SUPPLEMENTARY INFORMATION: Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection. OMB Control Number: 2120–XXXX.

Title: Pilot Professional Development.

Type of Review: New collection.

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on October 7, 2016 (81FR69908). A second 60-day Federal Register Notice was published on September 29, 2020 (85FR61083). This action amends the requirements primarily applicable to air carriers conducting domestic, flag, and supplemental operations to enhance the professional development of pilots in those operations. This action requires air carriers conducting domestic, flag, and supplemental operations to provide new-hire pilots with an opportunity to observe flight operations and become familiar with procedures before serving as a flightcrew member in operations; to revise the upgrade curriculum; and to provide leadership and command and mentoring training for all pilots in command. This final rule will mitigate incidents of unprofessional pilot behavior and reduce pilot errors that can lead to a catastrophic event.

Summary: The final rule requires the development and approval of new and revised training curriculums for the following:
- Leadership and command and mentoring ground training for pilots currently serving as PIC ($121.429) and recurrent PIC leadership and command and mentoring training (§§ 121.409(b) and 121.427);
- Leadership and command training and recurrent leadership and command training for pilots serving as SIC in operations that require three or more pilots (§ 121.432(a));
- Upgrade training curriculum requirements (§§ 121.420 and 121.426);
- Part 121 appendix H requirements; and
- Approval of Qualification Standards Document for certificate holders using an Advanced Qualification Program (AQP) (§ 121.909).

The final rule also requires some additional recordkeeping related to maintaining records of pilots completing the following:
- Leadership and command and mentoring ground training for pilots currently serving as PIC (§ 121.429);
- Leadership and command training and recurrent leadership and command training for pilots serving as SIC in operations that require three or more pilots (§ 121.432(a));
- Recurrent PIC leadership and command and mentoring ground training (§ 121.427); and
- Operations familiarization for new-hire pilots (§ 121.435).

Use: This information will be used to ensure safety-of-flight by making certain that adequate training is obtained and maintained by those who operate under part 121. The FAA will review the respondents’ training programs and training courseware through routine certification, inspection and surveillance of certificate holders using part 121 pilot training and qualification programs to ensure compliance and adherence to regulations and, where necessary, to take enforcement action.

Respondents: As of February 2017, there were 79 certificate holders who use part 121 pilot training and qualification programs. They collectively employed 39,122 PICs and 42,227 SICs.

Frequency: Information is collected on occasion. Responses will vary based on type of operation.

Estimated Average Burden per Response: 206 hours.

Estimated Total Annual Burden: 9,614 Hours.

Issued in Washington, DC, on November 17, 2020.

Sandra L. Ray,
Aviation Safety Inspector, FAA Policy Integration Branch, AFS–270.

Notice of Final Federal Agency Actions on Proposed Transportation Project in Florida

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation on claims for judicial review of actions by Florida Department of Transportation (FDOT).

SUMMARY: The FHWA, on behalf of the FDOT, is issuing this notice to announce actions taken by FDOT and other Federal Agencies that are final agency actions. These actions relate to the proposed regional transportation improvement creating a new alignment from State Road 30 (US 98) in Walton County to State Road 79 in Bay County, State of Florida. These actions grant licenses, permits, or approvals for the project.

DATES: A claim seeking judicial review of the Federal Agency actions on the listed highway project will be barred unless the claim is filed on or before March 29, 2021. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: For FDOT: Jason Watts, Director, Office of Environmental Management, FDOT, 605 Suanee Street, MS 37, Tallahassee, Florida 32399; telephone (850) 414–4316; email: Jason.Watts@dot.state.fl.us. The FDOT Office of Environmental Management’s normal business hours are 8:00 a.m. to 5:00 p.m. (Eastern Standard Time), Monday through Friday, except State holidays.

SUPPLEMENTARY INFORMATION: Effective December 14, 2016, the FHWA assigned, and the FDOT assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that FDOT and other Federal Agencies have taken final agency actions subject to 23 U.S.C. 139 (I)(1) by issuing licenses, permits, or approvals for the proposed improvement highway project. The actions by FDOT and other Federal Agencies on the project, and the laws under which such actions were taken are described in the Final Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) issued on May 11, 2020, and in other project records for the listed project. The EA, FONSI, and other documents for the listed project are available by contacting FDOT at the address provided above. The EA, FONSI, and additional project documents can be viewed and downloaded from the project website at: https://nwflroads.com/projects/424464-2.

The project subject to this notice is: Project Location: Walton and Bay Counties, Florida—West Bay Parkway near Panama City Beach. The propose improvements include a new alignment
consisting of a four-lane, divided suburban roadway with a new high-
level crossing of the Gulf Intracoastal
Waterway (GICW) which is a navigable
waterway that traverses the project area
and connects Choctawhatchee Bay in
Walton County with West Bay in Bay
County.

Project Actions: This notice applies to
the EA, FONSI, and all other Federal
Agency licenses, permits, or approvals
for the listed project as of the issuance
date of this notice including but not
limited to the Biological Assessment,
Biological Opinion and Environmental
Resource Permits and all laws under

BILLING CODE 4910–RY–P

DEPARTMENT OF TRANSPORTATION
Federal Railroad Administration

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this provides
the public notice that on November 5,
2020, Illinois Central Railroad
Company, for itself and on behalf of the U.S. railroad subsidiaries operating
under the Canadian National Railway
Company (CN), petitioned the Federal
Railroad Administration (FRA) for a
waiver of compliance from certain
provisions of the Federal railroad safety regulations contained at 49 CFR part
232, Brake System Safety Standards for
Freight and Other Non-Passenger Trains
and Equipment; End-of-Train Devices.
FRA assigned the petition Docket
Number FRA–2020–0087.
Specifically, CN proposes to use
software technology to implement a
virtual three-dimensional simulation as
an alternative to satisfy the “hands-on”
portion of periodic refresher training
required by 49 CFR 232.203(b)(8).
Refresher training required at
intervals not to exceed 3 years, and
must consist of classroom and hands-on
training, as well as testing. CN states
the training will better equip CN employees
to perform Class I freight air brake
tests and there will be no impact on safety.

The instructor-led simulation is based
on performance of a Class I freight air
brake test and is designed to place the
user in a virtual realistic scenario.
The user is required to perform a variety
of inspection tasks relating to
preprogrammed defects including, but
not limited to, closed-out cocks,
uncoupled air hoses, closed angle cocks,
improperly positioned retainer valves,
fouled brake rigging, and using a two-
way end-of-train device. CN states that
it is often difficult to stage various types
of freight air brake equipment with
defects to demonstrate the location of
key components. CN also states that the
simulation allows CN to control the
environment and employees are better
able to examine components of the air
brake system. Furthermore, given the
restrictions of person-to-person contact
related to COVID–19, safety is further
enhanced by utilizing the simulation.

CN proposes to apply this waiver
system-wide to all CN personnel
responsible for performing Class I
freight air brakes tests. CN explains it
can use the simulation as a supplement
at initial training, but it will not replace
traditional hands-on training employees
receive at initial training.

A copy of the petition, as well as any
written communications concerning the
petition, is available for review online at

Interested parties are invited to
participate in these proceedings by
submitting written views, data, or
comments. FRA does not anticipate
scheduling a public hearing in
connection with these proceedings since
the facts do not appear to warrant a
hearing. If any interested parties desire
an opportunity for oral comment and a
public hearing, they should notify FRA,
in writing, before the end of the
comment period and specify the basis
for their request.

All communications concerning these
proceedings should identify the
