### SUPPLEMENTARY INFORMATION:

#### I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, DHS/ICE proposes to modify and reissue a current DHS system of records notice (SORN) titled, "DHS/ICE-009 External Investigations System of Records." DHS/ICE is updating this system of records to better reflect and clarify the nature of law enforcement investigatory records collected, maintained, and shared by ICE.

The purpose of this system of records is to collect and maintain records related to external investigations and support conducted by ICE offices, primarily HSI. ICE/HSI is the largest investigative branch of the DHS. The agency was created to more effectively enforce immigration and customs laws and to protect the United States against terrorist attacks. ICE does this by targeting the people, money, and materials that support terrorism and other criminal activities. ICE investigates on its own and in conjunction with other agencies a broad

range of illegal activities, such as terrorism, organized crime, gangs, child exploitation, and intellectual property violations.

This system of records covers information related to external audits, inquiries, and investigations pertaining to suspected violations of laws regulating the movement of people and goods into and out of the United States. For example, this system of records will include investigatory records that are generated prior to the creation of an official case file, and records pertaining to immigration status inquiries that do not constitute an official criminal investigation.

This system of records was also used to support information requests from the U.S. Congress relating to potential recipients of private immigration relief. That purpose has since been transferred to the DHS/ICE-011 Criminal Arrest Records and Immigration Enforcement Records (CARIER) System of Records (*see* 81 FR 72080 (October 19, 2016)). This update modifies the system of records notice to excise the stated purpose, category of individuals, and routine use that related to supplying information to assist with private immigration relief.

The following list includes the full explanation of changes to this system of records notice:

(1) The category of individuals in this system of records has been modified to include family members and known associates of a subject of investigation, as well as individuals and third-party record holders who are served administrative subpoenas and summonses for the production of records and testimony.

(2) The category of records has been modified to include criminal history, immigration status and history, biometrics (*e.g.*, facial images, iris images, and fingerprints), record holder information (*e.g.*, biographical, contact), information derived from location tracking tools, License Plate Reader (LPR) information, social media information, suspicious financial activity, currency transaction reports, currency or monetary instrument reports, email addresses and the contents of email records, unique numerical identifiers assigned to biometrics, telecommunication device identifiers, telecommunications usage data, call and subscriber records, banking records, travel history records, and the statements of targets and witnesses. The categories of records will also include information pertaining to DNA tests conducted by ICE to verify a familial relationship.

(3) DHS is modifying Routine Use E and adding Routine Use F to conform to the Office of Management and Budget (OMB) Memorandum M-17-12 "Preparing for and Responding to a Breach of Personally Identifiable Information," (Jan. 3, 2017).

(4) ICE is also adding Routine Uses I, T, and U. Routine uses following Routine Use E are being renumbered to account for these additional routine uses. The following routine uses were added to:

- (I) Allow data sharing between ICE and other federal agencies for a statistical or research purpose, including the development of methods or resources to support statistical or research activities.

- (T) Allow sharing between ICE and the Department of State (DOS) in order to support DOS in making accurate passport and visa issuance, reissuance or revocation determinations;

- (U) Allow data sharing between ICE and federal, state, local, tribal, territorial, international, or foreign government agencies or multinational governmental organizations when DHS desires to exchange relevant data for the purpose of developing, testing, or implementing new software or technology whose purpose is related to the purpose of this system of records.

(5) ICE is removing a routine use listed in the previous SORN as Routine Use N, which permitted sharing to any person or entity to the extent necessary to prevent immediate loss of life or serious bodily injury, such as disclosure of custodial release information to witnesses who have received threats from individuals in custody. This routine use was found to be duplicative of other routine uses, and has been removed.

(6) Additionally, DHS/ICE is making non-substantive edits to the routine uses to align with previously published Department of Records Notices and in accordance with Appendix I to OMB Circular A-130, Federal Agency Responsibilities for Maintaining Records About Individuals.

(7) DHS/ICE is also correcting the records retention schedule for the system of records from 75 years, as stated in the previous publication of this SORN, to 20 years. The former retention schedule was approved by the National Archives and Records Administration (NARA) for U.S. Customs, before ICE was created. The corrected schedule currently controls ICE records management, but ICE is in the process of creating a new schedule for approval by NARA.

Lastly, this notice includes non-substantive changes to simplify

formatting and text of the previously published notice.

