FEDERAL MARITIME COMMISSION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Maritime Commission.

ACTION: Final notice of submission for OMB review.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Federal Maritime Commission (Commission) hereby gives notice that it has submitted to the Office of Management and Budget (OMB) a request for an extension with change of the existing collection requirements related to licensing of ocean transportation intermediaries.

DATES: Written comments must be submitted on or before December 7, 2020.

ADDRESSES: Comments should be addressed to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) a request for an extension with change of the existing collection requirements related to licensing of ocean transportation intermediaries.

The Commission proposes to remove that portion of the certification in the Form FMC–65 that requires applicants to certify that they will only use licensed OTIs as agents in the United States. Consistent with this change, the Commission proposes to modify Form FMC–69A, its related license application Form FMC–18, and the related sureties. The Commission also requests comments on the potential impact(s).

Regarding the final renewal rule published in Docket No. 19–06, the Commission determined that few, if any, OTIs would have the necessary information to complete Form FMC–65 to submit or renew a registration. As such, the final renewal rule eliminated the requirement to submit an updated Form FMC–65 in the FMC–18 application.

The Commission would also not be able to effectively assess the compliance of foreign-based, unlicensed NVOCCs without the required registration information. The Commission would also not be able to effectively assess the compliance of foreign-based, unlicensed NVOCCs without the required registration information.

Purpose: The Commission uses information obtained under this part and through Form FMC–18 to determine the qualifications of OTIs and their compliance with the Act and regulations, and to enable the Commission to discharge its duties under the Act by ensuring that OTIs maintain acceptable evidence of financial responsibility. If the collection of information were not conducted, there would be no basis upon which the Commission could determine if applicants are qualified for licensing.

The Commission would also not be able to effectively assess the compliance of foreign-based, unlicensed NVOCCs without the required registration information.

Frequency: This information is collected when applicants apply for a license or submit a registration, complete the triennial renewal, or when existing licensees or registrants change their application forms.

Type of Respondents: The types of respondents are persons desiring to obtain or maintain a license or registration to act as an OTI. Under the Act, OTIs may be either an ocean freight forwarder, a non-vessel-operating common carrier, or both.

Number of Annual Respondents: The Commission estimates a potential annual respondent universe of 6,475 entities.

Estimated Time per Response: The time per response to complete application Form FMC–18 averages 2 hours and to complete the triennial renewal is 10 minutes. The time to complete a financial responsibility form averages 20 minutes. The time to complete Form FMC–65 to submit or renew a registration as a foreign-based,
