individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Immuno-Oncology Research.

Date: December 1–2, 2020.

Time: 9:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

Contact Person: Mehrdad Mohseni, MD, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, Rockledge II, Room 5211, MSC 7854, Bethesda, MD 20892, 301–435–0484 mohsenim@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Small Business: Drug Discovery Involving the Nervous System.

Date: December 1–2, 2020.

Time: 9:00 a.m. to 7:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

Contact Person: Aurea D. De Sousa, Ph.D., Scientific Review Officer, National Institutes of Health, Center for Scientific Review, 6701 Rockledge Drive, Room 5186, MSC 7854, Bethesda, MD 20892, 301–435–0484 biers@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Member Conflict: Visual System Biology.

Date: December 1, 2020.

Time: 8:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

Contact Person: Marie-Jose Belanger, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Rm 6188, MSC 7804, Bethesda, MD 20892, (301) 435–1267, belangerm@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Member Conflict: Visual System Biology.

Date: December 1, 2020.

Time: 1:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

Contact Person: John Burch, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institute of Health, 6701 Rockledge Drive, Room 3213, MSC 7808, Bethesda, MD 20892, 301–408–9519, burchjb@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel; PAR: 18–731 Cancer Biology—Workforce Diversity.

Date: December 1, 2020.

CFR Code of Federal Regulations
FR Federal Register
MIRC Mariana Islands Range Complex
MITT Mariana Islands Training and Testing
ROD Record of Decision
SEIS Supplemental Environmental Impact Statement
SOEIS Supplemental Overseas Environmental Impact Statement

Background and Legal Basis

This Coast Guard Record of Decision (ROD) adopts portions of the 2020 Final Supplemental Environmental Impact Statement/Supplemental Overseas Environmental Impact Statement (SEIS/SOEIS). This is necessary because the Coast Guard plans to continue joint and independent training and testing in the Mariana Islands Training and Testing (MITT) study area with the Navy through at least December 31, 2027. The purpose and need for the Coast Guard action is to allow Coast Guard personnel to qualify and train, jointly with and independent of the Navy, in the effective and safe operational use of Coast Guard vessels, aircraft, and weapons under realistic conditions in the area where they would operate and to ensure our Nation’s maritime safety and security.

The Coast Guard has broad, multifaceted authority for management of activities over all waters subject to jurisdiction of the U.S. Coast Guard’s law enforcement and national defense mission authority, which is based in 14 U.S.C. 102. This section requires the Coast Guard to:

1. Enforce federal law in waters of the U.S.;
2. Maintain maritime surveillance;
3. Enforce safety regulations; and
4. “Maintain a state of readiness to function as a specialized service in the Navy in time of war, including the fulfillment of Maritime Defense Zone command responsibilities.”

The Coast Guard conducts search and rescue missions under authorities in 14 U.S.C. 102, 502, and 701. These missions are achieved in part by conducting training and testing within the MITT study area to develop, sharpen, and maintain tactics, coordination, and personnel readiness.

Discussion

The Navy solicited public comment on the Draft SEIS/SOEIS on February 1, 2019 (84 FR 1119), and extended the public comment period until April 17, 2019 (84 FR 12238). The Navy also scheduled and held public meetings (84 FR 8515). The Navy announced its final SEIS/SOEIS in the Federal Register on June 5, 2020.

The MITT SEIS/SOEIS identified and examined the alternatives available to achieve the purposes of the training and testing, and assessed the potential environmental impact of each. Alternatives considered but eliminated were continuing actions at levels identified in the 2015 MITT Final EIS/OEIS and ROD, alternative training and testing locations, reduced training and testing, alternatives including geographic mitigation measures within the study area and simulated training and testing only.

Three alternatives were examined in detail in the SEIS/SOEIS.

1. No Action Alternative: Under the no action alternative, the Navy, Air Force, and Coast Guard would not conduct the proposed training and testing activities in the MITT study area. Other military activities not associated with either Alternatives 1 or 2 would continue to occur. For Farallon de Medinilla, the lease agreement between the U.S. Government and the Commonwealth of the Northern Mariana Islands would remain in place, and the island would continue to be maintained as a Navy range, although strike warfare would no longer continue on the island.

2. Alternative 1: Alternative 1 reflects a representative year of training and testing to account for the typical fluctuation of training cycles, testing programs, and deployment schedules that generally limit the maximum level of training and testing from occurring for the reasonably foreseeable future. Alternative 1 also reflects a level of testing activities to be conducted into the reasonably foreseeable future, with adjustments from the 2015 MITT Final EIS/OEIS that account for changes in the types and tempo (increases or decreases) of testing activities to meet current and future military readiness requirements.

3. Alternative 2 (Preferred Alternative): Alternative 2 includes the same types of training activities as Alternative 1 but also considers additional exercises and associated unit-level activities should unanticipated emergent world events require increased readiness levels. For example, Alternative 2 considers Joint Multi-Strike Group Exercises (i.e., Valiant Shield) occurring annually as compared to every other year under Alternative 1. Alternative 2 reflects the maximum number of training activities that could occur within a given year, and assumes that the maximum number of exercises would occur annually. Alternative 2 entails a level of testing activities to be conducted into the reasonably foreseeable future. Under Alternative 2, types and tempos of testing activities would increase compared to Alternative 1.

Under Alternative 2, the Navy, Air Force, and Coast Guard will be able to meet current and future Navy, Air Force, and Coast Guard training and testing, including the use of aerial and vessel assets conducting anchoring and gunnery training within the MITT study area. These actions will allow joint and independent training and testing for Navy, Air Force, and Coast Guard personnel to establish, maintain, and advance readiness in meeting statutory mission requirements. For Coast Guard, the MITT study area is composed of established sea-based (at-sea) ranges along Guam and the Commonwealth of the Northern Mariana Islands and operating areas and special use airspace in the regions of the Mariana Islands that are part of the Mariana Islands Range Complex (MIRC). The study area also includes a transit corridor that connects the MIRC and the Hawaiian Islands Range Complex. For the Navy and Air Force, the study area is the same as what is described for the Coast Guard but also includes land-based training areas in Guam and the Commonwealth of the Northern Mariana Islands.

Alternative 2 was selected because it fulfills the purpose and need of the proposed action and, in combination with avoidance and mitigation measures, results in a minimum of environmental impacts.

This notice is issued under authority of the National Environmental Policy Act of 1969 (Section 102(2)(C)), as implemented by the Council on Environmental Quality regulations (40 CFR 1500–1508), U.S. Coast Guard Environmental Planning Policy (Coast Guard Commandant Instruction 5090.1), law enforcement and national defense mission authority at 14 U.S.C. 102, and search and rescue authority at 14 U.S.C. 102, 502, and 701.

Craig M. O’Brien,
Captain, 14th District, U.S. Coast Guard,
Chief of Response.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY  

Federal Emergency Management Agency  

[Docket ID FEMA–2020–0002; Internal Agency Docket No. FEMA–B–2066]  

Changes in Flood Hazard Determinations  

AGENCY: Federal Emergency Management Agency, DHS.  

ACTION: Notice.  

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities. From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at https://msc.fema.gov for comparison. Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sachibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sachibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided. Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at https://msc.fema.gov for comparison.
