for Atlantic HMS, i.e., tunas, swordfish, billfish, and sharks. 16 U.S.C. 1854(g)(1)(A)–(B). Since the inception of the AP in 1998, NMFS has consulted with and considered the comments and views of AP members when preparing and implementing Atlantic HMS FMPs or FMP amendments.

The intent of this meeting is to consider alternatives for the conservation and management of all Atlantic tunas, swordfish, billfish, and shark fisheries. We anticipate discussing:

- Draft Amendment 14, which would revise the framework used for the establishment of acceptable biological catch (ABCs) and annual catch limits (ACLs) for Atlantic shark fisheries consistent with the National Standard 1 guidelines;
- Management of the recreational billfishery in 2021 resulting from overharvest of the Atlantic blue marlin, white marlin, and roundscale spearfish 250-foot landings limit in 2020; and
- The Draft HMS Electronic Technology Plan.

Additional information on the meeting and a copy of the draft agenda will be posted prior to the meeting at: https://www.fisheries.noaa.gov/event/december-2020-hms-advisory-panel-meeting.

[FR Doc. 2020–25338 Filed 11–16–20; 8:45 am]
ACTION: Request for comments.

SUMMARY: On January 24, 2020, the Department of Homeland Security (DHS) released its Report to the President of the United States titled “Combating Trafficking in Counterfeit and Pirated Goods” (DHS Report). The report was prepared in response to the April 3, 2019, Presidential Memorandum titled “Memorandum on Combating the Trafficking in Counterfeit and Pirated Goods” (Presidential Memorandum). Among the action items identified in the DHS Report was action 11, titled “Establish a National Consumer Awareness Campaign.” To start implementation of this action item, the United States Patent and Trademark Office (USPTO) is seeking information from stakeholders, including, but not limited to, intellectual property rights holders, online third-party marketplaces, third-party intermediaries, and other private sector stakeholders, on the development of a National Consumer Awareness Campaign on Combating the Trafficking in Counterfeit and Pirated Products.

Submissions of Business Confidential Information: Any submissions containing business confidential information must be delivered in a sealed envelope marked “confidential treatment requested” to the address listed above. Submitters should provide an index listing the document(s) or information they would like the Department of Commerce to withhold. The index should include information such as numbers used to identify the relevant document(s) or information, document title and description, and relevant page numbers and/or section numbers within a document. Submitters should provide a statement explaining their grounds for objecting to the disclosure of the information to the public as well. The USPTO also requests that submitters of business confidential information include a non-confidential version (either redacted or summarized) of those confidential submissions that will be available for public viewing and posted on https://www.regulations.gov. In the event that the submitter cannot provide a non-confidential version of its submission, the USPTO requests that the submitter post a notice in the docket stating that it has provided the USPTO with business confidential information. Should a submitter fail to either docket a non-confidential version of its submission or post a notice that business confidential information has been provided, the USPTO will note the receipt of the submission on the docket with the submitter’s organization or name (to the degree permitted by law) and the date of submission.

SUPPLEMENTARY INFORMATION: The DHS Report describes how the rapid growth of e-commerce platforms, “further catalyzed by online third-party marketplaces connected to the platforms, has revolutionized the way products are bought and sold.” However, this overall growth “has facilitated online trafficking in counterfeit and pirated goods.”

American consumers shopping on e-commerce platforms now face a greater risk of purchasing counterfeits, including goods that endanger the health and safety of unsuspecting consumers.

Given the critical role that consumers can play in the battle against online counterfeiting, the DHS Report recommends the development of a national public-private awareness campaign to educate consumers regarding the risks of counterfeit and pirated goods, as well as the various ways consumers can spot counterfeit products.

The development of the DHS Report benefitted from extensive interagency discussions that included DHS, the Department of Justice, the Office of the United States Trade Representative, the Department of Commerce the Food and Drug Administration, the Office of the Intellectual Property Enforcement Coordinator, the Department of State, and also outreach to, and comments from, numerous private sector stakeholders. The USPTO, the International Trade Administration of the Department of Commerce, and many other government agencies work to combat counterfeit goods.

Request for Information: The USPTO requests information from interested stakeholders, including, but not limited to, intellectual property rights holders affected by the sale of counterfeit goods offered through e-commerce platforms, online third-party marketplaces, third-party intermediaries, other entities with experience in public-private awareness campaigns, and applicable government agencies.

Respondents may address any, all, or none of the following topics and may address additional related issues that have implications for establishing a national consumer awareness campaign designed to educate consumers on the direct and indirect costs and risks of counterfeit and pirated goods. Please identify, where possible, the subject(s) your comments are intended to address.

Respondents may organize their submissions in any manner. Reminder: Respondents have the burden to request that any information contained in a submission be treated as business confidential information and must certify that such information is business confidential and would not customarily
