### Foreign-Trade Zones Board

[B-67-2020]

#### Foreign-Trade Zone (FTZ) 26—Atlanta, Georgia; Notification of Proposed Production Activity; Ricoh Electronics, Inc. (Toner Products, Thermal Paper and Thermal Film), Lawrenceville and Buford, Georgia

Ricoh Electronics, Inc. (Ricoh) submitted a notification of proposed production activity to the FTZ Board for its facilities in Lawrenceville and Buford, Georgia. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 2, 2020.

Ricoh already has authority to produce copiers, printers, toner cartridges, related toner products, thermal paper and thermal film products within Subzone 26H. The current request would add foreign-status materials to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Ricoh from customs duty payments on the foreign-status materials used in export production. On its domestic sales, for the foreign-status materials noted below, Ricoh would be able to choose the duty rates during customs entry procedures that apply to copiers, printers, toner cartridges, related toner products, thermal paper and thermal film (duty rate ranges between duty-free and 5.8%). Ricoh would be able to avoid duty on foreign-status materials which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials sourced from abroad include titanium dioxide mixture (titanium dioxide, methyltrimethoxy silane, and trifluoropropyltrimethoxysilane), silica mixture (silica is over 91% of mixture), polycarbonate/acrylonitrile butadiene styrene resin, and calcium oxide mixture (calcium oxide is over 85% of mixture) (duty rate ranges between 5% and 6%). The request indicates that certain materials are subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is December 23, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Diane Finver at [Diane.Finver@trade.gov](mailto:Diane.Finver@trade.gov) or (202) 482-1367.

Dated: November 9, 2020.

**International Trade Administration**  
**[A-301-803]**

**Citric Acid and Certain Citrate Salts From Colombia: Final Results of Antidumping Duty Administrative Review; 2018-2019**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** On August 10, 2020, the Department of Commerce (Commerce) published the preliminary results of the administrative review of the antidumping duty (AD) order on citric acid and certain citrate salts (citric acid) from Colombia. The review covers one mandatory respondent, Sucroal S.A. (Sucroal). The period of review (POR) is January 8, 2018 through June 30, 2019. For the final results of this review, we continue to find that Sucroal sold subject merchandise at less than normal value during the POR.

**DATES:** Applicable November 13, 2020.

**FOR FURTHER INFORMATION CONTACT:** Bharat Phuyal, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Ave. NW, Washington, DC 20230; telephone: (202) 482-3992.

**SUPPLEMENTARY INFORMATION:**

**Background**

On August 10, 2020, Commerce published the *Preliminary Results* of the administrative review of the AD order on citric acid from Colombia.<sup>1</sup> The administrative review covers one producer/exporter of the subject merchandise, Sucroal. We gave interested parties an opportunity to comment on the *Preliminary Results*. We received no comments. Hence, these final results are unchanged from the *Preliminary Results*.

**Scope of the Order**

The merchandise covered by this order includes all grades and granulation sizes of citric acid, sodium citrate, and potassium citrate in their

unblended forms, whether dry or in solution, and regardless of packaging type. The scope also includes blends of citric acid, sodium citrate, and potassium citrate; as well as blends with other ingredients, such as sugar, where the unblended form(s) of citric acid, sodium citrate, and potassium citrate constitute 40 percent or more, by weight, of the blend.

Citric acid and sodium citrate are classifiable under 2918.14.0000 and 2918.15.1000 of the Harmonized Tariff Schedule of the United States (HTSUS), respectively. Potassium citrate and crude calcium citrate are classifiable under 2918.15.5000 and, if included in a mixture or blend, 3824.99.9295 of the HTSUS. Blends that include citric acid, sodium citrate, and potassium citrate are classifiable under 3824.99.9295 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive. For a full description of the scope of the order, see the Preliminary Decision Memorandum.

**Final Results of the Administrative Review**

As a result of this administrative review, we determine that the following weighted-average dumping margin exists for the POR:

Producer/exporter	Estimated weighted-average dumping margin (percent)
Sucroal S.A .....	4.59

**Assessment Rates**

Pursuant to section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.212(b), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. For Sucroal, because its weighted-average dumping margin is not zero or *de minimis* (i.e., less than 0.5 percent), Commerce has calculated importer-specific AD assessment rates. We calculated importer- (or customer-) specific *ad valorem* AD assessment rates by dividing the total amount of dumping calculated for the importer's examined sales by the total entered value of the same sales for that importer, in accordance with 19 CFR 351.212(b)(1).

For entries of subject merchandise during the POR produced by Sucroal for which it did not know its merchandise
