SUMMARY: The Department of Commerce (Commerce) is rescinding the administrative review of the antidumping duty (AD) order on certain cold-drawn mechanical tubing of carbon and alloy steel (cold-drawn mechanical tubing) from the Federal Republic of Germany (Germany) for the period of review (POR) June 1, 2019, through May 31, 2020, based on the timely withdrawal of the request for review.

FOR FURTHER INFORMATION CONTACT: Stephanie Berger, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2483.

Background

On June 2, 2020, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on cold-drawn mechanical tubing from Germany for the POR. Pursuant to a timely request from ArcolorMittal Tubular Products LLC, Michigan Seamless Tube, LLC, Plymouth Tube Co., PTC Alliance Corp., Webco Industries, Inc., and Zekelman Industries (the petitioners), Commerce initiated an administrative review of the antidumping duty order on cold-drawn mechanical tubing from Germany on August 6, 2020, with respect to five companies: BENTELER Steel/Tube GmbH (Benteler); BENTELER Distribution International GmbH (BDI); Mubea Fahrwerksfedern GmbH (Mubea Fahrwerksfedern); Salzgitter Mannesmann Line Pipe GmbH (Salzgitter Mannesmann Line Pipe); and Salzgitter Mannesmann Precision GmbH (Salzgitter Mannesmann Precision). On October 9, 2020, the petitioners timely withdrew their request for an administrative review of all of the companies named in their June 30, 2020, request for review.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication date of the notice of initiation of the requested review. The petitioners, who were the only parties to request a review, withdrew their request within the 90-day deadline. Accordingly, we are rescinding the administrative review of cold-drawn mechanical tubing from Germany for the period June 1, 2019, through May 31, 2020, in its entirety.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of cold-drawn mechanical tubing from Germany. Antidumping duties shall be assessed at rates equal to the cash deposit rate of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the Federal Register.

Notification to Importers

This notice serves as the only reminder to importers whose entries will be liquidated as a result of this rescission notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

Dated: November 2, 2020.

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
