Prestressed Concrete Steel Wire Strand From Brazil, India, Japan, the Republic of Korea, Mexico, and Thailand: Continuation of the Antidumping Duty Finding/Orders and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) in their five year (sunset) reviews that revocation of the antidumping duty (AD) finding on prestressed concrete steel wire strand (PC strand) from Japan, and the AD orders on PC strand from Brazil, India, the Republic of Korea (Korea), Mexico, and Thailand (hereafter referred to as the six countries) would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, and that revocation of the countervailing duty (CVD) order on PC strand from India would likely lead to continuation of recurrence of net countervailable subsidies and material

injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD finding/orders on PC strand from the six countries and the CVD order on PC strand from India.

DATES: Applicable November 9, 2020.

FOR FURTHER INFORMATION CONTACT: Samantha Kinney or Brian Smith, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2285 or (202) 482-1766, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1978, and January 28, 2004, Commerce published in the **Federal Register** notices of the AD finding on PC strand from Japan and of the AD orders on PC strand from Brazil, India, Mexico, Korea, and Thailand, respectively.¹ On February 4, 2004, Commerce published the CVD order on PC strand from India in the **Federal Register**.² On March 2, 2020, Commerce initiated³ and the ITC instituted⁴ sunset reviews of the *AD Finding/Orders* on PC strand from the six countries and the *CVD Order* on PC strand from India, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, Commerce determined that revocation of the *AD Finding/Orders* on PC strand from the six countries would likely lead to a continuation or recurrence of dumping

¹ See *Steel Wire Strand for Prestressed Concrete from Japan: Finding of Dumping*, 43 FR 57599 (December 8, 1978) conducted by the Treasury Department (at the time a determination of dumping resulted in a "finding" rather than the later applicable "order"); see also *Notice of Antidumping Duty Order: Prestressed Concrete Steel Wire Strand from Brazil*, 69 FR 4112 (January 28, 2004); *Notice of Antidumping Duty Order: Prestressed Concrete Steel Wire Strand from India*, 69 FR 4110 (January 28, 2004); *Notice of Antidumping Duty Order: Prestressed Concrete Steel Wire Strand from the Republic of Korea*, 69 FR 4109 (January 28, 2004); *Notice of Antidumping Duty Order: Prestressed Concrete Steel Wire Strand from Mexico*, 69 FR 4112 (January 28, 2004); and *Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Prestressed Concrete Steel Wire Strand from Thailand*, 69 FR 4111 (January 28, 2004). The AD finding on Japan and the AD orders on Brazil, India, Mexico, Korea, and Thailand are collectively referred to as *AD Finding/Orders* for purposes of this notice.

and that revocation of the *CVD Order* on PC strand from India would likely lead to continuation or recurrence of net countervailable subsidies, and therefore, notified the ITC of the magnitude of the margins of dumping and the subsidy rates likely to prevail should the finding/orders be revoked.⁵

On November 3, 2020, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *AD Finding/Orders* on PC strand from the six countries, and the *CVD Order* on PC strand from India would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁶

Scope of the Order

The product covered in the sunset reviews of the AD orders on PC strand from Brazil, India, Korea, Mexico, and Thailand, and the *CVD Order* on PC strand from India is steel strand produced from wire of non-stainless, non-galvanized steel, which is suitable for use in prestressed concrete (both pre-tensioned and post-tensioned) applications. The product definition encompasses covered and uncovered strand and all types, grades, and diameters of PC strand.

The product covered in the sunset review of the AD finding on PC strand from Japan is steel wire strand, other than alloy steel, not galvanized, which is stress-relieved and suitable for use in prestressed concrete.

The merchandise subject to the *AD Finding/Orders* on PC strand from the six countries and the CVD order on PC strand from India is currently classifiable under subheadings 7312.10.3010 and 7312.10.3012 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.
