Type of Request: Regular submission, Request for a Revision of a Currently Approved Collection.

Number of Respondents: 3,681.

Average Hours per Response: 1.12 hours.

Burden Hours: 4,130.

Needs and Uses: The U.S. Census Bureau, on behalf of the U.S.

Department of Education's National Center for Education Statistics (NCES), requests an extension with revisions of approval for the Annual Survey of School System Finances. The Census Bureau's collection of school district finance data and associated publications are the most comprehensive sources for pre-kindergarten through grade 12 finance data.

These data are collected from the universe of school districts using uniform definitions and concepts of revenue, expenditure, debt, and assets as defined by Financial Accounting for Local and State School Systems: 2014 Edition. This survey and the Annual Surveys of State and Local Government Finances (OMB No. 0607–0585) are conducted as part of the Census Bureau's State and Local Government Finance program. Data collected from cities, counties, states, and special district governments are combined with data collected from local school systems to produce state and national totals of government spending. Local school system spending comprises a significant portion of total government spending. In 2018, public elementary-secondary expenditures accounted for 40 percent of local government spending.

This comprehensive and ongoing time series collection of local education agency finances maintains historical continuity in the state and local government statistics community. Elementary-secondary education related spending is the single largest financial activity of state and local governments. Education finance statistics provided by the Census Bureau allow for analyses of how public elementary-secondary school systems receive and spend funds. Increased focus on education has led to a demand for data reflecting student performance, graduation rates, and school finance policy—all of which are related to the collection of this local education finance data.