## II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. Additionally, the Judicial Redress Act (JRA) provides covered persons with a statutory right to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses to which personally identifiable information is put, and to assist individuals to more easily find such files within the agency. Below is the description of the DHS/ICE-009 External Investigations System of Records. In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget (OMB) and to Congress.

#### **POLICIES AND PRACTICES FOR STORAGE OF RECORDS:**

Records in this system are stored electronically or on paper in secure facilities in a locked drawer behind a locked door. The records are stored on magnetic disc, tape, digital media, and CD-ROM.

#### **POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:**

Records are retrieved by individual's name, date of birth, ICE investigative file number, Social Security number, numerical identifiers assigned to biometrics collected (e.g., fingerprint ID number); driver's license number, pilot's license number, vehicle license

plate number, address, home telephone number, passport number, citizenship, country of birth, armed forces number, and date of entry into the United States.

#### **POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:**

Investigative files concerning munitions control cases are permanent records that are transferred to the Federal Records Center after one year, and then transferred to NARA fifteen years after case closure, in accordance with legacy Customs schedule N1-36-86-1/162.38. Records for all other closed investigative cases are retained for 20 years in accordance with legacy customs schedule N1-36-86-1-161.3 (inv 7B). Destruction is by burning or shredding. An updated schedule for investigative records will be developed and submitted to NARA for approval.

#### **ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:**

DHS/ICE safeguards records in this system according to applicable rules and policies, including all applicable DHS automated system security and access policies. DHS/ICE has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions. The system maintains a real-time auditing function of individuals who access the system. Additional safeguards may vary by component and program.

#### **RECORD ACCESS PROCEDURES:**

The Secretary of Homeland Security has exempted this system from the notification, access, and amendment procedures of the Privacy Act because it is a law enforcement system. However, ICE will consider requests to determine whether or not information may be released. Thus, individuals seeking notification of and access to any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the U.S. Immigration and Customs Enforcement Freedom of Information Act (FOIA) Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act Officer, U.S. Department of Homeland Security,

245 Murray Drive SW, Building 410, STOP-0550, Washington, DC 20528. Even if neither the Privacy Act nor the Judicial Redress Act provides a right of access, certain records about you may be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <http://www.dhs.gov/foia> or 1-866-431-0486. In addition, the individual should:

- Explain why he or she believes the Department would have information being requested;
- Identify which component(s) of the Department he or she believes may have the information;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records.

If the request is seeking records pertaining to another living individual, the request must include an authorization from the individual whose record is being requested, authorizing the release to the requester.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

#### **CONTESTING RECORD PROCEDURES:**

For records covered by the Privacy Act or covered JRA records, individuals may make a request for amendment or correction of a record of the Department about the individual by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each particular record in question, state the amendment or correction desired, and state why the individual believes

that the record is not accurate, relevant, timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record.

Individuals who wish to contest the accuracy of records in this system of records should submit these requests to the Privacy Division of the ICE Information Governance & Privacy Office. Requests must comply with verification of identity requirements set forth in Department of Homeland Security Privacy Act regulations at 6 CFR 5.21(d). Please specify the nature of the complaint and provide any supporting documentation. By mail (please note substantial delivery delays exist): ICE Information Governance & Privacy Office, ATTN: Privacy Division, 500 12th Street SW, Mail Stop 5004, Washington, DC 20536. **SUPPLEMENTARY INFORMATION:** The Department of Homeland Security (DHS) collects information, when necessary, in administering public contracts for supplies and services. The information is used to determine compliance with contract terms placed in the contract as authorized by the Federal Property and Administrative Services Act (41 U.S.C. 251 *et seq.*), the Federal Acquisition Regulation (FAR) (48 CFR Chapter 1), and the Homeland Security Acquisition Regulation (HSAR) (48 CFR Chapter 30). Respondents submit information based on the terms of the contract; the instructions in the contract deliverables mandatory reporting requirements; and correspondence from acquisition personnel requesting post-award contract information. The least active contracts and the simplest contracts will have little to no data to report. The most active and complex contracts, however, will contain more reporting

requirements. DHS believes that some of this information is already readily available as part of a company's business processes and that the largest businesses use computers to compile the data. However, a significant amount of time is spent correlating information to specific contract actions and gathering information for more complex contract actions.

The prior information collection request for OMB No. 1600-0003 was approved through May 31, 2022 by OMB, and includes the following:
