

quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; and/or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. They will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

This action is to seek approval for the information collection for the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery for the next three years.

The 60-day notice for the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery, was published in the **Federal Register** on September 14, 2020 (85 FR 56639). One comment was received and acknowledged.

Agency: Institute of Museum and Library Services.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Review: Renewal.

OMB Number: 3137 0081.

Agency Number: 3137.

Affected Public: Individuals and Households; Businesses and

Organizations; State, Local or Tribal Governments; Museums; Libraries.

Average Expected Annual Number of Activities: 11.

Annual Responses: 9,854.

Frequency of Response: Once per request.

Average Minutes per Response: 56 minutes.

Burden Hours: 2,376.4 hours.

Total Annual Costs: \$69,153.82.

Dated: November 10, 2020.

Kim Miller,

*Senior Grants Management Specialist,
Institute of Museum and Library Services.*

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meeting

The National Science Board's External Engagement Committee's Subcommittee on Honorary Awards, pursuant to NSF regulations (45 CFR part 614), the National Science Foundation Act, as amended (42 U.S.C. 1862n–5), and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice of the scheduling of a teleconference for the transaction of National Science Board business, as follows:

TIME & DATE: November 17, 2020 from 3:00–4:00 p.m. EST.

PLACE: This meeting will be held by teleconference through the National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

STATUS: Closed.

MATTERS TO BE CONSIDERED: (1) Subcommittee Chair's opening remarks; (2) Review and discuss candidates for the 2021 National Science Board Honorary Awards—the Vannevar Bush Award and the NSB Public Service Award; and subcommittee Chair's closing remarks.

CONTACT PERSON FOR MORE INFORMATION:

Point of contact for this meeting is: Kyscha Slater-Williams, 2415 Eisenhower Ave., Alexandria, VA 22314, kslater@nsf.gov, (703) 292–7000.

Chris Blair,

Executive Assistant to the National Science Board Office.

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0231]

Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG), DG–1360, “Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants.” This regulatory guide (RG) describes an approach that is acceptable to the NRC staff to meet the regulatory requirements in the NRC’s regulations and the National Fire Protection Association (NFPA) Standard 805, “Performance-Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants,” 2001 Edition, which is incorporated by reference in the NRC’s regulations.

DATES: Submit comments by December 31, 2020. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal Rulemaking website:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2020–0231. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN–7–A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Shivani Mehta, Office of Nuclear Reactor Regulation, telephone: 301-415-0860, email: Shivani.Mehta@nrc.gov; Charles Moulton, Office of Nuclear Reactor Regulation, telephone: 301-415-2751, email: Charles.Moulton@nrc.gov; or Michael Eudy, Office of Nuclear Regulatory Research, telephone: 301-415-3104, email: Michael.Eudy@nrc.gov. All are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:**I. Obtaining Information and Submitting Comments****A. Obtaining Information**

Please refer to Docket ID NRC-2020-0231 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking website*: Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0231.
- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov.
- *Attention*: The PDR, where you may examine and purchase copies of public documents, is currently closed. You may submit your request to the PDR via email at PDR.Resource@nrc.gov or call 1-800-397-4209 between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2020-0231 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Additional Information

The NRC is issuing for public comment a draft guide in the NRC's "Regulatory Guide" series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

The DG, titled "Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants," is temporarily identified by its task number, DG-1360 (ADAMS Accession No. ML20231A856). The draft guide DG-1360 is a proposed Revision 2 of RG 1.205. This revision of the guide (Revision 2) addresses new information identified since the guide was previously revised in 2009. This RG updates the previous staff positions and endorsements made regarding earlier versions of Nuclear Energy Institute (NEI) guidance documents, NEI-04-02, "Guidance for Implementing a Risk-Informed, Performance-Based Fire Protection Program Under 10 CFR 50.48(c)," and NEI 00-01, "Guidance for Post Fire Safe Shutdown Circuit Analysis." This revision endorses NEI 04-02, Revision 3, issued 2019, and portions of NEI-00-01, Revision 4, issued 2019, and includes guidance concerning fire-induced circuit failures.

The staff is also issuing for public comment a draft regulatory analysis (ADAMS Accession No. ML20231A891). The staff develops a regulatory analysis to assess the value of issuing or revising a regulatory guide as well as alternative courses of action.

Backfitting, Forward Fitting, and Issue Finality

DG-1360, if finalized, would incorporate the latest information concerning risk-informed, performance-based fire protection programs and supporting guidance. Issuance of DG-1360, if finalized, would not constitute backfitting, as that term is defined in

section 50.109 of title 10 of *Code of Federal Regulations* (CFR), "Backfitting," and as described in NRC Management Directive 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests"; constitute forward fitting, as that term is defined and described in Management Directive 8.4; or affect the issue finality of any approval issued under 10 CFR part 52. As explained in DG-1360, applicants and licensees would not be required to comply with the positions set forth in DG-1360.

Dated: November 9, 2020.

For the Nuclear Regulatory Commission.

Meraj Rahimi,

Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

NUCLEAR REGULATORY COMMISSION

[NRC-2020-0230]

Fire Protection for Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG), DG-1359, "Fire Protection for Nuclear Power Plants." This regulatory guide (RG) describes an approach that is acceptable to the NRC staff to meet the regulatory requirements in the NRC's regulations governing a civilian nuclear power generating plant's fire protection program (FPP).

DATES: Submit comments by December 31, 2020. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal Rulemaking website:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0230. Address questions about NRC docket IDs in
