

NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Sara Young or Shasta McClenahan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to film northern elephant seals at Año Nuevo State Park in California. Footage would be used to create a documentary series for National Geographic that will be broadcast on multiple platforms in 2022. Up to 1,400 northern elephant seals would be filmed over the duration of the project from land or from unmanned aircraft systems. One hundred California sea lions (*Zalophus californianus*), 100 harbor seals (*Phoca vitulina*), and 100 Steller sea lions from the eastern distinct population segment (*Eumetopias jubatus*) may be opportunistically filmed or harassed if encountered over the duration of the project. Filming is expected to occur over 4 weeks between January 2021 and March 2022, concentrated in the months of January and February. The permit would expire on March 1, 2022.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement. Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: October 30, 2020.

Determination of Overfishing or an Overfished Condition

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of Commerce (Secretary), has found that Atlantic herring is now overfished, and Gulf of Maine thorny skate and Pacific sardine are both still overfished. NMFS, on behalf of the Secretary, notifies the appropriate regional fishery management council (Council) whenever it determines that overfishing is occurring, a stock is in an overfished condition, or a stock is approaching an overfished condition.

FOR FURTHER INFORMATION CONTACT:

Regina Spallone, (301) 427–8568.

SUPPLEMENTARY INFORMATION: Pursuant to section 304(e)(2) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1854(e)(2), NMFS, on behalf of the Secretary, must notify Councils, and publish in the **Federal Register**, whenever it determines that a stock or stock complex is subject to overfishing, overfished, or approaching an overfished condition.

NMFS has determined that Atlantic herring is now overfished and Gulf of Maine thorny skate is still overfished. The Atlantic herring determination is based on the most recent assessment, completed in 2020, using data through 2019, which indicates that this stock is overfished because the spawning stock biomass is below the threshold. The thorny skate determination is based on the most recent stock status update, completed in 2020, using data through 2019, which indicates that this stock is still overfished because the 3-year average biomass index remains below the threshold. NMFS has notified the New England Fishery Management Council of the requirement to rebuild these stocks.

NMFS has determined that Pacific sardine is still overfished. This determination is based on the most recent assessment, completed in 2020, using data through 2019, which indicates that this stock is still overfished because the biomass remains below the threshold. NMFS has notified the Pacific Fishery Management Council of the requirement to rebuild this stock.

Dated: October 29, 2020.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
