

II. Method of Collection

The MOPS-HP sample will consist of approximately 3,200 hospital locations for enterprises classified under General Medical and Surgical Hospitals (NAICS 6221) and sampled in the Service Annual Survey (SAS). The survey will be mailed separately from the 2020 SAS and collected electronically through the Census Bureau's Centurion online reporting system. Respondents will be sent an initial letter with instructions detailing how to log into the instrument and report their information. These letters will be addressed to the location's CNO. In instances where the CNO is not identifiable, the letter will be addressed to the hospital's administrative office with attention to the CNO. Collection is scheduled to begin in the initial months of 2021.
