

permit application meets the requirements of section 10(a)(1)(A) of the ESA. We will also evaluate whether issuance of the requested permits would comply with section 7(a)(2) of the ESA by conducting separate intra-Service consultations on each proposed permit action. The final NEPA and permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all comments received during the comment period. If we determine that all requirements are met, we intend to issue enhancement of survival permits under section 10(a)(1)(A) of the ESA.

Authority

We provide this notice in accordance with the requirements of section 10 of the ESA (16 U.S.C. 1531 *et seq.*) and NEPA (42 U.S.C. 4321 *et seq.*) and their implementing regulations (50 CFR 17.32 and 40 CFR 1506.6, respectively).

Robyn Thorson,

Regional Director, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX21RB00TU60200; OMB Control Number 1028–0123]

Agency Information Collection Activities; Current and Future Landsat User Requirements

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing to renew an information collection. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

DATES: Interested persons are invited to submit comments on or before January 19, 2021.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–0123 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Rudy Schuster, Branch Chief by email at schusterr@usgs.gov, or by telephone at (970) 226–9165.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS National Land Imaging (NLI) Program is currently planning for the next generation of Landsat satellites. These satellites will continue the multi-decadal continuous collection of moderate-resolution, multispectral, remotely-sensed imagery through the Landsat program. Landsat satellite imagery has been available at no cost to the public since 2008, which has resulted in the distribution of millions of scenes each subsequent year, as well tens of thousands of Landsat users registering with USGS to access the data. In order to continue to provide high quality imagery that meets the

needs of users, NLI is collecting current and future user requirements for sensor and satellite attributes. These attributes include spatial resolution, spectral bands, frequency of acquisition, and many others. NLI will use the information from this collection to understand if they are currently meeting the needs of their user community and to help determine the features of future Landsat satellites. Questions will be asked to determine user characteristics, current uses of imagery, preferred attributes of Landsat imagery, and benefits of Landsat imagery. Previous surveys were provided to all U.S. Landsat imagery users who were registered with USGS and a large sample of international Landsat users were also invited. However, many changes have occurred, and many Landsat users are not registered with USGS, but instead access Landsat imagery through a variety of cloud servers. The current and future user requirements for sensor and satellite attributes information from this user group has not been collected and is essential for future satellite decision-making within the NLI program. All Landsat users who participate during Earth observation capacity-building workshops will be invited to take part in the survey.

To protect the confidentiality and privacy of survey respondents, the data from the survey will not be associated with any respondent's email address at any time and will only be analyzed and reported in aggregate. All files containing PII will be password-protected, housed on secure USGS servers, and only accessible to the research team. The data from the survey will be aggregated and statistically analyzed and the results will be published in publicly available USGS reports.

Title of Collection: Current and Future Landsat User Requirements.

OMB Control Number: 1028–0123.

Form Number: None.

Type of Review: Renewal of a previously approved collection.

Respondents/Affected Public: General public.

Total Estimated Number of Annual Respondents: 11,660.

Total Estimated Number of Annual Responses: 11,660.

Estimated Completion Time per Response: 20 minutes on average. We estimate that it will take 20 minutes per person to complete the full survey and 5 minutes per person to complete the non-response survey.

Total Estimated Number of Annual Burden Hours: 3,335.

Respondent's Obligation: Voluntary.

Frequency of Collection: One time.
Total Estimated Annual Nonhour Burden Cost: There are no “non-hour cost” burdens associated with this collection of information.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Timothy Newman,

Program Coordinator, National Land Imaging Program, US Geological Survey.

 LXSSH1060000.20X.HAG 20–0060]

Notice of Meeting for the Steens Mountain Advisory Council’s Public Lands Access Subcommittee, Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of teleconference meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act of 1976 and the Federal Advisory Committee Act of 1972, the U.S. Department of the Interior, Bureau of Land Management’s (BLM) Steens Mountain Advisory Council’s (SMAC) Public Lands Access Subcommittee will meet as indicated below.

DATES: The Public Lands Access Subcommittee of the SMAC will hold a teleconference meeting on Wednesday, December 16, 2020, from 11:00 a.m. to 3:30 p.m.

ADDRESSES: The meeting will be held via teleconference. The final agenda and meeting access information will be available on the SMAC website no later than November 16, 2020, at <https://www.blm.gov/get-involved/resource-advisory-council/near-you/oregon-washington/steens-mac>.

FOR FURTHER INFORMATION CONTACT: Tara Thissell, Public Affairs Specialist, 28910 Highway 20 West, Hines, Oregon 97738; 541–573–4519; tthissell@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message

or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The SMAC was established August 14, 2001, pursuant to the Steens Mountain Cooperative Management and Protection Act of 2000 (Steens Act) (Pub. L. 106–399). The SMAC provides recommendations to the BLM regarding new and unique approaches to management of the land within the bounds of the Steens Mountain Cooperative Management and Protection Area (CMPA); recommends cooperative programs and incentives for landscape management that meet human needs; and advises the BLM on potential maintenance and improvement of the ecological and economic integrity of the area.

The SMAC’s Public Lands Access Subcommittee was established in 2015 and serves to research, discuss, and evaluate any public access issue in the Steens Mountain CMPA. Issues may relate to parking, hiking, motorized or non-motorized use, public to private land inholding routes and methods of travel, private to public land access by way of easement or other agreement, or purchase or exchange of public and private land for improved access and contiguous landscape. The Subcommittee reviews all aspects of any access issue, formulates suggestions for remedy, and proposes those solutions to the entire SMAC for further discussion and possible recommendation to the BLM.

The December 16 agenda includes an update from the Designated Federal Officer; discussion on the SMAC’s definition of “reasonable access”; an update on the Nature’s Advocate Inholder Access Environmental Assessment (EA); a discussion on the Pike Creek Parking Area EA; information sharing about Travel Management Planning for the Steens Mountain area; and an opportunity for Subcommittee members to share information from their constituents and present research. Any other matters that may reasonably come before the Subcommittee may also be included.

A public comment period is available at 2:30 p.m. Depending on the number of people wishing to comment and the time available, the amount of time for oral comments may be limited. Sessions may end early if all business items are accomplished ahead of schedule, or may be extended if discussions warrant more time. All meetings, including this Zoom videoconference, are open to the public in their entirety.

Public Disclosure of Comments: Before including your address, phone

number, email address, or other personal identifying information in your comments, please be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 CFR 1784.4–2.

Jeff Rose,

District Manager.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting electronic comments on the significance of properties nominated before November 7, 2020, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted electronically by December 3, 2020.

ADDRESSES: Comments are encouraged to be submitted electronically to National_Register_Submissions@nps.gov with the subject line “Public Comment on <property or proposed district name, (County) State>.” If you have no access to email you may send them via U.S. Postal Service and all other carriers to the National Register of Historic Places, National Park Service, 1849 C Street NW, MS 7228, Washington, DC 20240.

SUPPLEMENTARY INFORMATION:

The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before November 7, 2020. Pursuant to Section 60.13 of 36 CFR part 60, comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your
