Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020 and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to modify VOR Federal airway V–541 and remove V–49, in the vicinity of Decatur, AL, due to the planned decommissioning of the Decatur, AL, VOR/DME as part of the FAA VOR Minimum Operation Network program. The proposed route changes are described below.

V–49: V–49 currently extends from the Vulcan, AL, VORTAC to the

Nashville, TN, VORTAC. The FAA proposes to remove the entire route.

V–541: V–541 currently extends from the Gadsden, AL, VOR/DME to the Muscle Shoals, AL, VORTAC. The FAA proposes to straighten V–541 from the Gadsden VOR to the EDDIE intersection and remove the portion from the EDDIE intersection (INT Gadsden 318° T/316° M and Vulcan, AL, 029° T/027° M radials) to the Muscle Shoals VORTAC. This will eliminate the dogleg that currently exists at AWPOJ, which is a Computer Notification Fix.

Note: In the V–541 description, both True (T) and Magnetic (M) degrees are stated because new radials are being used in the legal description (EDDIE intersection) to replace AWPOJ intersection (INT Gadsden 318° and Decatur, AL, 130° radials).

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airways listed in this document would be subsequently published in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
