Bureau of the Census

2020 Census Tribal Consultation; Virtual Public Meeting

AGENCY: Bureau of the Census,
Department of Commerce.

ACTION: Notice of virtual public meeting:
2020 Census Tribal Consultation.

SUMMARY: The Bureau of the Census (Census Bureau) will conduct its final calendar year 2020 tribal consultation meeting on December 16 via a webinar. The tribal consultation meetings reflect the Census Bureau's commitment to strengthen government-to-government relationships with federally recognized tribes. The Census Bureau will provide updates and seek input on the 2020 Census Disclosure Avoidance System (DAS). The Census Bureau conducted one national tribal consultation webinar in September 2019 and two formal tribal consultation meetings in October 2019 specific to the 2020 Census Disclosure Avoidance System. The Census Bureau is planning one national webinar on December 16, 2020 with federally recognized tribes, which will provide a forum for tribes to receive an update and to provide input on the 2020 Census Disclosure Avoidance System regarding work done specifically for the American Indian and Alaska Native tribal areas. The Census Bureau will provide information directly to tribes prior to the national webinar to give tribes time to review and provide input.

DATES: The Census Bureau will conduct the tribal consultation webinar on Wednesday, December 16, 2020, from 3 p.m. to 4:30 p.m. EST. Any questions or topics to be considered in the tribal consultation meetings must be received in writing via email by Monday, December 14, 2020.

ADDRESSES: The Census Bureau tribal consultation webinar meeting will be held via the WebEx platform at the following presentation link: <https://uscensus.webex.com/uscensus/onstage/>

SUPPLEMENTARY INFORMATION:

Background

The Census Bureau's procedures for outreach, notice, and consultation ensure involvement of tribes, to the extent practicable and permitted by law, before making decisions or implementing policies, rules, or programs that affect federally recognized tribal governments. These meetings are open to citizens of federally recognized tribes by invitation.

The Census Bureau's Decennial Directorate and the Intergovernmental Affairs Office have been responsible for the development and implementation of outreach and promotion activities to assist in obtaining a complete and accurate census count in 2020 among all residents, including the American Indian and Alaska Native populations. This program is one part of the overall outreach and promotion efforts directed at building awareness about the importance of the Census Bureau's commitment to produce quality 2020 American Indian and Alaska Native data for all tribal communities and organizations.

In accordance with Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, issued November 6, 2000, the Census Bureau has adhered to its tribal consultation policy by seeking the input of tribal governments in the planning and implementation of the 2020 Census with the goal of ensuring the most accurate counts and data for the American Indian and Alaska Native population. In that regard, we are seeking comments to the following operational topics:

1. 2020 Census Disclosure Avoidance System
2. American Indian and Alaska Native Geography Hierarchy

Through the national tribal consultation webinar, Census Bureau staff will provide tribal communities with further details on the disclosure avoidance methodology being considered for the 2020 Census. Notice of Petitions by Firms for Determination of Eligibility To Apply for Trade Adjustment Assistance

AGENCY: Economic Development Administration, U.S. Department of Commerce.

ACTION: Notice and opportunity for public comment.

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the firms contributed importantly to the total or partial separation of the firms' workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

SUPPLEMENTARY INFORMATION:

Diamond Sawblades and Parts Thereof From the People's Republic of China: Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is simultaneously initiating and issuing the preliminary results of a changed circumstances review (CCR) of the antidumping duty order on diamond sawblades and parts thereof (diamond sawblades) from the People's Republic of China (China) to determine whether Protech Diamond Tools Inc. (Protech) is eligible to participate in a certification process because Protech has demonstrated that it can identify

diamond sawblades that it produced in Canada using non-Chinese cores and Chinese segments. We invite interested parties to comment on these preliminary results.

DATES: Applicable November 20, 2020.

FOR FURTHER INFORMATION CONTACT: Yang Jin Chun, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-5760.

SUPPLEMENTARY INFORMATION:

Background

On February 20, 2020, Commerce found "that diamond sawblades made with Chinese cores and Chinese segments joined in Canada by Protech and then subsequently exported from Canada to the United States are circumventing the antidumping duty order on diamond sawblades from China."¹ In the *Final Determination*, Commerce found that diamond sawblades "assembled or completed in Canada using non-Chinese origin cores and/or non-Chinese origin segments are not subject to this anti-circumvention inquiry," but because Protech was unable "to identify diamond sawblades produced with non-Chinese origin cores and/or non-Chinese origin segments," Commerce decided not to "implement a certification process for diamond sawblades already suspended," and required "cash deposits on all entries of diamond sawblades produced and exported by Protech in Canada."² However, Commerce indicated that Protech could at some future point request reconsideration of Commerce's

denial of the certification process in, e.g., a CCR.³

On August 19, 2020, Protech submitted a request for a CCR, in which Protech claims that it is able to identify and segregate diamond sawblades made with non-Chinese cores and Chinese segments joined in Canada by Protech and then subsequently exported from Canada by Protech, its affiliate Gogo International Inc. (Gogo), or a third party, to the United States.⁴ Protech requests that Commerce find it eligible for certification of these diamond sawblades as non-subject merchandise. On August 26, 2020, Diamond Sawblades Manufacturers' Coalition (DSMC) submitted a letter supporting the CCR Request.⁵ In response to our request for additional information, Protech submitted its supplemental responses on September 15, 2020,⁶ and October 1, 2020.⁷

Scope of the Order

The products covered by the order are all finished circular sawblades, whether slotted or not, with a working part that is comprised of a diamond segment or segments, and parts thereof, regardless of specification or size, except as specifically excluded below. Within the scope of the order are semi-finished diamond sawblades, including diamond sawblade cores and diamond sawblade segments. Diamond sawblade cores are circular steel plates, whether or not attached to non-steel plates, with slots. Diamond sawblade cores are
