision Memorandum is included as the appendix to this notice.

On April 24, 2020, Commerce tolled all deadlines in administrative reviews by 50 days.6 On July 21, 2020, Commerce tolled all deadlines in administrative reviews by an additional 60 days.7 On February 21, 2020, and July 6, 2020, we extended the deadline for the preliminary results, by a total of 120 days.8 The deadline for the preliminary results of this administrative review is now October 19, 2020.

Scope of the Order

The scope of the Order covers finished carbon steel flanges. Finished carbon steel flanges are currently classified under subheadings 7307.91.5010 and 7307.91.5050 of the Harmonized Tariff Schedule of the United States (HTSUS). They may also be entered under HTSUS subheadings 7307.91.5030 and 7307.91.5070. The HTSUS subheadings are provided for convenience and customs purposes; the written description of the scope is dispositive. A full description of the scope of the Order is contained in the Preliminary Decision Memorandum.

Methodology

Commerce conducted this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). Export price is calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying these preliminary results, see the Preliminary Decision Memorandum.

Preliminary Results of Administrative Review

We preliminarily determine that the following weighted-average dumping margins exist for the period June 1, 2018, through May 31, 2019:

<table>
<thead>
<tr>
<th>Exporter/manufacturer</th>
<th>Weighted-average dumping margin (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ULMA Forja, S.Coop</td>
<td>1.03</td>
</tr>
<tr>
<td>Ateaciones De Metales Sinterizados S.A</td>
<td>1.03</td>
</tr>
<tr>
<td>Central Y Almacenes</td>
<td>1.03</td>
</tr>
<tr>
<td>Farina Group Spain</td>
<td>1.03</td>
</tr>
<tr>
<td>Friedrich Geldbach GmbH</td>
<td>1.03</td>
</tr>
<tr>
<td>Grupo Cunado</td>
<td>1.03</td>
</tr>
<tr>
<td>Transgly S.A</td>
<td>1.03</td>
</tr>
<tr>
<td>Tubacero, S.L.</td>
<td>1.03</td>
</tr>
</tbody>
</table>

Non-Individually Examined Companies

For the rate for non-selected respondents in an administrative review, generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation. Under section 3

735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or de minimis margins, and any margins determined entirely [on the basis of facts available].” We preliminarily calculated a margin for ULMA that was not zero, de minimis, or based on facts available. Accordingly, we have preliminarily applied the margin calculated for ULMA to the non-individually examined respondents.

Disclosure and Public Comment

We intend to disclose the calculations performed for these preliminary results to the parties within five days after public announcement of the preliminary results in accordance with 19 CFR 351.224(b). Interested parties may submit case briefs no later than 30 days after the date of publication of these preliminary results of review. Rebuttal briefs may be filed no later than seven days after case briefs are due and may respond only to arguments raised in the case briefs. Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS. An electronically filed document must be received successfully in its entirety by Commerce’s electronic records system, ACCESS, by 5:00 p.m. Eastern Time within 30 days after the date of publication of this notice. Requests should contain: (1) The party’s name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs.

Unless otherwise extended, Commerce intends to issue the final results of this administrative review, which will include the results of its analysis of issues raised in any briefs, within 120 days of publication of these preliminary results of review, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rate

Upon issuing the final results, Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. If the respondent’s weighted-average dumping margin is above de minimis (i.e., 0.50 percent) in the final results of this review, we intend to calculate an importer-specific assessment rate on the basis of the ratio of the total amount of antidumping duties calculated for the importer’s examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1). If the respondent’s weighted-average dumping margin is zero or de minimis in the final results, we will instruct CBP not to assess duties on any of its entries in accordance with the Final Modification for Reviews.

The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise under review and for future deposits of estimated duties, where applicable.

For entries of subject merchandise during the POR produced by ULMA for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following deposit requirements for estimated antidumping duties will be effective upon publication of the notice of final results of this review for all shipments of flanges from Spain entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for the companies under review, will be the rate established in the final results of the review (except, if the rate is zero or de minimis, no cash deposit will be required); (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the producer is, then the cash deposit rate will be the rate established for the most recent period for the producer of the merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 18.81 percent, the all-others rate established in the less-than-fair-value investigation.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

Commerce is issuing and publishing these results in accordance with sections 751(a)(1) and 777(f) of the Act and 19 CFR 351.221(b)(4).
Teams will compile and review the Bering Sea and Aleutian Islands (BSAI) and Gulf of Alaska (GOA) Plan

Connection Information
You can attend the meeting online using a computer, tablet, or smart phone; or by phone only. Connection information will be posted online at: https://meetings.npfmc.org/Meeting/Details/1724.

Public Comment
Public comment letters should be submitted electronically to https://meetings.npfmc.org/Meeting/Details/1724.

The exemption would be used to conduct exploratory fishing using cod ends with smaller mesh than otherwise permitted. The Exempted Fishing Permit would provide one vessel participating in an electronic monitoring program with an exemption to conduct exploratory fishing using cod ends with smaller mesh than otherwise permitted. The Exempted Fishing Permit would test the effect of different codend mesh combinations on the catch of pollock and Gulf of Maine haddock while on trips targeting Acadian redfish. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed exempted fishing permits. 

DATES: Comments must be received on or before November 17, 2020.

ADDRESSES: You may submit written comments by either of the following methods:
• Email: nmfs.gar.efp@noaa.gov. Include in the subject line “GMRI MREM EFP Amendment.”
• Mail: Michael Pentony, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope “GMRI MREM EFP Amendment.”

Copies of the supplemental information report (SIR) developed in support of this project may be obtained by contacting Claire Fitz-Gerald, Fishery Policy Analyst at the Greater Atlantic Regional Fisheries Office, 978–281–9255.

SUPPLEMENTARY INFORMATION: On August 1, 2020, NMFS granted an Exempted Fishing Permit (EFP) to the Gulf of Maine Research Institute to continue developing a maximized retention electronic monitoring (MREM) model and an accompanying dockside monitoring (DSM) program to monitor high-volume bottom-trawl vessels in the groundfish fleet. For more information on the details of the EFP see the notice published April 9, 2020 (85 FR 19931). The Gulf of Maine Research Institute, in conjunction with the Northeast Sector Service Network and a commercial fishing business, has submitted an application to amend the EFP. The amended EFP would allow one vessel participating in the MREM program an additional exemption from the minimum mesh size requirements for the Gulf of Maine and Georges Bank regulated mesh areas codified at 50 CFR 648.80(a)(3)(i) and (a)(4)(i) to use cod ends with either square or diamond mesh as small as 4.5 inches (11.4 cm). The exemption would be used to conduct exploratory fishing to increase the catch of pollock and Gulf of Maine haddock while on trips targeting Acadian redfish. This EFP would be effective for the 2020 and 2021 fishing years, through April 30, 2022. Because
